GENERAL: PHASE® is a blend of methylated esters of fatty acids and organosilicone surfactant. The organosilicone surfactant enhances the spread of the water portion of a spray solution to yield a more uniform coverage. Methylated esters of fatty acids enhance coverage and contact with foliage of oil components.

THIS PRODUCT CAN BE USED IN THE FOLLOWING SETTINGS: AGRICULTURAL, FORESTRY, INDUSTRIAL, MUNICIPAL, NON-CROPLAND, ORNAMENTAL, RIGHTS-OF-WAY AND TURF. (NOT FOR AQUATIC USE IN WASHINGTON.)

DIRECTIONS FOR USE: PHASE should be utilized with agricultural chemicals and biological controls to improve coverage. In aerial or ground equipment: Fill spray tank 1/2 full with water. Begin agitation, add selected agricultural chemicals in proper sequence. Eliminate any existing foam with approved defoamer (UNFOAMER®). To minimize foam from organosilicone surfactant, fill tank to desired water volume before adding PHASE.

SUGGESTED USE RATE: 1 to 4 pints / 100 gallons

Increase rate of PHASE as spray volume decreases to obtain desired coverage. Some pesticides have stated adjuvant use rates. In all cases the pesticide manufacturer’s label should be consulted regarding specific adjuvant use recommendations and that rate followed.

Environmental Hazards: Do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment washwaters.

STORAGE AND DISPOSAL

STORAGE: Store in cool, dry place. Store in original container. Keep container tightly closed. Do not reuse empty container.

DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Dispose of contents/container on-site or at an approved waste disposal facility. Triple rinse (or equivalent), adding rinse water to spray tank. Offer container for recycling or dispose of container in sanitary landfill, or by other procedures approved by appropriate authorities. Recycling decontaminated containers is the best option of container disposal. The Agricultural Container Recycling Council (ACRC) operates the national recycling program. To contact your state and local ACRC recycler visit the ACRC web page at www.acrcycle.org.
