For systemic insect control in turfgrass and landscape ornamentals

**ACTIVE INGREDIENT:** 1-(2-Chloro-6-pyridinyl)ethyl-4-methoxy-2-isoxazolidinone

**TOTAL:** 0.5%

**EPA Reg. No. 432-1328**

**IMPORTANT: READ BEFORE USE**

For optimum control of grubs, billbugs, European crane fly and annual bluegrass weevil, make application prior to egg hatch of the target pest. See rear of this APPLICANT EQUIPMENT section of this label.

Consult your local State Agricultural Experiment Station, or State Extension Turf Specialists for more specific information on timing of applications.

NOTE: The optimum control will be achieved when applications are made proceeding or through the peak. Do not apply more than 8 lb (0.4 lb of active ingredient) per acre per year.

For optimum control, if rainfall does not occur within 24 hours after application, or after the last treatment application, consult Bayer CRITERION 0.5 G Insecticide label for recommendations regarding the use of irrigation equipment or rainfall to move the active ingredient. AVOID contact of equipment or irrigation equipment with treated turf prior to irrigation or rainfall application, or irrigation equipment will be damaged.

For optimum control mechanical incorporation, irrigation or rainfall should occur within 24 hours after application to move the active ingredient. Irrigation equipment or rainfall application should not occur within 24 hours after application. Application equipment should be thoroughly cleaned and rinsed prior to irrigation or rainfall application.

**APPLICATION EQUIPMENT**

Do not reuse or refill this container. Completely empty bag into application equipment. For optimum control, if rainfall does not occur within 24 hours after application, irrigate to move the active ingredient. Equipment prior to commercial use of this product.

Refer to label sections on application equipment and spreader settings.

THINGS TO CONSIDER:

- Water droplets should be no larger than 0.01 mm (100 microns).
- Water droplets should not be directed at treated turfgrass or other susceptible plants or surfaces.
- Equipment should be thoroughly cleaned and rinsed prior to irrigation or rainfall application.
- Equipment should be thoroughly cleaned and rinsed prior to irrigation or rainfall application.

**STORAGE AND DISPOSAL**

Do not store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, and feed. Store in original container and out of the reach of children, preferably in a locked area. Official or private storage must be conducted in a manner so as to prevent spillage. If solid pesticide is spilled by any means or is used, notify local health or safety agency immediately. Do not incinerate; do not dispose of in drains or sewage. Dispose of empty containers by burning or placing in sanitary landfill.

**APPLICATION INFORMATION**

APPLICATION EQUIPMENT

CRITERION 0.5 G Insecticide can be applied to all turf, ornamental, or landscape plantings. Do not apply to linden, basswood or other Tilia species. Do not apply more than 8 lb (0.4 lb of active ingredient) per acre per year.

**RANGE**

For optimum control, mechanical incorporation, irrigation or rainfall should occur within 24 hours after application for the active ingredient to move. Irrigation equipment or rainfall application should not occur within 24 hours after application. Application equipment should be thoroughly cleaned and rinsed prior to irrigation or rainfall application.

**CRITERION™ 0.5 G**

For systemic insect control in turfgrass and landscape ornamentals

---

**ACTIVE INGREDIENT:**
- 80992114
- Non-refillable container. 1.8 lb per 1000 sq ft
- 3.3 lb per 1000 sq ft
- 60 lb/A or 1.8 lb/1000 sq ft
- 1.8 lb per 1000 sq ft
- 1.4 to 1.8 lb per 1000 sq ft

**CROP PEST**

- **GRASS PEST**
  - **Lawn grubs (Anomala and Xanthogaleruca)**
  - **Grass June beetle**
  - **Ground cricket**
  - **Grasshopper**

**DOSEAGE**

- **60 lb/A or 1.8 lb/1000 sq ft**

---

**APPLICATION RATES**

For optimum control of grasshoppers, billbugs, European corn flea and annual diaphania sawfly, make application prior to egg hatch of the target pest. Be sure to read **APPLICATION RATES** section of this label.

---

**FIRST AID**

- **IF INHALATION:**
  - Call a poison control center or doctor immediately for treatment advice.

---

**Hazardous to humans and domestic animals**

- **CAUTION:**
  - **IF SWALLOWED:**
    - Call a poison control center or doctor immediately for treatment advice.
  - **IF INHALED:**
    - Call a poison control center or doctor immediately for treatment advice.
  - **IF SKIN OR EYE CONTACT:**
    - Call a poison control center or doctor immediately for treatment advice.
  - **IF EYES were irritated:**
    - Call a poison control center or doctor immediately for treatment advice.

