See back panel for First Aid and additional Precautionary Statements.
DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Apply this undiluted product by sponge, rag, cloth, mop, spray or immersion to wet all surfaces thoroughly.

When used as directed this product effectively kills the following microorganisms at room temperature with a 20-minute contact time.

Contact time: 20 minutes

Contact time against Enteroic Bacteria: Salmonella, Staphylococcus aureus and Escherichia coli (E.Coli), Herpes Simplex Virus* (HSV-2), Human Immunodeficiency Virus* (HIV), Influenza A Virus, Poliovirus, Rotavirus, RSV and Rota Virus.

For surface cleaning: Prior to surface disinfection or sanitization, pre-clean all surfaces, making sure to remove all gross debris and heavy soil, by scrubbing surfaces with this product and then immediately wipe surface cleaning using a fresh paper or cloth towel. Repeat, if necessary, until surfaces are visibly clean. Discard paper towels or launder cloth towels between uses.

For surface disinfection: Apply this product to pre-cleaned surfaces by sponge, cloth, mop, spray or immersion to wet all surfaces thoroughly. Allow to remain wet for 10 seconds at room temperature, then wipe surface using a clean mop, paper or cloth towel, or rinse surface using potable water or wipe surface dry or allow to air dry. Descart or launder spent materials before reuse.

For surface sanitization: Apply product to clean surfaces by sponge, cloth, mop, spray or immersion to wet all surfaces thoroughly. Allow to remain wet for 2 minutes, then wipe dry using a clean mop, paper or cloth towel, or rinse surface using potable water and wipe surface dry or allow to air dry. Descart or launder spent materials before reuse.

INSTRUMENTS / DEVICES:

For use as a pre-cleaning spray: Place item into a suitable container. Thoroughly spray item with this product until drenched, thoroughly rinse. Follow with an appropriate terminal cleaning and sterilization/disinfection process.

For use as a protective eye wear/appliances cleanser/disinfectant/sterilizer: Thoroughly wet entire surface and wipe clean using a soft cloth. Weekly cleaning and rinsing with soap and water is recommended. Failure to follow directions will result in reduced effectiveness.

SURFACES:

This product is not to be used as a terminal sterilant or high-level disinfectant on any surface or equipment that is intended to come in contact with the internal body or directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (C) contact with intact mucous membranes. But which does not ordinarily penetrate the blood barrier or otherwise enter sterile areas of the body. This product may be used to pre-clean or decontaminate critical and semi-critical medical devices prior to sterilization or high-level disinfection.

This product is not to be used in a terminal sterilant or high-level disinfectant on any surface or instrument that is intended to come in contact with the internal body or directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (C) contact with intact mucous membranes. But which does not ordinarily penetrate the blood barrier or otherwise enter sterile areas of the body. This product may be used to pre-clean or decontaminate critical and semi-critical medical devices prior to sterilization or high-level disinfection.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Storage: Store in original container in a cool, well-ventilated area inaccessible to children and pets. Pesticide Disposal: Waste resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

Container Disposal: Refillable container. Refill this container with only the product originally supplied in this container. Do not reuse this container for any other purpose. When empty, fill the container about 10 percent full of water. Agitate vigorously and dispose of contents on site or at an approved waste disposal facility. Offer container for recycling, if available, otherwise dispose of container in trash.

FIRST AID

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, as soon as possible. If Skin Or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-936-9040 for emergency medical treatment information.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: May be harmful if inhaled or absorbed through skin. May cause moderate eye irritation. Avoid breathing vapors and contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

Physical or Chemical Hazards

Do not use or store near heat or open flame.
