**Ferrobrite B**

**ADJUVANT FUNCTION STATEMENT:** Alkalinity Agent

**PRINCIPAL FUNCTIONING AGENTS:**
This chemical is considered hazardous by the 2012 OSHA Hazard Communication Standard (29 CFR 1910.1200)
2-Ethyl hexanoic acid, borax, potassium hydroxide ..................28%
CONSTITUENTS INEFFECTIVE AS SPRAY ADJUVANTS ... 72%
TOTAL ........................................................................................................ 100%

**KEEP OUT OF REACH OF CHILDREN**

### Hazard statements
Causes severe skin burns and eye damage
May damage fertility or the unborn child

### Precautionary Statements - Prevention
Obtain special instructions before use
Do not handle until all safety precautions have been read and understood
Use personal protective equipment as required
Do not breathe dust/mist/vapors/spray
Wash face, hands and any exposed skin thoroughly after handling

### Precautionary Statements - Response
Immediately call a POISON CENTER or doctor/physician
Specific treatment (see First Aid on this label)

### Precautionary Statements - Storage
Store locked up

### Precautionary Statements - Disposal
Dispose of contents/container to an approved waste disposal plant

### Spill or leak statements: Prevent further leakage or spillage if safe to do so.

### DIRECTIONS FOR USE
**NOT FOR AQUATIC USE**
This product is an alkalinity agent for use with Mycostat® brand antisapstain products. Read and understand this label, and the Mycostat® product label, before use. For addition to RTU (ready-to-use) solutions only - do not add directly to Mycostat® concentrates nor directly to tank-mix concentrates. Add sufficient Ferrobrite B to achieve a maximum RTU pH of 9.0; not to exceed 1 volume Ferrobrite B per 10 volumes RTU solution.
Caution: Do not use in conjunction with other Ferrobrite products; gross overuse can cause darkening of certain lumber species. Silicone emulsion type antifoam products may be used in conjunction with Ferrobrite-treated RTU solutions where required to suppress foam.

### FIRST AID
**Eye contact:** Immediately flush with plenty of water. After initial flushing, remove any contact lenses and continue flushing for at least 15 minutes. Do not rub affected area.

**Skin contact:** IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower.

**Inhalation:** Remove to fresh air. Call a physician immediately. If not breathing, give artificial respiration.

**Ingestion:** If swallowed, call a poison control center or physician immediately. If swallowed, do not induce vomiting: seek medical advice immediately and show this container or label.

**Handling:** Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin, eyes or clothing.

**Storage:** Keep containers tightly closed in a dry, cool and well-ventilated place.
