CRITERION™ 75 WSP Insecticide

For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit, nuts and tree crops, and vegetable plants.

ACTIVE INGREDIENT:
- Nitro-2-imidazolidinimine ....................................... 75%

OTHER INGREDIENTS:

TOTAL: ........................................................................ 100%

See back label for complete list of ingredients.

Do not apply this product in a way that will cause pollution or contaminate any water source, including surface waters like streams, rivers, ponds and lakes.

WARNING:
- Harmful if swallowed, inhaled, or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or vapor. Thoroughly wash all exposed skin with soap and water.
- Wear chemical resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, nitrile rubber, neoprene rubber, natural rubber, polyethylene, polyvinylchloride (PVC) or viton. If you want more options, follow the instructions for category A in an EPA chemical-resistance category selection chart.
- Do not apply to children. Do not allow children to enter the treated area until all treated surfaces are dry.
- Do not apply to ornamentals or use on ornamentals.
- Do not use this product in or near any area where children or pets could accidentally come in contact with it.
- Do not use this product if it is contaminated with any foreign material.

Do not apply this product when turfgrass areas are waterlogged or the soil is saturated with water. Adequate distribution of the active ingredient cannot be achieved when these conditions exist.

Restrictions: Do not allow children to enter the treated area until all treated surfaces are dry. Do not use this product if it is contaminated with any foreign material. Do not apply to ornamentals or use on ornamentals. Do not use this product in or near any area where children or pets could accidentally come in contact with it.

Directions for Use: Refer to the Directions for Use on the back label.

Application Rate:
- For turf and ornamentals: 3 gallons per acre (18 oz). Apply the entire volume of the application rate at one time to the entire area to be treated.
- For fruit and vegetable crops: 3 gallons per acre (18 oz). Apply the entire volume of the application rate at one time to the entire area to be treated.

Precautionary Statements:
- HAZARDS TO HUMANS AND DOMESTIC ANIMALS
- CAUTION:
- This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.
- Harmful if swallowed, inhaled, or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Avoid breathing dust or vapor. Wash thoroughly with soap and water.
- Use Criterion 75 WSP Insecticide for the control of soil inhabiting pests of turfgrass, Northern & Southern masked chafers, European Crab Spider, European Crane Fly Tipula, and other listed sucking pests on ornamentals to limit the honeydew available as a food source for ant population if Group 4A insecticides are used repeatedly as the predominant method of control for targeted species.
- RESEARCH MANAGEMEN T PR OGRAMS
- This product is designed for use in research management programs to study and control pests. Use only as directed and in accordance with the label instructions.

Non-AGRICULTURAL USES
- Do not apply CRITERION™ 75 WSP Insecticide while bees are foraging. Do not apply CRITERION™ 75 WSP Insecticide to plants that are flowering. Only apply to flowers or ornamentals when bees have left or the plant is not flowering.
- Do not apply CRITERION™ 75 WSP Insecticide to plants that are flowering. Only apply to flowers or ornamentals when bees have left or the plant is not flowering.

Do not apply CRITERION™ 75 WSP Insecticide while bees are foraging. Do not apply CRITERION™ 75 WSP Insecticide to plants that are flowering. Only apply to flowers or ornamentals when bees have left or the plant is not flowering.
CRITERION™ 75 WSP Insecticide

For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees, and interior plant species.

ACTIVE INGREDIENT: Territorial 1.6 Chlorpyrifos (L)(R)-O-ethyl-O-2,6-dimethylphenyl-phosphate........ 75%

MAXIMUM APPLICATION RATE: 10 g a.i./acre (1.6 oz a.i./1,000 sq ft) turfgrass/landscape ornamentals; 10 g a.i./acre (1.6 oz a.i./1,000 sq ft) fruit and nut trees.

TOTAL: 10,

Keep water-soluble packets in this container and away in a cool place but not before freezing (32°F).

Do Not Remove Pesticides From Container Unless Exempted for Use.

STOP - READ THE LABEL BEFORE USE
KEEP OUT OF REACH OF CHILDREN

CAUTION
This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

Do not contaminate water when disposing of equipment washwater.

Follow manufacturer’s instructions for cleaning/maintaining personal protective equipment, PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE:

• Shoes plus socks

• Coveralls

• Chemical resistant gloves made of any waterproof material such as barrier laminate, butyl rubber, neoprene rubber, natural rubber, polyethylene, polyvinylchloride (PVC) or viton.

