Solution QA Ultra

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Seek medical advice if irritation persists.

IF ON SKIN: Wash off with soap and water. Seek medical advice if irritation persists.

IF INHALED: Move person to fresh air. If not breathing, give artificial respiration. Call a poison control center or doctor immediately for further advice.

IF SWALLOWED: Call a poison control center or doctor immediately for further advice. Have person sip a quart of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything to drink if person is unconscious. Seek medical advice even if no symptoms are noticed. Do not give artificial respiration, preferably by mouth-to-mouth, if unable to breathe. Call a poison control center or doctor if further treatment is needed. EXTINGUISH FIRE WITH WATER.

NOTE TO PHYSICIAN: Product may cause damage; only continuous contact is a true protective strategy.
