FRUIT & NUT TREES

PES T

APPLE, PEARS

Tree (eggs) Apple Red Rug

APRICOTS, APRICOTS

mites (eggs) including European

CHERRIES, PEACHES

Red Mite/Scales (hard, soft, Sticky Scale)

NECTARINES, PEARS

Pear Tree Leaf Biter (eggs), Pear Leaf, Billet

PRUNES, PEARS

Mite (eggs), Pear Psylla, Two Spotted Spider Mite, Pear Rust Mite, Tent Caterpillar, San Jose Scale, Puck Twig Borer (Sib Lutheran), Cotta Peony Scale

APPLICATION NOTES

Do not apply over fruit
after many blooms forms.
Application should not be made on oil sensitive
varieties. Do not apply to trees
lacking adequate moisture.

CITRUS TREES

Lemon & Grapefruit

Tree (eggs) Citrus Mite, Red Scale.

NAVEL & Valencia

Tree (eggs) Black Scale, California

ORANGES, other Citrus

Tree (eggs) Scale, Red Scale, Whitefly & Blackfly, Sooty Mold

Varities Including Non-Bearing

APPLICATION NOTES

For best results spray during Fall, early Winter & Spring months when Red Scale are more easily controlled and trees are generally less reactive to oil.
For all Citrus trees ensure adequate moisture.

SHADE TREES, SHRUBS, ORNAMENTALS, FLOWERS & FOLLCAGE PLANTS, CONIFERS

PES T

TREE OR PLANT

Shade Trees deciduous, and shrubs

Evergreens & Woody Ornamentals

Ornamental Trees shrubs including

Evergreens, Deciduous and Broadleaf

Flowering & Foliage Plants including

Roses and other Flowering Shrubs, Berries

APPLICATION NOTES

Oils remove the glaucous (blue)

bud from such evergreens as

Crimson Busy Jay and Knister

shrubs. Always test spray sensitive

plants such as Cryptomeria, Broom

tree, Chamaecyparis, Juniper, Japanese Holly & Spirea. Do not spray Walnut foliage.

Most effective on Whitefly during immature stages.

CAUTION: Up to 4 applications during the growing season are typically sufficient to control pests. Use a 2 week application interval. Do not spray when buds are fully open and elongation is occurring.

SMALL FRUITS

Blueberries, Strawberries, Grapes

Aphids, Mealybugs

VEGETABLES

Beans, Corn, Poppets, Squash

Aphids, Mites, Beetle Larvae

Tomatoes, Asparagus Beets

Leaflinters, Thrips, Leaflopper

Garden Cabbages, Cauliflower

Whitefly

Cucurbits, Eggplants, Lettuce

MELONS, Peppers, Radishes

FRUITS

Azaleas, Begonias, Camellia

Aphids, Fungus Gnats, Mealybugs, Scales (soft & hardy), Spider Mites, Thrips, Whitefly (immature)

CHRYSANTHEMUMS, DIELLENBACHIA

Aphids, Leaf Miner

EASTER LILIES, FERN, GARDENIA

Leaflinters, Mealybugs, Scales

GERANIUMS, Hibiscus, Foliage, Jade

Spider Mites, Thrips

PLANTS

PLANTS

Aphids, Leaf Miner

CHRYSANTHEMUMS, DIELLENBACHIA

Leaflinters, Mealybugs, Scales

DREAMS, FERN, FICUS, GARDENIA

Spider Mites, Thrips

CRAPE MYRTLE, PALM, PHOENIX

Whitefly (immature)

APPLICATION NOTES

Do not use on Coconut, Palms or Malt.imhair Ferns. Chrysanthemum have shown phytotoxicity at high rates.

FREQUENCY OF APPLICATION: For the greenhouse pests listed, use once a week initially. As the pest is controlled, decrease the frequency to 2-3 weeks as needed.

Application safety during bloom period should be determined for each individual plant to be treated by conducting a small test.

INTERIORSCAPES & HOUSEHOLDS

APPLICATION NOTES

Do not apply to plants in direct sunlight. Inline plants. Do not use on Coconut Palms, & Malt.imhair Ferns.

Chrysanthemum blooms have shown phytotoxic symptoms at higher usage.

Applicator should conduct a test for phytotoxicity by treating a few specimens before making a large scale application. Protect floor and floor coverings and furnishings from over spray.

CAUTION: Do not exceed 3 consecutive applications without allowing a 2-week interval without application.

DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Not to be applied to plants being grown for commercial use.

APPLICATION INSTRUCTIONS

Shake the container vigorously prior to use.

• The best times to spray are the early evening and early morning.

• The target pest and plant should be completely covered with the spray solution to be effective.

• Certain plants may be sensitive to oil. A small number of plants should be tested for oil spraying prior to general spraying.

• Use caution on open blooms-blooming and spotting have been observed on the open bloom of certain plants.

• May be used up to the day of harvest.

STORAGE AND DISPOSAL

STORAGE: Store in cool, dry place. Do not store near heat or open flame.

IF EMPTY: Do not reuse this container. Place in trash or offer for recycling if available.

IF FULLY PARTIAL: Call your local solid waste agency or call 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

USE PRECAUTIONS

Do not spray plants suffering from drought (moisture stress). Do not apply during periods of prolonged high temperature combined with high relative humidity. Do not use this product with dimepholate, herbicides or fungicides such as Captan, Fenprop, Dyrene, Karathane, Moorestat or any product containing sulfur. Do not use with Sevin 50W formulation (carbaryl) on deciduous fruit trees.

This product is not to be used by children or any individual who may become pregnant during the use of this product or within 30 days of application.

APPLICATION INSTRUCTIONS