In case of emergency call the local or State Poison Control Center.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION
Do not apply when turfgrass areas are waterlogged or the soil is saturated with water. Adequate distribution of the active ingredient cannot be achieved when these conditions exist.

CRITERION™ 75 WSP Insecticide is for use on ornamentals in commercial and residential landscapes and interior plant areas.

For MEDICAL EMERGENCIES:

• Call a physician or poison control center immediately.

• Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.

• Avoid contact with eyes, on clothing. Avoid breathing dust or vapor. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse. Keep children or pets out of treated area until spray has dried.

• Direct contact during foliar applications, or contact with residues on plant surfaces after foliar applications

• Wash hands: In the Directions for Use for each application site for specific restrictions and instructions to protect bees and other insect pollinators.

For foliar applications, apply to the foliage of the target plant only to prevent drift. Use the appropriate application rate chart to determine the correct amount of INSECTICIDE to apply.

APPLICATION RATE: 1.6 oz/1,000 sq ft turfgrass/landscape ornamentals; 1.6 oz/acre fruit and nut trees.

Do not apply to plants in flower. Do not apply to plants that are expected to flower in the near future. Do not apply to plants that are flowering. Only apply after all flower petals have fallen off.

PEST: Ant (suppression)

Black turfgrass ataenius

Cyclocephala borealis

Ataenius spretulus

Combination of some or all of the following: European crane fly, Tipula, pupae and adult insects, Tipula spp., Staphylinidae spp., Anthonomus spp., Dolichoderus spp.

Application of CRITERION™ 75 WSP Insecticide to the following:

- Avena sativa L.
- Cichorium intybus L.
- Medicago sativa L.
- Pisum sativum L.
- Triticum aestivum L.
- Vicia faba L.
- Hordeum vulgare L.

For non-agricultural uses:

- Residential buildings; residential areas; interior plant areas; municipal, city, state and national forested areas, and private wooded areas.

Some insects are known to develop resistance to insecticides if insecticide is used repeatedly. The use of this product should conform to resistance management strategies as established for the use.

CRITERION™ 75 WSP Insecticide controls Group 4A insecticides with acquired or inherent resistance to Group 4A insecticides may eventually control the insect population if Group 4A insecticides are used repeatedly as the pest management strategy for targeted species.

Agricultural USEs:

Do not apply CRITERION™ 75 WSP Insecticide while bees are foraging. Do not apply CRITERION™ 75 WSP Insecticide to plants that are flowering. Only apply at the foliar application rates listed in the Directions for Use.

If the product is applied by drenching, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated, such as plants, soil, or water.

Do not allow bees to forage in the treated area.

PREREQUISITE STATEMENTS

Follow label instructions for other insecticides when tank mixing. Do not handle the clear inner packets with wet hands or wet gloves. Rough handling may cause breakage. Reseal container to protect remaining packets.

For foliar applications, apply to the foliage of the target plant only to prevent drift. Use the appropriate application rate chart to determine the correct amount of INSECTICIDE to apply.

APPLICATION RATE: 1.6 oz/1,000 sq ft turfgrass/landscape ornamentals; 1.6 oz/acre fruit and nut trees.

Do not apply CRITERION™ 75 WSP Insecticide while bees are foraging. Do not apply CRITERION™ 75 WSP Insecticide to plants that are flowering. Only apply at the foliar application rates listed in the Directions for Use.

If the product is applied by drenching, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated, such as plants, soil, or water.

Do not allow bees to forage in the treated area.

For foliar applications, apply to the foliage of the target plant only to prevent drift. Use the appropriate application rate chart to determine the correct amount of INSECTICIDE to apply.

APPLICATION RATE: 1.6 oz/1,000 sq ft turfgrass/landscape ornamentals; 1.6 oz/acre fruit and nut trees.

Do not apply CRITERION™ 75 WSP Insecticide while bees are foraging. Do not apply CRITERION™ 75 WSP Insecticide to plants that are flowering. Only apply at the foliar application rates listed in the Directions for Use.

If the product is applied by drenching, the Worker Protection Standard, under certain circumstances, allows workers to enter the treated area if there will be no contact with anything that has been treated, such as plants, soil, or water.

Do not allow bees to forage in the treated area.

