KEEP OUT OF REACH OF CHILDREN
DANGER PELIGRO

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Corrosive. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled
or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin or
on clothing. Wear goggles or face shield and rubber gloves and protective clothing when
handling. Wash thoroughly with soap and water after handling and before eating, drinking,
chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash
clothing before reuse.

ENVIRONMENTAL HAZARD - This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS - Do not use or store near heat or open flame. Do not
mix with oxidizers, anionic soaps and detergents.

FIRST AID: Have the product container or label with you when calling a poison control center
or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with
plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove
contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison
control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.
Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do
so by a poison control center or doctor. Do not give anything by mouth to an unconscious
person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance,
then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control
center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric
suction.

PELIGRO: SI NO PUEDE LEER EN INGLÉS, PREGUNTE A SU SUPERVISOR SOBRE LAS
INSTRUCCIONES DE USO APROPIADAS ANTES DE TRABAJAR CON ESTE PRODUCCIO

DANGER: IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE
APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.

DANGER

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Caustic. Causes irreversible eye damage and skin burns. Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing spray mist. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves and protective clothing when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD - This product is toxic to fish. PHYSICAL OR CHEMICAL HAZARDS - Do not use near heat or open flame. Do not mix with oxidizers, antiseptic soaps and detergents.

FIRST AID: Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15 to 30 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold open eye and rinse slowly and gently with water for 15 to 20 minutes. Remove contact lenses (if worn) after the first few minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice.

IF EXPOSED: Have person to fresh air. If person is not breathing, call or get an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

PELIGRO: SI NO PUEDO LEER EN INGLÉS, PREGUNTA A SU SUPERVISOR SOBRE LAS INSTRUCCIONES DE USO APROPIADAS DE TRABAJAR CON ESTE PRODUCTO

DANGER: IF YOU CANNOT READ ENGLISH, ASK YOUR SUPERVISOR TO EXPLAIN THE APPROPRIATE DIRECTIONS FOR USE BEFORE WORKING WITH THIS PRODUCT.

This product is a complete, chemically balanced disinfectant/sanitizer that provides clear use solutions even in the presence of hard water. Contains no fragrances.

Food Contact Surface Sanitizer.

This product has been cleared by the EPA in 40CFR180.440(a) and (c) for use on hard, non-porous environmental food processing equipment, utensils, and other hand non-porous environmental food – contact articles at a concentration of 100 ppm active.

If, for example, Salmonella and Staph are common bacteria found where food is prepared and stored, this product kills these bacteria and helps prevent cross-contamination on food contact kitchen surfaces listed on this label.

Regular, effective cleaning and sanitizing of equipment, utensils and work or dining surfaces which could harbor food poisoning microorganisms minimizes the probability of contaminating food during preparation, storage or service. Effective cleaning will remove soil and prevent the accumulation of food residues, which may decompose or support the rapid development of food poisoning organisms and toxins. Application of effective sanitizing procedures reduces the number of those microorganisms that are present on equipment, and minimizes their ability to grow, live, and reduces the potential for the transfer, either directly through tableware such as glasses, cups and flatware or indirectly through food.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Before use as a sanitizer, food products and packaging materials must be removed from the room or carefully protected prior to application; remove gross food particles and all fat or pre-flush or pre-ocape and when necessary prewash. Thoroughly wash or flush objects with a good detergent or compatible cleaner followed by a potable water rinse before applying the sanitizing solution.

FOOD CONTACT SANITIZING PERFORMANCE: At a concentration of this product per 4 gallons of water (or equivalent use dilution) (200 ppm active), this product eliminates 99.999% of the following bacteria in 3 minutes in 3 ppm hard water according to the AOAC and Direct E. coli: Escherichia coli and Staphylococcus aureus for sanitation (Sanitizing) action of disinfectants test.

Aeromonsa hydrophila Listeria monocytogenes

Corynebacterium parvum Salmonella enterica

Cystidium purificatio-vegetarive Salmonella enteritidis

Escherichia coli Shigella dysenteriae

Escherichia coli O157:H7 Salmonella typhi

Escherichia coli O157 Shigella sonnei

Escherichia coli O111:O125 Salmonella entericin

Shigella flexneri: Shigella flexneri:

Staphylococcus aureus Shigella sonnei

Staphylococcus aureus Methicillin resistant Shigella flexneri

Staphylococcus aureus Methicillin resistant Shigella flexneri

At a concentration of this product per 4 gallons of water (200 ppm active) this product is effective with a 5 minute contact time as a food-contact surface sanitizer in water up to 200 ppm hardness against Escherichia coli and Staphylococcus aureus for sanitizing when used for sanitation of previously cleaned hard nonporous food equipment or food contact items, limit active to 200 ppm active. At this level NO POTABLE WATER RISK is allowed.

