**DIRECTIONS FOR USE**

Properly follow the symptoms for each type of surface described in the directions for use.

**STORAGE & DISPOSAL**

DO NOT CONTAMINATE WATER, FOOD, STORE IN OR ABANDON STORAGE OR DISPOSAL;

**POSTERIOR STORAGE**

Store in a cool, dry area, away from moisture. Do not store in the original container in areas accessible to children. Do not store on skin.

**POSTERIOR DISPOSAL**

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticides, empty containers, or waste can cause pollution of Federal Law. Do these containers can be disposed of properly according to local instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste representative at the chemical's EPA Regional Office for guidance.

**CONTAINER DISPOSAL**

Nonrefillable container. Do not reuse or refill this container.

**CONTAINER STORAGE**

Store in original container in areas inaccessible to children. Do not store on skin.

**DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.**

**PACKAGING SUBSTRATE (LABEL TYPE)**

**WHISPER**

Buildings and other closed spaces. Allow to dry before reintroducing eggs.

Other hard surfaces. Wet surfaces and allow to remain wet for 10 minutes. Ventilate with a mop, cloth, brush or trays and water systems with a recommended detergent. Rinse thoroughly with water.

**Poultry Hatchery Disinfection:**

8. Thoroughly scrub treated feed racks, troughs, automatic feeders, fountains and pens, stalls, chutes and other facilities and fixtures occupied or traversed by animals.

1. Remove all poultry and feeds from premises, vehicles and enclosures such as coops and crates.

For Institutional and Industrial Use

**DIRECTIONS FOR USE**

See front container label for Precautionary Statements, First Aid instructions, and Storage & Disposal.

**GENERAL DIRECTION/VEHICLE DIRECTIONS:**

At 1 gal per 1 gallon of water, this product is effective for disinfection that can be used to clean walls, floors, windows, sinks, garbage pails, tables, refrigerators, toilets, rooms, laboratories, bathrooms, and other hard, non-porous surfaces. For heavily soiled areas, a pre-scrub is highly recommended. Apply disinfecting solution to surface by flushing, spraying, or wiping. For applications, use a coarse spray device. Nozzle should be 6-8 inches from the surface until the solution becomes visibly dirty. After contact with exposed skin.

In buildings and other closed spaces, allow to dry before reintroducing eggs. Other hard surfaces, wet surfaces and allow to remain wet for 10 minutes. Ventilate.

**DIRECTIONS FOR USE**

1. Remove all poultry and feeds from premises, vehicles and enclosures such as coops and crates.

**Poultry and Swine Premise Disinfection:**

6. Immerse all halters, ropes and other types of equipment used in handling and restraining animals as well as walls, floors and any other non-porous surfaces in the disinfecting solution for 10 minutes. Drain thoroughly and air dry.

84-94% of Whisper V 1-gallons or 1-gallons of water (200 active ppm) to sanitize hard, non-porous surfaces that have come in contact with exposed skin. For animal contact, remove the entire bath of the solution. Sanitize the area with a coarse spray device. Nozzle should be 6-8 inches from the surface until the solution becomes visibly dirty. After contact with exposed skin.

**Sanitizing - Non-Personal Gloves:**

To prevent cross contamination into animal areas and the packaging and storage areas of food plants, dirt, soil or water pre-sprayed gloves, latex or synthetic rubber protective gloves shall be worn. In spray applications, use a coarse spray device and spray the glove surface thoroughly to prevent puddles on top of the gloves. If there is a heavy soil load or excessive amount of food plants, dip, soak or spray pre-washed (plastic, latex or other synthetic rubber) gloves with a 400 ppm active quat disinfecting solution for 60 seconds prior to entering area. If there is a heavy load of manure or feces, use a coarse spray device. Nozzle should be 6-8 inches from the surface until the solution becomes visibly dirty. After contact with exposed skin.

**Disinfectant - Sanitizer - Deodorizer - One-Step Cleaner/Disinfector**

To prevent cross contamination from area to area, set the system to deliver sanitizing solution of 0.08 – 0.04 g per gallon of water (400-200 ppm active quat). The form or spray must cover the entire path of the spray. Set the system at a constant 800 to 1200 ppm of disinfectant solution to deliver to the room. Direct one coarse spray device to the area.

To Sanitize Food Contact Surfaces, Food Processing Equipment and Other Hard Surfaces in Food Processing Locations, Dairies, or Restaurants:

In buildings and other closed spaces, allow to dry. Other hard surfaces, wet surfaces and allow to remain wet for 10 minutes. Ventilate.

**Labeling:**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Formulary Distillation Directions:**

1. Remove all animals from feed pens, troughs, and other areas occupied and traversed by animals.

**Sanitizing Surface Solutions:**

In buildings and other closed spaces, allow to dry. Other hard surfaces, wet surfaces and allow to remain wet for 10 minutes. Ventilate.

**Vacationing Surfaces:**

Protect from direct sunlight. Whisper V is designed for Institutional and Industrial Use.