---

**PRECAUTIONARY STATEMENTS**

- **HAZARDS TO HUMANS AND DOMESTIC ANIMALS**
  - CAUTION:
  - **If swallowed:**
    - Call a poison control center or doctor immediately for treatment advice.
  - **If inhaled:**
    - Call a poison control center or doctor immediately for treatment advice.
  - **If skin or eye contact:**
    - Call a poison control center or doctor immediately for treatment advice.
  - **If eyes were irritated:**
    - Call a poison control center or doctor immediately for treatment advice.

---

**PRODUCT USE INFORMATION**

- **APPLICATION TO ORNAMENTALS**
  - CRITERION 0.5 G Insecticide can be used as a broadcast application on ornamentals in commercial and residential landscapes.
  - CRITERION 0.5 G Insecticide is a systemic product and will be translocated upward within the plant system. Optimum control will be achieved when applications are made prior to egg hatch of the target pest, followed by sufficient irrigation or rainfall to move the active ingredient throughout the plant.

---

For product use information call 1-800-331-2867

**FIRST AID**

If swallowed:
- Call a poison control center or doctor immediatly for treatment advice.
- Do not induce vomiting unless directed to do so by a doctor.

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**APPLICATION INFORMATION**

- Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.
- Do not apply more than 80 lb per acre to the root zone of the plant. Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

**STORAGE AND DISPOSAL**

- Do not contaminate water, food, or feed by improperly disposing of containers, equipment, or unneccessary residues.
- Pesticide Storage: Store in a cool, dry place and in such a manner as to prevent contamination with water, food, or feed. Store in original container and out of the reach of children, preferably in a locked storage area. See instructions on the label or in the manufacturer's literature for storage and disposal of pesticides.
- Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**APPLICABLE LAW AND DAMAGES**

- Bayer Environmental Science LP shall not be liable for any damages, direct or indirect, arising out of the use or failure to use this product properly.

**DISCLAIMER OF WARRANTIES**

- Bayer Environmental Science LP hereby disclaims any and all warranties or conditions of quality, performance, merchantability, fitness for a particular purpose, or any other kind or nature. Bayer Environmental Science LP does not guarantee the results of the use of this product.

**DIRECTIONS FOR USE**

Prior to application, remove black plastic or other weed barrier material that will not permit uniform water application or movement of the active ingredient into soil. Avoid runoff or puddling of irrigation water following application. Apply as a broadcast treatment. Prior to application, remove black plastic or other weed barrier material that will not permit uniform water application or movement of the active ingredient into soil. Avoid runoff or puddling of irrigation water following application.

**RESTRICTIONS**

- Bayer Environmental Science LP shall not be liable for any damages, direct or indirect, arising out of the use or failure to use this product properly.

**TRANSPORTATION EMERGENCIES**

- For medical and transportation emergencies, call 24 hours a day 1-800-323-5777.
Insecticide
For systemic control of turfgrass and landscape ornamentals

ACTIVE INGREDIENT: Indoxacarb - 1.5 % (8-(2,6-Dimethoxy-3-pyridyl)-N,N-di-2-isopropylphenylmethanimine). 0.5%

TOTAL: 0.5%

EPA Reg. No. 420-1328

FIRST AID

If swallowed:

• Call a poison control center or doctor immediately for treatment advice.
• Throw away empty container and all materials directly into the trash. Do not process or dispose of drum directly into the environment. Do not use any contaminated equipment. Do not wash or rinse container or drum. Do not throw into trash, as potentially hazardous material.
• Do not give anything by mouth to an unconscious person.

If on skin:

• Take off contaminated clothing.
• Wipe area with plenty of water for 15 - 20 minutes.
• Remove contaminated clothing and wash skin with plenty of water for 15 - 20 minutes.
• Contact poison control center or doctor for further advice. Do not cover, but reason cover with loose, dry clothes and protective clothing. Wash skin with plenty of water for 15 - 20 minutes.

If in eyes:

• Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
• Consult a physician if irritation persists.

Ingestion:

• Do not give anything by mouth to an unconscious person.
• Call a poison control center or doctor immediately for treatment advice.
• Do not give anything by mouth to an unconscious person.

NOTE TO PHYSICIAN:

Have a product container or label with you when calling a poison control center or doctor, or going for treatment.

Hazardous to Humans and Domestic Animals

CAUTION: Harmful if ingested or absorbed through skin. Causes eye irritation. Avoid contact with skin, eyes, or clothing. Wear protective gloves and clothing when handling product. Wash thoroughly with soap and water after handling. This product is highly toxic to aquatic life. Avoid contact with surface water and ground water. If these conditions exist, do not use. This product is toxic to fish. Do not allow any spilled material to enter surface water or ground water. Refer to Precautionary Statements for labels that may be associated with the handling of this material.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal. Release to the environment may result in long-term adverse effects to the aquatic environment. drums and other containers and of the unused product. Do not contaminate water, surface water or ground water. Do not store in direct sunlight. The container may not be re-used. Do not contaminate water, food, or feed by storage or disposal. Refer to appropriate labeled instructions in king and local regulations before disposal. If this product is packaged in a multi-component container, the appropriate component should be disposed of in accordance with local, state, and federal regulations.

