GENERAL INFORMATION

WETCIT is a highly effective surfactant designed for use with insecticides, miticides, fungicides, herbicides, plant growth regulators and nutrients.

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store out of reach of children. Keep container closed when not in use. Avoid temperatures below 34°F (1°C) and above 100°F (37°C).

DISPOSAL: If empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency or 1-800-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.

WARRANTY STATEMENT

CONDITIONS OF SALE-LIMITED WARRANTY AND LIMITATIONS OF LIABILITY AND REMEDIES: Read the Conditions of Sale-Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions on this label must be followed to the extent necessary to ensure the effectiveness of the product and that the use of the product conforms to the label directions. The user or applicator is responsible for following the label directions and the directions of the manufacturer of each pesticide, for their specific usage and for the protection of the environment.

DO NOT ADD THIS PRODUCT AT A RATE THAT WILL EXCEED 25 to 100 fl. oz. of WETCIT per 100 gallons of spray. Do not mix with any other product without first contacting the manufacturer's representative. For any other requests for testing or use of WETCIT on or in any manner not according to this label, the user or applicator agrees to indemnify the manufacturer, its officers, agents and employees against all claims, damages, costs, liabilities, expenses, and losses arising from or related to use of the product.

LIABILITY AND REMEDIES: Read the Conditions of Sale-Warranty and Limitations of Liability and Remedies before using this product. If the terms are not acceptable, return the product, unopened, and the full purchase price will be refunded. The directions on this label must be followed to the extent necessary to ensure the effectiveness of the product and that the use of the product conforms to the label directions. The user or applicator is responsible for following the label directions and the directions of the manufacturer of each pesticide, for their specific usage and for the protection of the environment.

NOTE ON PESTICIDE EFFICACY EFFECTS

WETCIT may increase the response of translaminar, systemic and emulsifiable concentrate type insecticides, miticides, fungicides, plant growth regulators, herbicides and nutrients. Users and or applicator should therefore evaluate this response prior to widespread usage and read the entire label before using.

Principal Functioning Agents:

- Alcohol Ethoxylate ....................................................8.92%
- Constituents Ineffective as Spray Adjuvants ................91.08%
- Total ........................................................................100.00%

STORAGE:

Fill tank one-half full of water. Add the required amount of pesticide while agitating. Add remainder of the water. Add the recommended amount of WETCIT last and continue agitation until completion of spraying. For best results, use within 72 hours of mixing.

DIRECTIONS FOR USE

Prior to use, read all the directions on this label and on the label of the manufacturer's insecticides, miticides, fungicides, herbicides, plant growth regulators or nutrients being used with this product. The pesticide manufacturer's label for specific usage and restrictions has precedence over directions for use referred to on this label. To ensure thorough mixing, it is suggested that you recirculate entire tank and bulk tanks if shake containers last used. Ensure spray equipment is thoroughly cleaned before using. WETCIT. Coatings in inner tank and spray lines, from previous chemicals sprayed, may be dissolved by WETCIT, thereby releasing it into the mix about to be sprayed. If in doubt, add 20 ounces of WETCIT to 20 gallons of water and circulate through the system for 20 minutes. Discard properly. THEREAFTER, mix as prescribed for regular spraying. Treat a small area and observe results. If the results are satisfactory, proceed with a complete application. CAUTION: Do not apply to tree fruit or other sensitive crops without first consulting your Oro Agri representative.

DOES NOT AQUATIC USE IN WASHINGTON

For Chemical Emergency (spill, leak, fire or accident). Call CHEMTREC (800) 424-9300

For Protection of Insects, Mites, and Fungus. WETCIT is a WETTING AGENT TO ENHANCE THE EFFICACY OF INSECTICIDES, MITICIDES, FUNGICIDES, HERBICIDES, PLANT GROWTH REGULATORS AND NUTRIENTS.
