CROP OIL CONCENTRATE™

PRINCIPAL FUNCTIONING AGENTS:
Paraffin Base Petroleum Oil .......................................................... 83.0%
Tail Oil Fatty Acids, Alkyphenol Ethoxylate ..................................... 16.2%
Constituents Ineffective as a Spray Adjuvants ................................. 0.8%
TOTAL ........................................................................... 100.0%

All ingredients are exempt from tolerance requirements under 40 CFR 180.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENT
Harmful if swallowed, inhaled, or absorbed through the skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing.
Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum or smoking tobacco. Personal Protection Equipment: Wear chemical-resistant gloves, long-sleeved shirt and long pants, shoes plus socks when using PHT Crop Oil Concentrate.

FIRST AID
IF SWALLOWED: Immediately call a poison control center or doctor. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give any liquid to the person. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

PEEL BACK BOOK HERE AND RESEAL AFTER OPENING
**GENERAL INFORMATION**

*CROP OIL CONCENTRATE* is a blend of a surfactant and a nonphytotoxic superior type of agricultural spray oil designed for use with a broad range of postemergence herbicides as well as desiccants, defoliants, and other pesticides, where an oil concentrate adjuvant is recommended.

*CROP OIL CONCENTRATE* increases the activity of herbicides and, therefore, care should be exercised when herbicide spray containing *CROP OIL CONCENTRATE* is applied to new varieties or highly inbred lines not previously treated with spray tank adjuvants. Use caution when applying with herbicides. *CROP OIL CONCENTRATE* may increase the effectiveness of the spray mixture. If mixture has not been used before, it is recommended that small test areas be treated, before undertaking large-scale application. The following table of suggested uses is intended to serve as a guide for the use of *CROP OIL CONCENTRATE*, although the use of *CROP OIL CONCENTRATE* is not limited to these herbicides, desiccants, and defoliants.

**NOT FOR AQUATIC USE.**

**ENVIRONMENTAL HAZARDS:** Apply this product only as specified on the label.

**DIRECTIONS FOR USE**

Read and follow the precautions and directions for use on this label and the pesticide it is being applied with.

**MIXING:** Fill spray tank 1/2 full, add the desired amount of herbicide and continue filling. Add the *CROP OIL CONCENTRATE* last. After filling, continue agitation. Always follow pesticide label directions, acceptable practices and advice from your crop consultant.

**AIR APPLICATION:** 1-3 pints in 2-15 gallons of water.

**GROUND APPLICATION:** 1-8 pints in 15-100 gallons of water.

STORAGE AND DISPOSAL

Storage: Keep container tightly closed. Do not allow water to be introduced to contents of this container.

Disposal: Triple rinse (or equivalent) during mixing and loading. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org. Decontaminated containers may also be disposed of in a sanitary landfill.

DISCLAIMER OF WARRANTIES: Seller warrants that the chemical composition of this product conforms to the chemical description given on this label. THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES AND REPRESENTATIONS EXpressed, IMpIEd, OR STATUTORY, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR USE. Timing, rate and method of application, weather and crop conditions, mixtures with chemicals not specifically recommended on this label or an accompanying written recommendation are beyond the control of seller. Buyer assumes all risks of use, storage and handling of this material not in strict accordance with directions given herewith. Buyer further agrees in the event of damages arising from the use of this product to accept a replacement of the product or a refund of the purchase price of the product, at buyer’s option, as full discharge of seller’s liability. No one is authorized to make any other warranty, guarantee or directions concerning this product, and no such warranties, guarantees or directions shall be valid or binding upon seller.
