Turf Fertilizer
21-0-18
with DICOT Weed Control IV

Not for use on turf being grown for sale or other commercial use as sod, or for commercial area production, or for research purposes.

Controls Dandelion, Chickweed, Knotweed, Plantain, Herbst, and other broadleaf weeds.

• Provides a controlled release nitrogen feeding from methylene urea technology.
• Small particle formulation for excellent weed control.

GUARANTEED ANALYSIS

Total Nitrogen (N) 21.00%
12.08% Urea Nitrogen
8.32% Water Soluble Nitrogen
2.62% Other Water Soluble Nitrogen*
Soluble Potassium (K+) 18.00%
Total Sulfur (S) 6.10%
1.02% combined Sulphur (S)

Plant nutrients derived from urea, potassium sulfate and methylene urea.

Nitrogen information regarding the contents and levels of each in this product is available at the Internet on http://www.regulatory-info.org.

ACTIVE INGREDIENTS:
2,4-dichlorophenoxyacetic acid 0.76%
2-chloro-4-(3-chlorophenoxy)propionic acid 0.17%
Dichlobenil 5.06%
SDIR ingredients 0.05%

INERT INGREDIENTS:
99.56%

PRODUCT CONTAINS:
15.2 lbs. 2,4-dichlorophenoxyacetic acid equivalent per ton
3.4 lbs. (1.5%) 2,4-dichloro-4-(3-chlorophenoxy) propionic acid equivalent per ton
1.4 lbs. Dichlobenil 5.06% equivalent per ton

CONTAINS THIS COMPOUND, WHICH CONFORMS TO THE PMA SPECIFICATIONS:

BEDROOM: Bedroom, Bed, Duvet, Comforter, Blanket, Chair, Lamp, Table, Mirror, Dresser
BATHROOM: Bathtub, Sink, Toilet, Shower, Toilet Paper, Towel
LIVING ROOM: Furniture, TV, Couch, Chair, Lamp, Table

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use on ornamental lawns and turf established in institutional, ornamental, and residential sites. Grass seed crops and soil term uses are excluded. Not for use on turf grown for sale or other commercial use as sod, or for commercial seed production, or for research purposes.

Do not allow people (other than applicant) or pets on treatment area during application. Do not enter treatment area until spray has dried or dust has settled.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. STORAGE: Store in original container and keep all bags containing unused product in a locked storage area inaccessible to children and domestic animals.

Dichlobenil: Prevent disposal of waste pesticides. Improper disposal of waste pesticides, spray mixture, or waste is a violation of Federal law and may contaminates groundwater. These wastes cannot be disposed of by using according to label instructions. Container or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: For Proper and Plastic Bags: Completely empty bag into application equipment. Then dispose of empty bag to sanitary landfill, or by incineration, or if allowed by State and local authorities by burning. It burned, smelted out of smoke.

WHERE TO USE:

This product is a herbicide containing 2,4-d, mecoprop, and dicamba. The granular weed and feed mix provides plant nutrients and controls a broad spectrum of weed species in turfgrasses. The formulations, nitrogen, phosphorus, and potassium should be applied according to soil tests or State Livestock Service recommendations.

This product is intended to be applied by noncommercial users, lawn care operators, and landscape contractors. Weed seed grasses established in institutional, ornamental, and residential sites may be treated.

ENVIRONMENTAL HAZARDS

Drift or run-off may adversely affect nontarget plants. Do not apply directly to water, or to areas where surface water is present, or to infiltration areas below the move high water mark. Do not contaminate water when disposing of equipment washer. When disposing equipment, do not pour the washer in the ground, spray or drain over a large area away from wells and other water sources. Do not apply when weather conditions favor drift from target area.

Most cases of groundwater contamination involving phytotoxic herbicides such as 2,4-d and MCPP have been associated with soil incorporation and ground Application. Caution should be exercised when applying 2,4-d and MCPP products at such sites to prevent contamination of groundwater supplies. Use of disused systems for mining or transferring the pesticide will reduce the probability of groundwater contamination equipment on an impoundment to contain spills with Pe direct groundwater contamination.
