MANUFACTURED FOR:
THE BIOGUARD DIVISION
BIO-LAB, INC.,
PO Box 300002,
Lawrenceville, GA 30049

NET CONTENTS:
One Half Gallon (1.89 Liters)
DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. SoftSwim B can be used in both residential and public swimming pools.

TREATING POOL:

Pools Previously Treated with Chlorinating Chemicals

Important - SoftSwim® B is incompatible with chlorinating chemical products. Consult your Authorized BioGuard Dealer for information on balancing your pool water. NOTE: If the pool is a plaster pool, add 1 quart of SoftSwim Stain Control per 10,000 gallons after the chlorine has been neutralized, and allow pump/filter to operate for 8-12 hours. Check with chlorine test kit for free chlorine prior to the beginning of neutralization. To neutralize chlorine, add BioGuard ChemOut® per label directions or add one gallon of SoftSwim Clarifier C (27.5% hydrogen peroxide) per 10,000 gallons of pool water. Filter overnight. Check with chlorine test kit. If free chlorine is detected, repeat neutralizer treatment.

Freshly Filled and Dechlorinated Pools — Start up with SoftSwim B.

Note: If the pool water contains algae or is hazy, consult your Authorized BioGuard Dealer for advice.

- Backwash or chemically clean pool filter. Check pool pH; adjust to 7.2-7.8 if necessary.
- Add SoftSwim B to give a content of 50 ppm (1/2 gallon product/10,000 gallons of pool water).
- After 24 hours, check pH and SoftSwim B concentration with SoftSwim 4-Way Water Test Strips and adjust if necessary.

Normal Pool Routine

- Every week, check SoftSwim B concentration and pH.
- Maintain SoftSwim B concentration at about 50 ppm. If concentration falls 10 ppm or more, add a top-up dose. The level should not be allowed to drop below 30 ppm. For example, to raise the SoftSwim B level 10 ppm, add 1 pint per 10,000 gallons of water. Consult your Authorized BioGuard Dealer for calculation instructions.

NOTE: SOFTSWIM B AND CHLORINE ARE INCOMPATIBLE.

Consult your Authorized BioGuard Dealer for information on how to deal with accidental chlorination.

PROBLEM-SOLVING AND SUPPLEMENTAL POOL INFORMATION

Do not use in freestanding spas/hot tubs. Do not use in unpainted plaster pools previously exposed to metals which may cause staining. Consult your Authorized BioGuard Dealer for specific information. SOFTSWIM is not compatible with many detergents and some supplemental algicides (such as those based on copper).

If algae development, cloudiness, or pool problems occur or additional information on water quality is desired, consult your Authorized BioGuard Dealer.

STORAGE AND DISPOSAL

PESTICIDE DISPOSAL: Keep container closed when not in use. Store in original container in an area inaccessible to children.

PROTECT FROM FREEZING
In case of a leak or spill, soak up with absorbent, such as sand, earth, or sawdust, and shovel into waste container. Remove waste to chemical waste area, and dispose of in accordance with local pollution regulations.

CONTAINER DISPOSAL: Keep this product in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. To dispose of empty container, rinse thoroughly before discarding in trash. For information on spills, call 1-800-424-9300.

PRECAUTIONARY STATEMENTS: HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

WARNING: CAUSES SUBSTANTIAL BUT TEMPORARY EYE INJURY.

HARMFUL IF SWALLOWED.

Do not get concentrate in eyes or on clothing. Avoid contact with skin. Avoid breathing vapor or mist. Wash thoroughly with soap and water after handling. Wear goggles or face shield when handling concentrate. Keep container closed. May cause allergic skin reactions.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of wastes.