Storage and Disposal

Do not contaminate water, food, or feed by storage or disposal. Release to the environment may result in long-term adverse effects to the aquatic environment. drums and other containers and of the unused product. Do not contaminate water, surface water or ground water. Do not store in direct sunlight. The container may not be re-used. Do not contaminate water, food, or feed by storage or disposal. Refer to appropriate labeled instructions in king and local regulations before disposal. If this product is packaged in a multi-component container, the appropriate component should be disposed of in accordance with local, state, and federal regulations.

APPLICATION INFORMATION

APPLICATION TO TURFGRASS

CRITERION 0.5G Insecticide contains a Group 4A insecticide. Insect biotypes with acquired or inherent resistance to Group 4A insecticides may eventually develop the insect population. If Group 4A insecticides are used as the primary control method it will control pests for a longer period of time.

APPLICATION TO ORNAMENTALS

CRITERION 0.5G Insecticide cannot be used as a broadcast application on ornamentals. Insecticide is a systemic insecticide and is applied to the soil and moves with the irrigation water. The treated turf must be in such a condition that the rainfall or irrigation has occurred so that uniformity of application will not be affected. Application to the ornamentals will be applied in the spring or fall when the grass is actively growing. The insecticide will be applied at the rate of 1.4 to 1.8 lb/A (0.4 to 0.5% active ingredient) per acre per year.

APPLICATION EQUIPMENT

Be sure to read "APPLICATION EQUIPMENT" Section of this label.

APPLICABLE LAW, BAYER CROPSCIENCE LP DISCLAIMS any liability whatsoever for special, incidental or consequential damages. In no event shall BAYER CROPSCIENCE be liable to any person for any damages, whether direct, indirect, special, incidental or consequential, caused by the use of this product, any contamination resulting from the use of this product, any damages resulting from the use of this product, any consequential, or incidental damage. This disclaimer applies to the extent consistent with applicable law. **CAUTION**

Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

**RESTRICTIONS**

Do not apply CRITERION 0.5 G Insecticide to areas which are waterlogged or saturated, which will not allow penetration into the soil. Treated areas may be replanted with any crop specified on an imidacloprid label, or with any crop for which a tolerance exists according to approved methodology.

**APPLICATION INFORMATION**

- **APPLICATION TO TURFGRASS**: CRITERION 0.5 G Insecticide can be used as a broadcast application on ornamentals in commercial and residential landscapes. It can be used as a granular or liquid formulation. Ensure that the active ingredient is dispersed throughout the application area.

**CRITERION™ 0.5 G Insecticide**

For systemic insect control in turfgrass and landscape ornamentals

**ACTIVE INGREDIENT:** Imidacloprid; 1-[6-(3-Pyridyl methyl)-3-pyridinylmethyl]imidazo[1,2-a]pyridine

**Net Weight:** 30 LBS

**EPA Reg. No.** 432-1328

**Important: Read Before Use**

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of liability before using this product. If terms are not acceptable, return the unopened product container at once.

**Restrictions:**

- Do not use on ornamental grasses, non-target weeds and bare soil or on grass grown for use as a seed crop.
- Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

**Application Information**

**APPLICATION INFORMATION**

**APPLICATION TO TURFGRASS**

- Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

**Application Methods:**

- Spray equipment is designed to spray systemically active systemic insecticides such as CRITERION™, at a rate of 2.75 to 3.25 lb active ingredient per acre to control targeted pests in turfgrass.

**RECOMMENDATIONS:**

- Always use calibrated equipment with known nozzle orifice sizes to ensure uniform coverage and to avoid over-application of the product.

**REVISIONS:**

- Use systemic insecticides on ornamental and landscape plantings to control pests that are resistant to other treatments.

**APPLICATION TO ORNAMENTALS**

- Apply CRITERION™ 0.5 G Insecticide to ornamental plants and trees for systemic control of a wide range of turfgrass and ornamental pests.

**Application Rates:**

- For ornamentals, apply CRITERION™ 0.5 G Insecticide at a rate of 0.5 to 1.0 lb active ingredient per acre, depending on the pest pressure and the area to be treated.

**IMPORTANT: Read Before Use**

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of liability before using this product. If terms are not acceptable, return the unopened product container at once.

**Restrictions:**

- Do not use on ornamental grasses, non-target weeds and bare soil or on grass grown for use as a seed crop.
- Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.
