PSS® SELECT DISINFECTING/DEODORIZING/CLEANING WIPES

DIRECTIONS FOR USE: Be a vaccination of USP. Indeed. By using this product in a manner inconsistent with this label.

PREPARATION OF DISPENSER: Remove cover from canister and discard covering seal. Center from center of wipes roll, pull up a wipe from the top and thread through the X-tack in the underside of the lid cover. Pull wipe through about 1 (1) inch. Replace the lid cover on container, assuring a secure fit. Pull out first wipe and snap at a 90° angle. Remaining wipes feed automatically for next use. Always remove hinged cap after each use to insure moisture retention.

This product is not to be used as a terminal sterilant/high level disinfectant on any surface or instrument that is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or onto contact intact mucous membranes, but which does not ordinarily permeate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to prelean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.
