CAUTION

PROKOZ ZENITH 0.5 G Insecticide

DIRECTIONS FOR USE

Read the entire Directions for Use, Conditions, Disclaimer of Warranties and Limitations of liability before using this product. If terms are not acceptable, return the unopened product container at once. By using this product, user or buyer accepts the following conditions, disclaimer of warranties and limitations of liability:

APPLICATION EQUIPMENT

Apply PROKOZ ZENITH 0.5 G Insecticide uniformly over the area being treated with normally used granular equipment. Both drop-type and rotary-type equipment may be used to apply PROKOZ ZENITH 0.5 G Insecticide. Do not use sprayers that might carry the granular in contact with plants. Follow the manufacturer’s directions. Check frequently to be sure an equipment is working properly and distributing granules uniformly and accurately.

APPLICATION RATES

For MEDICAL and TRANSPORTATION Emergencies (ON) Call 24 Hours A Day 1-800-334-7577

To report a product-related emergency, call 1-800-334-7577 or contact Chemtrec at 1-800-424-9300.

For MEDICAL and TRANSPORTATION Emergencies ONLY Call 24 Hours A Day 1-800-334-7577 or contact Chemtrec at 1-800-424-9300.

Bayer Product of China

**distributing granules uniformly and accurately.**

**APPLICATION TO ORNAMENTALS**

APPLICATION TO TURFGRASS

The following chart can be used as a guide to establish an accurate rate of PROKOZ ZENITH 0.5 G Insecticide. Application rates may vary depending upon speed, equipment wear and condition of operator. Carefully calculate application equipment prior to commercial use of this product.

The treated turf must be in such a condition that the rainfall or irrigation will allow the active ingredient to move into soil. Avoid runoff or puddling of irrigation water following application.

First Aid

If swallowed:
- Call a toxic control center or doctor immediately for treatment advice.

If inhaled:
- Take off contaminated clothing.

If in eyes:
- Do not rub eye. Rinse with water for 15 to 20 minutes.

**NOTE TO PHYSICIAN:**

None specific available. Try the symptoms pyramid.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION**

Do not contaminate water sources or sewers with this product. When applying, wash and dry equipment used

**STORAGE AND DISPOSAL**

**PRECAUTIONARY STATEMENTS**

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with the labeling. Do not formulate this product into other ready-to-use products.

**APPLICATION COST/ADVANTAGES**

**APPLICATION TO TURFGRASS**

PROKoz ZENITH 0.5 G Insecticide can be used for control of soil-inhabiting pests of turfgrasses such as northern and southern masked chincheler, Chinchilla domingi, C. domingi, and O. goosden handle. This product is highly toxic to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

Applications made with equipment that may cause drift to the adjacent property.

RESTRICTIONS
Do not apply PROKOZ ZENITH 0.5 G Insecticide to areas which are waterlogged or saturated, which will not allow penetration through the thatch. On golf courses, irrigate treated areas following application. Avoid mowing turf or lawn areas until application residue has dissipated and the soil is no longer wet. Storage and disposal facility.

EPA Reg. No. 432-1328

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

Do not apply this product, by any application method, to linden, basswood or other Tilia species.

APPLICATION TO TURFGRASS

Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

APPLICATION TO ORNAMENTALS

Do not apply this product in or on any area where water is present or to or in or on any area below the mean high water mark. Do not contain water when disposing of equipment washwaters. This product is highly toxic to aquatic invertebrates.

APPLICATION EQUIPMENT

Some insects are known to develop resistance to insecticides after repeated use. As with all insecticides, the use of this product is based on the resistance management strategies established for this use area.

PROKOZ ZENITH 0.5 G Insecticide contains a Group 4A insecticide. Due to its toxic nature, take care when disposing of or handling the container or any materials used in its application. Do not apply more than 80 lb (0.4 lb of active ingredient) per acre per year.

Read the entire label and all associated material before using this product.

CAUTION

HYDROCARBONS, OXIDES, EVAPORATED, BOILERS, FLAT-TOP PLANTS, AND PROPER CULTIVATION

RAW TEXT END
**APPLICATION EQUIPMENT**

Apply PROKOZ ZENITH 0.5 G Insecticide uniformly over the area being treated with a normally-pressured granular application equipment. Both drop-type and rotary-type spreaders may be used to apply PROKOZ ZENITH 0.5 G insecticide. Do not use spreaders that may apply the material in concentrated bands. Calibrate application equipment prior to use according to the manufacturer’s directions. Check frequently to be sure application is working properly and distributing granules uniformly and accurately.

**STORAGE & DISPOSAL**

Container Disposal: Non-refillable container. Do not disassemble or puncture container. Do not throw container into a public waste stream. Do not burn container. May be disposed of in a sanitary landfill, following the disposal procedures for empty containers.

**RESISTANCE MANAGEMENT RECOMMENDATIONS**

Some insects are known to develop resistance to insecticides after repeated use. As with any insecticide, the use of this product is based on a model established for this use as PROKOZ ZENITH 0.5 G Insecticide contains a Group 4A insecticide. Resistant insects can be controlled by using a Group 4A insecticide on the label for the target pest. The target pest may have a slightly higher activity than the target pest. Do not apply insecticide to areas where weeds are present or to areas where weeds are absent. Do not apply insecticide to areas where weeds are present or to areas where weeds are absent. Do not apply insecticide to areas where weeds are present or to areas where weeds are absent. Do not apply insecticide to areas where weeds are present or to areas where weeds are absent. Do not apply insecticide to areas where weeds are present or to areas where weeds are absent.