PREREQUISITE STATEMENTS

Follow label instructions for other insecticides when tank mixing. Do not handle the clear inner packets with wet hands or wet gloves. Rough handling may cause breakage. Reseal container to protect remaining packets.

For foliar applications, apply to the foliage of the target plant only to prevent drift. Use the appropriate application rate chart to determine the correct amount of INSECTICIDE to apply.
**DIRECTIONS FOR USE ON TURFGRASSES IN RESIDENTIAL, COMMERCIAL, AND INDUSTRIAL AREAS (cont.)**

- Avoid applying more than 5.5 oz (0.3 lb of active ingredient) per acre per year.
- Do not apply the product, by any application method, in or on a commercial greenhouse.

**DIRECTIONS FOR USE ON SOIL FARMS**

- Do not apply more than 1.6 oz (1 packet) CRITERION 75 WSP Insecticide per 300 gallons of water.
- Do not apply CRITERION 75 WSP Insecticide to areas which are waterlogged or saturated, which will not allow penetration into the root zone of the plant.

**DIRECTIONS FOR APPLICATION TO OUTDOOR ORNAMENTALS IN RESIDENTIAL, COMMERCIAL, AND INDUSTRIAL LANDSCAPE AREAS**

- To calculate the lower rate range with a 30 inch DBH tree:

\[
\text{Total oz of product per tree} = \left( \frac{x \times (\text{total DBH inches of a tree})}{y \times (\text{cumulative trunk diameter rate to be applied})} \right) \times 1.6 \text{ oz (1 packet)}
\]

- Do not apply more than 2.1 oz (1 packet) per 300 gal -lons of water per tree.
- Do not make more than 3 applications.
- Do not mix more than 1 application of CRITERION 75 WSP Insecticide per acre per year.

**DIRECTIONS FOR APPLICATION TO TREES AND SHRUBS BY SOIL DRENCH AND SOIL INJECTION**

- For control of specified borers, make applications prior to or during the peak egg hatch period. If application is not made prior to egg hatch or when adults or large larvae are present and actively feeding, apply CRITERION 75 WSP Insecticide in combination with a soil insecticide to enhance damage to the tree. Follow label instructions for other tree borers to enhance damage to the tree.
- Do not apply more than 3 applications.
- Do not apply more than a total of 2.0 oz of CRITERION 75 WSP Insecticide per acre per year.
- Do not apply more than 8.53 oz (0.4 lb of active ingredient) per acre per year.
For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees, and interior plantscapes.

**ACTIVE INGREDIENT:**
Insecticidal, 1,6-Chloro-3-pyridinyl-3,5-di-2-toluidinylamine

**TOTAL:**
75%

**USE:**
Keep water-soluble packets in this container and store in a cool place but not before freezing (32°F).

Do Not Reuse Pesticide From Container Except for Emergency Use.

**LEGAL:**
**STOP - READ THE LABEL BEFORE USE**

**KEEP OUT OF REACH OF CHILDREN**

This product is a highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark.

**WARNING:**
Risk of serious injury from this product.

**NOTICE:**
Do not apply within the 12-hour restricted-entry interval (REI), except for the foliar application of turfgrass grown for hay or观赏 turf.

**RESISTANCE MANAGEMENT RECOMMENDATIONS**

CRITERION™ 75 WSP Insecticide contains a Group 4A insecticide. Because of acquired or inherent resistance to Group 4A insecticides, some insects are known to develop resistance to Insecticides. In case of a resurgence of resistant pests, use a product that contains one listed under the next highest activity level.

**AVERAGE USE REQUIREMENTS**

Applying this product in accordance with the label and with all federal, state, and local laws, regulations, and guidelines concerning the use of pesticides.

**NON-AGRICULTURAL USES**

This product may be used in accordance with the label and with all federal, state, and local laws, regulations, and guidelines concerning the use of pesticides.

**STOP - READ THE LABEL BEFORE USE**

CRITERION™ 75 WSP
Insecticide

For foliar and systemic insect control of listed pests in turfgrass (including sod farms), landscape ornamentals, fruit and nut trees, and interior plantings.

