A nonwoven disposable cloth containing a stable, low pH formulated disinfectant and deodorant for use on hard, non-porous surfaces; in hospitals, intensive care units, surgery, recovery, anesthesia, X-ray, Cat. Labs, orthopedics, newborn nursery, respiratory therapy, emergency medical settings, day care, schools, school buses, laboratories, clinics, nursing facilities, medical offices, dental offices, veterinary facilities, hotels, commercial, industrial facilities, spas and health clubs where control of cross-contamination is required. For use on hard non-porous surfaces only; such as stainless steel, Formica, glass tables, carts, baskets, counters, cabinets, telephones.

PREPARATION OF DISPENSER: Remove cover from container and discard covering seal. From center of wipes roll, pull up a wipe corner, twist into a point and thread through the #3 hole in the underside of the lid cover. Pull wipe through about one (1) inch. Replace the lid cover on container, assuring a secure fit. Pull out first wipe and snap at a 90° angle. Remaining wipes feed automatically for next use. Always renew hinged cap after each use to insure moisture retention.

This product is not to be used as a terminal sterilizing/high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body or (2) contains intact mucous membranes, but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to preclean or decontaminate critical or semi-critical medical devices prior to terminal sterilization or high level disinfection.

KEEPCUT OUT OF REACH OF CHILDREN
WARNING
DO NOT USE AS A BABY WIPE

See back panel for additional precautionary statements.

Net Contents: 160 Presaturated Wipes (6 x 6.75 in.)

EZ-KILL® DISINFECTING/DEODORIZING/CLEANING WIPE

DIRECTIONS FOR USE: To protect a patient, a reflection of U.S. Federal Law to use the product in a manner consistent with its labeling.

DISINFECT: Thoroughly wet pre-cleaned, hard, non-porous surface with a wipe, keep wet for 5 minutes, and allow to air dry. For use as a general disinfectant on hard, non-porous, non-laminated surfaces such as tables, counters, countertops, toilets, cabinets, ovens, etc. or on non-laminated lab equipment, cabinets, door knobs, office machinery, sinks, mirrors, light fixtures and switches, supply dressing, and trash carts, telephones, waste cans, and laundry hampers, wheel chairs, and walkers. Use plastic and other similar hard surfaces. You may use a wipe to pre-clean the surface to be disinfected, but thorough wiping with a fresh wipe is required for disinfection. Not to be used on food contact surfaces.

EZ-KILL® (Disinfecting/Deodorizing/Cleaning Wipes) are effective against the following pathogens in 5 minutes at 20°C/68°F on hard, non-porous surfaces when used as directed:

- Staphylococcus aureus, Staphylococcus epidermidis (ATCC #6538) 1000 times the standard challenge test level
- Pathogenic strains of Staphylococcus aureus and Bacillus subtilis
- Mycobacterium tuberculosis, Salmonella enterica, Escherichia coli 0157:H7, Yersinia enterocolitica, Clostridia perfringens, Pseudomonas aeruginosa, Mycoplasma pneumoniae, and Staphylococcus epidermidis

DO NOT USE AS A BABY WIPE

REASONS FOR WHICH EZ-KILL® DISINFECTING/DEODORIZING/CLEANING WIPE SHOULD BE USED INCLUDE:

- To disinfect hard, non-porous surfaces
- To control cross-contamination
- To decontaminate non-laminated lab equipment
- To disinfect surfaces in the home, office, or healthcare setting
- To disinfect food contact surfaces

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS):

- Wipe the affected surface or object with a clean wipe soaked in EZ-KILL® (Disinfecting/Deodorizing/Cleaning Wipes) solution, followed by a second wipe soaked in water. Allow to air dry. Do not use water to dilute the solution.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS):

- Wear appropriate personal protective equipment: gloves, gowns, masks, and eye protection.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS):

- Avoid contact with eyes and mucous membranes. Use a water-resistant barrier between the skin and the contaminated area.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS):

- Wash all non-disposable equipment within 10 minutes after use.

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HIV-1 (SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS):

- Use a water-resistant barrier between the skin and the contaminated area.

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING:
- Avoid contact with eyes. In case of eye contact, flush with plenty of water for at least 15 minutes. If irritation persists, call a physician. Wear safety glasses and gloves. Do not inhale vapor.

FIRST AID:
- In eyes, hold eye open and rinse slowly and gently with water for at least 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, rinse only. Do not use other eye products.
- In mouth, rinse with water, if necessary. Do not induce vomiting.

STORAGE AND DISPOSAL:
- Store in cool area. Keep away from heat or open flame. Do not reuse wipes. Dispose of used wipe and wrapper in disposable trash.
