READ ENTIRE LABEL BEFORE EACH USE.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Not for use on plants being grown for sale or other commercial use.

For 10 oz. Duster: Shake to fluff powder. This container is a puffer applicator. Open the container cap, attach snorkel tube, aim tube at area to be treated and with your fingers, rapidly squeeze and release the sides of the container. Follow the instructions below.

NISSANCE PESTS IN OUTDOOR AREAS
OUTSIDE SURFACES OF BUILDING
Use this product on Spiders, Ants, Clover mites, Crickets, Earwigs, Millipedes, Cockroaches and Sowbugs (Pillbugs) to help prevent infestation of buildings, treat the building foundation to a height of 2 to 3 feet, where pests are active and may find entrance. Also, to outside surfaces of building, including porches, decks, window frames, sashes, patios, garages, refuse dumps and other areas where pests congregate or have been seen. Repeat treatment as needed to maintain effectiveness, but no more than once every 7 to 10 days.

NISSANCE PESTS INDOORS
Application Within Residential Buildings Including Homes and Apartment Buildings
Not for use in food/feed handling establishments, restaurants, or other establishments where food/feed is commercially prepared, processed or served.

For Spot Treatment Only: Apply as a light but uniform dust to localized areas where spiders, cockroaches, (including strains resistant to other insecticides), ants, clover mites, crickets, and silverfish are found or normally occur including dark corners of rooms and closets; cracks and crevices in walls, along and behind baseboards; beneath and behind sinks, stoves, refrigerator and cabinets; around plumbing and other utility installations. For Ants: Apply to ant trails, also around doors and windows and wherever else these pests may find entrance.

Ground Bees, Wasps and Hornets: Apply dust on nest and surrounding areas. To treat nests in wall voids, drill a hole in the wall, blow in dust and resell. It is best to treat wasp nests at night when insects are less active and have returned to the nest. Do not wear loose fitting clothing. Take necessary precautions to avoid stings. For best results, carefully dust near nest and check once or two days after treatment to ensure complete kill. Repeat if necessary. If possible, remove and destroy nest to prevent hatching of new insects. For ground nests, carefully dust entrance and surrounding areas. Retreat in one or two days if wasp activity is still present. Do not use this product to treat overhead nests.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: May be harmful if swallowed or absorbed through skin. Avoid breathing dust. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water before smoking or eating after handling. Avoid contamination of feed and foodstuffs. Remove pets and birds and cover fish in aquariums before dusting. Do not use on humans. Do not allow children to come into contact with this product.

ENVIRONMENTAL HAZARDS
This pesticide is extremely toxic to fish. Do not apply directly to water. Drift and runoff from treated areas may be hazardous to aquatic organisms in treated areas. Do not contaminate water when disposing of equipment washwaters. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds while bees are actively visiting the treatment area.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or when going for treatment.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

STORAGE AND DISPOSAL
Store: Store and transport in an upright position. Store in a cool dry area inaccessible to children or pets.
Disposal: If empty - Do not reuse this container. Place in trash or offer for recycling if available. If partly filled - Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: Buyer assumes all responsibility for safety and use not in accordance with directions.