SANITIZING OF FOOD PROCESSING EQUIPMENT AND OTHER HARD NONPOROUS FOOD CONTACT SURFACES IN FOOD PROCESSING LOCATIONS, MEAT PLANTS, DAIRIES, BAKERIES, CANNERS, BEVERAGE PLANTS, RESTAURANTS AND BARS DIRECTIONS: For sanitizing precleaned food processing equipment, daily equipment, food utensils, dishes

silverware, eating utensils, glasses, sink tops, countertops, refrigerated storage and display equipment and other hand, non-porous food contact surfaces, apply use solution of 1 ounce of this product per 4 gallons of water (or equivalent use dilution) (200 ppm active) with a cloth, brush, sponge, mop, auto scrubber, mechanical spray device or by immersion, thoroughly washing surfaces. For spray applications, spray up to 8 inches from surface. Do not breathe spray. Rub with brush, sponge, or cloth. Dishes, silverware, glasses, cooking utensils, eating utensils and other similar food processing equipment must be sanitized by immersion in a volume of this product per a gallon of water use solution (200 ppm active) for 1 minute. Allow surface to remain wet for at least one minute. Allow sanitized surfaces to adequately drain before contact with food and then air dry. Do not rinse. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily when use solution becomes visibly dirty for mechanical applications, use solution must not be reused for sanitizing applications.

DIRECTIONS FOR SANITIZING FOOD CONTACT SURFACES IN PUBLIC EATING PLACES, DAIRY PROCESSING EQUIPMENT AND FOOD PROCESSING EQUIPMENT AND UTENSILS, AND FOOD CONTACT ARTICLES REGULATED BY 40CFR DC.15

Sanitize pre-cleaned hand nonporous articles using a solution of 1 ounce of this product per gallon of water (or equivalent use dilution) (200 ppm active) Articles that can be immersed in solution must remain in solution for 1 minute. Articles too large for immersion must be thoroughly wetted for 1 minute by rinsing, spraying or swabbing. Allow sanitized surfaces to adequately drain before contact with food and then air dry.

3. Do not rinse.

4. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. For mechanical application, use solution must not be reused for sanitizing applications.

U.S. PUBLIC HEALTH SERVICE FOOD SURFACE SANITIZATION

RECOMMENDATIONS CLEANING AND SANITIZING

1. Thoroughly wash equipment and utensils in a hot detergent solution. Rinse utensils and equipment thoroughly with potable water.

2. Sanitize equipment and utensils by immersion in a 1 ounce of this product per gallon of water use solution (200 ppm active) for at least one minute at a temperature of 125°F.

3. For equipment and utensils too large to sanitize by immersion, apply use solution of 1 ounce of this product per gallon of water use solution (200 ppm active) for one equivalent use dilution by rinsing, spraying or swabbing until thoroughly wetted for 1 minute. Allow sanitized surface to adequately drain before contact with food and then air dry.

4. Do not rinse.

5. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. For mechanical application, use solution must not be reused for sanitizing applications.

WISCONSIN STATE DEPARTMENT OF HEALTH

DIRECTIONS FOR EATING ESTABLISHMENTS: Not applicable in WISCONSIN

1. Scrub and pre-wash hard nonporous utensils and glasses wherever possible.

2. Wash with a good detergent or compatible cleaner.

3. Rinse with potable water.

4. Sanitize in a solution of 1 ounces of this product per gallon of water (200 ppm active) in one solution for at least one minute at a temperature of 125°F.

5. For equipment and utensils too large to sanitize by immersion, apply use solution of 1 ounces of this product per gallon of water (200 ppm active) for one equivalent use dilution by rinsing, spraying or swabbing until thoroughly wetted for 1 minute. Allow sanitized surface to adequately drain before contact with food and then air dry.

6. Do not rinse.

7. Prepare fresh sanitizing solution at least daily or when use solution becomes visibly dirty.

8. Return machine to service.

DIRECTIONS FOR SANITIZING FOOD CONTACT SURFACES OF FOOD PROCESSING EQUIPMENT, UTENSILS, AND OTHER HARD NONPOROUS SURFACES IN FOOD CONTACT LOCATIONS: For sanitizing food processing equipment, daily equipment, refrigerated storage, display and equipment and other hand, non-porous surfaces. Equipment and utensils must be thoroughly pre-flushed or pre-scraped and, when necessary, pretreated to remove gross food particles.

1. Scrape off visible soil.

2. Wash and rinse all surfaces thoroughly.

3. Apply a solution of 1 ounces of this product per gallon of water (200 ppm active) directly by pouring or by misting through the solution. Surfaces must remain wet for at least one minute followed by complete dry drying.

4. Allow sanitized surface to adequately drain before contact with food and then air dry.

5. Do not rinse.

6. Change cloth, sponge or towels frequently to avoid redeposition of soil. Prepare a fresh solution at least daily or when use solution becomes visibly dirty. For mechanical application, use solution must not be reused for sanitizing applications.

STORAGE AND DISPOSAL

Do not containate water, food, or feed by or storage and disposal.

PESTICIDE DISPOSAL/STORAGE: Open dumping is prohibited. Store only in original container. Store pesticides away from food, pet food, feed, fertilizers, and veterinary supplies. Keep this product under locked storage sufficient to make it inaccessible to children or persons unfamiliar with its proper use. Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or residue is a violation of Federal Law. If these wastes cannot be disposed of by use in accordance with the instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

PACKET DISPOSAL: Nonrefillable container. Completely empty packet into application equipment. Do not reseal or refill packet. Wrap empty packet and put in trash.