ACTIVE INGREDIENT:
Imidacloprid, 1-0-Chloro-3-pyridinyl)-ethylen-2-oxide-3,3-dibenzodioxole-4-ylmethylcarbamate 75%

OTHER INGREDIENTS:
Water, surfactant

TOTAL: 75%

For use on the following items:
- Home lawns, residential, and business areas
- Home gardens
- Home orchards
- Home and non-commercial outdoor ornamentals
- Home and non-commercial deciduous ornamentals
- Fruit and nut trees
- Interior plantings

For complete instructions, refer to the label or contact your local Cooperative Extension Office.

SEE INDIVIDUAL SITES FOR SPECIFIC POLLINATOR PROTECTION APPLICATION RESTRICTIONS, IF NONE EXIST UNDER THE SPECIFIC SITE, FOR OUTDOOR FOLIAR APPLICATIONS, FOLLOW THESE APPLICATION DIRECTIONS.

Do not apply CRITERION™ 75 WSP Insecticide while bees are foraging. Do not apply CRITERION™ 75 WSP Insecticide to plants that are flowering. Only apply at or below the threshold level for the pest. The use of this product should conform to the management strategy already established for the use of this product. See label instructions for other insecticides when tank mixing.

CRITERION™ 75 WSP Insecticide can be used by Group 4A insecticides. Insecticides with aquatic toxicity or resistant Group 4A insecticides may eventually knock down the insect population if Group 4A insecticides are used repeatedly as the predominant method of control for targeted species.

For more information, call the toll-free number listed on the label.

CRITERION™ 75 WSP Insecticide can be used by soil application as directed on ornamental trees, shrubs, flowers, and groundcovers in sites: in and around the perimeter of commercial and residential properties, industrial and commercial complexes, multi-family residential complexes, golf courses, arborvitae, cypress, ballast, shrubs, and ornamental grasses. CRITERION™ 75 WSP Insecticide can be used by soil application as directed on ornamental trees, industrial and commercial complexes, multi-family residential complexes, lawns, business, and non-commercial outdoor ornamentals, shrubs, and ornamental grasses. CRITERION™ 75 WSP Insecticide can be used by soil application as directed on ornamental trees, industrial and commercial complexes, multi-family residential complexes, lawns, business, and non-commercial outdoor ornamentals, shrubs, and ornamental grasses.

For complete instructions, refer to the label or contact your local Cooperative Extension Office.

Apply specific dosage as per label recommendation. Read the label before use. For late season (pre-harvest) control of leafhopper species, apply CRITERION 75 WSP Insecticide while most leafhoppers are in the nymphal stage. For optimum control, this method must be used early in the adult flight against egg and early instar larvae. A second application may be necessary to complete control. For late season (pre-harvest) control of leafminer, optimal control is obtained from applications made early in the adult flight against egg and early instar larvae. A second application may be necessary to complete control. DIRECTIONS FOR USE ON TURFGRASSES IN RESIDENTIAL, COMMERCIAL, AND INDUSTRIAL AREAS (Cont.)

- Apply as a broadcast treatment and incorporate into the soil before planting.
- Apply specified dosage at least 10 days before planting.
- For late season (preharvest) control of leafhopper species, apply 20 oz of 10% Conventional product to incorporate the leafhopper into the upper soil profile.
- Do not apply more than 10 oz of 10% product to the same tree or vegetation per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not reapply more than once per growing season.

DIRECTIONS FOR USE ON SOIL FARMS

- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not reapply more than once per growing season.
- Do not apply more than 10 oz of 10% product to the same tree or vegetation per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not reapply more than once per growing season.

DIRECTIONS FOR USE ON FOLIAR APPLICATION TO POME FRUITS, PEACHES, AND GRAPES IN RESIDENTIAL AREAS

- Do not apply more than 10 oz of 10% product to the same tree or vegetation per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not use less than 2" of cumulative trunk diameter to calculate the rate.
- Do not apply more than 10 oz of 10% product to the same tree or vegetation per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.

DIRECTIONS FOR USE ON PLANTS GROWN INDOORS

- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not use less than 2" of cumulative trunk diameter to calculate the rate.
- Do not apply more than 10 oz of 10% product to the same tree or vegetation per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.

DIRECTIONS FOR DISEASES OF TREES AND SHRUBS BY SOIL DRENCH AND SOIL INJECTION

- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not use less than 2" of cumulative trunk diameter to calculate the rate.
- Do not apply more than 10 oz of 10% product to the same tree or vegetation per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.

