**FIRST AID**

**HAVE LABEL WHEN OBTAINING TREATMENT ADVICE**

If you experience signs and symptoms such as nausea, abdominal pain, tightness in chest, or weakness, see a physician immediately. For information on health concerns, medical emergencies, or pesticide incidents, call the National Pesticide Information Center at 1-800-858-7378.

**If Swallowed:**
- Call a poison control center, doctor, or 1-800-498-5743 immediately for treatment advice or transport the patient to the nearest hospital.
- Do not give any liquid to the patient.
- Do not administer anything by mouth.
- Do not induce vomiting unless told to do so by the poison control center or doctor.

**If on Skin or on Clothing:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15–20 minutes.
- Call a poison control center, doctor, or 1-800-498-5743 immediately for treatment advice.

**If Inhaled:**
- Move person to fresh air.
- If person is not breathing call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center, doctor, or 1-800-498-5743 immediately for treatment advice.

**If in Eyes:**
- Hold eye open and rinse slowly and gently with water for 15–20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center, doctor, or 1-800-498-5743 immediately for treatment advice.

**TREATMENT FOR PET POISONING**

If animal eats bait, call veterinarian at once.

**NOTE TO PHYSICIAN OR VETERINARIAN**

Contains the phosphine-producing active, Zinc Phosphide. Probable mucosal damage may contraindicate the use of gastric lavage. For animals ingesting bait and/or showing poisoning signs, induce vomiting by using hydrogen peroxide. Sodium bicarbonate can be given orally to neutralize the stomach acidity. The stomach and intestinal tract can be evacuated, oxygen administered, and cardiac and circulatory stimulants given. See inside booklet for additional Precautionary Statements.

For 24-hour emergency information on this product, call 1-800-498-5743 (US & Canada) or 1-851-523-0118 (all other areas).

**STORAGE AND DISPOSAL**

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Store only in original container, in a cool, dry place inaccessible to children and pets. Keep containers closed and away from other chemicals.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER HANDLING:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Completely empty bag by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. If container is not to be recycled, then dispose of bags in an approved waste disposal facility or by incineration.

**Manufactured by:**

HACCO, Inc. • 110 Hopkins Drive • Randolph, WI 53956 U.S.A.

**Net Contents:** 50 lbs. (22.68 kg)
**Net Weight:** 50 lbs. (22.68 kg)

**Zinc Phosphide Pellets**

**RANGELANDS, PASTURES, ADJACENT RIGHTS-OF-WAY, AND DITCH BANKS**

**Spermophilus beecheyi** in rangelands, pastures, adjacent rights-of-way, and ditch banks.

**S. columbianus** in grape vineyards. Do not use this product in areas of cotton (Gossypium spp.) in growing-season storage or in citrus (Citrus spp.) tree orchards, macadamia nut orchards, in and around buildings, and other sites to control the species listed in the use directions.

**Microtus**

- 6 lbs./A rate, 0.1 oz. per 1000 ft.
- 5 lbs./A rate, 0.1 oz. per 1000 ft.

**VOLES**

- 10 lbs./A rate, 0.2 oz. per 1000 ft.
- 5 lbs./A rate, 0.1 oz. per 1000 ft.

**DIPodomys ordii**, white-footed (Peromyscus leucopus), and cotton rats (*Didelphis virginiana*) on rangelands and pastures.

**Ground squirrels**

- 10 lbs./A rate, 0.2 oz. per 1000 ft.
- 5 lbs./A rate, 0.1 oz. per 1000 ft.

**C. longicaudus**, Richardson's (*Citellus richardsonii*), and Columbian (*Citellus tridecemlineatus*) ground squirrels.

**C. leucurus** in barley.

**COTTON RATS**

- 12 lbs./A rate, 0.24 oz. per 1000 ft.
- Prebait with untreated wheat to enhance acceptance by California, Columbian, and Richardson's ground squirrels. Apply the prebait at 6 lbs. per acre.

**贮藏使用限制**

- Do not apply in the non-growing season. Do not apply to actively growing timothy or timothy/alfalfa or timothy/clover mixtures. A minimum of 158 days must pass from July of one year to February of the next year. Only one application within this period is permitted in Kansas, Montana, Nebraska, North Dakota, Wyoming, and South Dakota.

**Placement**

- Broadcast baiting by hand, cyclone seeder, or ground-driven dispensing devices. A maximum of 2 applications by ground may be made at the rate of 20 lbs. per acre (0.4 lb. ai/A) per year.

**FOLLOW-UP**

- Before applying toxic bait, determine the potential for exposing non-target organisms. Applicators must conduct daily observations prior to applying toxic bait. Do not apply this product to hay crops or pre-plant applications in wheat/triticale. Do not apply this product to triticale within 50 days of harvest. Do not graze animals in treated areas.

**Disposal**

- Dispose of excess bait from application equipment according to "Pesticide Disposal" instructions.
