**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** CORROSIVE. Causes irreversible eye damage and skin burns. May be fatal if swallowed or inhaled. Harmful if absorbed through the skin. Do not get in eyes, on skin or on clothing. Do not inhale vapor. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Wear protective eyewear (goggles or face shield), protective clothing and protective gloves (rubber or chemical resistant) gloves. Wear a respirator with an organic vapor removing cartridge with a prefilter approved for pesticides (MSHA/NIOSH approval number prefilter TC-230), or a canister approved for pesticides (MSHA/NIOSH approval number prefilter TC-149) or a N95 approved respirator with an organic vapor (OV) cartridge or canister with any R, P, or N prefilter.

**FIRST AID**

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.  
If in eyes: Hold eye open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eyes. Call a poison control center or doctor for treatment advice.  
If on skin or clothing: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.  
If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.  
If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsions may be needed.

**ENVIRONMENTAL HAZARDS**

This product is toxic to fish and aquatic wildlife. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, sewers or other waters unless in accordance with the requirements of the National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARDS**

DO NOT USE OR STORE NEAR HEAT OR FLAME!

---

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is a concentrate for formulating or repackaging purposes only.  
For formulation or repackaging into antimicrobial products for use in wood and oil field water flow systems, recirculating cooling water systems and heat transfer systems. For formulation or repackaging into preservation products for use in metal working fluids, paints and cleaning products.

For formulation or repackaging into antimicrobial products for use on hard surfaces and equipment in medical, commercial, residential, industrial and institutional premises.  
For formulation or repackaging into antimicrobial products for use in paper, wallboard (drywall and gypsum board), paperboard and coating, etc. Only for use in products treated with paper and paperboard in which the treated paper and paperboard is used for insulation backing, wallboard covering and equivalent uses. Do not use this product in the manufacture of paper and paperboard products that may contact food.

Formulated or re-packaged products must be registered with the EPA. Formulators using this product are responsible for providing data for the EPA registration of their formulated product.

**NOTE:** This product must not be used or compeundized with any reducing or oxidizing agents such as calcium hypochlorite, sodium perborate, or retro-acid since such mixtures may be explosive. Do not use in conjunction with soap or any anionic wetting agent.

---

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.  
**PESTICIDE STORAGE:**

Do not store on shed. Avoid creosote or impactions of side walls.  
**CONTAINER DISPOSAL:**

Nonrefillable containers. Do not reuse or re-fill this container. Triple rinse container (or equivalent) promptly after emptying. Then offer for recycling, if available or puncture and dispose of in a sanitary landfill, or incinerate, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke. If not triple rinsed, these containers are acute hazardous wastes and must be disposed of in accordance with local, state, and federal regulations.  
**PESTICIDE DISPOSAL:**

Pesticides present are solidly hazardous. Improper disposal of these pesticides, spray mixtures, or residues is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide Control or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