DIRECTIONS FOR TESTING TURFGRASSES IN RESIDENTIAL, COMMERCIAL, AND INDUSTRIAL AREAS

- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.
- Do not reapply more than once per growing season.
- Do not apply more than 10 oz of 10% product to the same tree or vegetation per year.
- Do not apply more than 8.53 oz (0.4 lb active ingredient) per acre per year.

DIRECTIONS FOR STORAGE AND DISPOSAL

- Do not contaminate water, food, or feed by storage or disposal.
- Use in original container.
- Do not contaminate water, food, or feed by storage or disposal.
- Use in original container.

IMPORTANT: READ BEFORE USE

Read the entire Directions for Use. Conditions, Disclaimer of Warranties and Limitation of Liability before using this product.

If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following Conditions, Disclaimer of Warranties and Limitation of Liability.

CONDITIONS: The conditions for use of this product are believed to be adequate and must be followed carefully. However, it is impossible to eliminate all risk associated with the use of this insecticide. The risk of misuse or application may result in death of trees or vegetation. Additional risks associated with this product include, but are not limited to:

- The use of this product may result in death of trees or vegetation.
- The use of this product may result in death of trees or vegetation.

DISCLAIMER OF WARRANTIES: TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, Bayer CropScience EXPRESSLY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, OF MATERIALS, PERFORMANCE OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, Bayer CropScience EXPRESSLY DISCLAIMS ALL WARRANTIES, EXPRESS OR IMPLIED, OF MATERIALS, PERFORMANCE OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. If treating multiple trees at a similar rate, add the DBH of the trees together and divide by rate to be applied.

Example of multiple trees using similar rate of 96 (y): 3 trees with DBH of 10, 15, & 20 inches. Total cumulative inches of DBH is (3 x 10) + (2 x 15) + (1 x 20) = 75 inches. Total cumulative rate of 96 oz per tree. Cost for 3 trees using similar rate of 96 = (75 / 96) * 96 oz = 75 oz for all three trees.

**Example equation:** 

\[
\frac{x \text{ (total DBH inches of a tree)}}{y \text{ (cumulative trunk diameter rate to be applied)}} \times 1.6 \text{ oz (1 packet)} = \text{total oz of product per tree.}
\]

Example of multiple trees using similar rate of 48 oz: 

\[
\frac{12}{48} \times 1.6 \text{ oz (1 packet)} = 0.4 \text{ oz per tree}
\]

**Example equation:** 

\[
\frac{x \text{ (total DBH inches of a tree)}}{y \text{ (cumulative trunk diameter rate to be applied)}} \times 1.6 \text{ oz (1 packet)} = \text{total oz of product per tree.}
\]

**Example of multiple trees using similar rate of 96 oz:** 

\[
\frac{12}{36} \times 1.6 \text{ oz (1 packet)} = 0.6 \text{ oz per tree}
\]

**Example equation:** 

\[
\frac{x \text{ (total DBH inches of a tree)}}{y \text{ (cumulative trunk diameter rate to be applied)}} \times 1.6 \text{ oz (1 packet)} = \text{total oz of product per tree.}
\]

**Example of multiple trees using similar rate of 36 oz:** 

\[
\frac{12}{32} \times 1.6 \text{ oz (1 packet)} = 0.9 \text{ oz per tree}
\]

**Example equation:** 

\[
\frac{x \text{ (total DBH inches of a tree)}}{y \text{ (cumulative trunk diameter rate to be applied)}} \times 1.6 \text{ oz (1 packet)} = \text{total oz of product per tree.}
\]

**Example of multiple trees using similar rate of 72 oz:** 

\[
\frac{12}{64} \times 1.6 \text{ oz (1 packet)} = 0.3 \text{ oz per tree}
\]

**Example equation:** 

\[
\frac{x \text{ (total DBH inches of a tree)}}{y \text{ (cumulative trunk diameter rate to be applied)}} \times 1.6 \text{ oz (1 packet)} = \text{total oz of product per tree.}
\]

**Example of multiple trees using similar rate of 144 oz:** 

\[
\frac{12}{128} \times 1.6 \text{ oz (1 packet)} = 0.2 \text{ oz per tree}
\]

**Example equation:** 

\[
\frac{x \text{ (total DBH inches of a tree)}}{y \text{ (cumulative trunk diameter rate to be applied)}} \times 1.6 \text{ oz (1 packet)} = \text{total oz of product per tree.}
\]
