Call your gas utility or Management Company if you need assistance with your pilot light.

**Step 1: BEFORE YOU FOG:**

**OPEN** cabinets, cupboards, drawers, closets and kiosks in areas to be treated.

**REMOVEx** cover exposed foods, dishes, utensils, food processing equipment and surfaces. Cover waxed wood floors, waxed furniture and other plastic surfaces near the fogger (newspaper may be used). Remove pets, birds and cover fish aquariums before use.

CLOSE outside doors and windows. **SHUT OFF** fans and air conditioners. Immediately before activating fogger, complete the door hang-tag by filling in the time and date to instruct family and other people with access to the treated area (premises) not to enter for at least two (2) hours following the time of application.

**HANG THE TAG ON THE DOOR TO THE ENTRANCE.**

**Step 2: TO START FOGGING:**

Do not place on water storable surface. Place a chair or table in the center of the area to be fogged approximately 2 ft above the floor. Cover with several layers of newspaper or paper towels. Tilt can opening AWAY from and depress tab firmly with thumb until it clicks in locked position. Set fogger on newspaper. Immediately leave the area.

**Step 3: AIRING OUT**

Vacate the treated house, individual apartment unit, or other structure immediately. Do not remain in the area during treatment. Keep treated area closed for 2 hours. Do not re-enter for 2 hours. Before re-occupying the treated area, open all doors and windows, and allow the treated area to thoroughly ventilate (air out) for at least 2 hours. Repeat treatment in two (2) weeks if insects return.
