Ideal for vegetable gardens

Deadline®

Bug Bait

Remains Effective After Rain or Sprinkling

Keep out of reach of children

Caution: See back panel for additional precautionary statements and first aid.

This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area. Read and follow all directions.

Active Ingredients: Metaldehyde (2, 4, 6, 8-tetramethyl-1, 3, 5, 7-tetraoxycyclo-octane) 2%
Carbaryl (1-Naphthyl N-methylcarbamate) 5%
Other Ingredients: 93%

Net WT 1 LB (454 g)
**Deadline**

**BUG BAIT**

DEADLINE® BUG BAIT is a convenient, ready-to-use bait. It is effective in the control of earwigs, sowbugs, crickets, grasshoppers, ants (except fire ants), Harvester ants, pharaoh ants and carpenter ants), armyworms, millipedes, pillbugs, Japanese beetles, and bulb flies. Easy to use, quick and economical, DEADLINE® BUG BAIT resists rain and sprinkling and remains effective in the garden for many days.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.  

**RESTRICTIONS:** Do not apply this product in a way that will cause it to be in contact with any part of a food crop or animal at or in a watercourse or irrigation system area. Do not contaminate water supplies and do not contaminate food or feed when applying this product. Do not handle this product until you have read and understood directions for use. Do not allow children or pets to contact treated area until dust has settled. Avoid applying bait in piles that may attract pests.

---

**STORAGE AND DISPOSAL**

**PESTICIDE STORAGE:** Store in a cool, dry, locked location out of direct sunlight, in original container, and not accessible to children or pets. Avoid contamination of food and feedstuffs.  

**PESTICIDE DISPOSAL:** If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.  

**CONTAINER DISPOSAL:** Empty: Nonrefillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

---

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Causes eye irritation. May be harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. Wash thoroughly after use. Keep out of reach of children and domestic animals.  

This pesticide may be fatal to dogs or other pets if eaten. Keep pets out of treated area. This pesticide may be attractive to dogs. Control pets during application to prevent them from believing they are feeding on bait.

**User Safety Recommendations:**

- Wear long-sleeved shirt, long pants, shoes plus socks and chemical-resistant gloves, such as polyethylene or butyl rubber or neoprene rubber or vinyl when applying this product.
- Change clothing as soon as possible after use.
- Wash the outside of gloves before removing. As with any pesticide product, wash hands thoroughly immediately after handling and before eating, smoking, or using the toilet.

**ENVIRONMENTAL HAZARDS**

This product is extremely toxic to aquatic fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area.

**FIRST AID**

**If in eyes:**
- Hold eye open and rinse slowly and gently with water for 15 - 20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

**If swallowed:**
- Call poison control center or doctor immediately for treatment advice.
- Have person sip a glass of water if able to swallow.
- Do not induce vomiting unless told to do so by the poison control center or doctor.
- Do not give anything by mouth to an unconscious person.

---

**FIRST AID (continued)**

**If on skin or clothing:**
- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15 - 20 minutes.
- Call a poison control center or doctor for treatment advice.

**If Inhaled:**
- Move person to fresh air.
- If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible.
- Call a poison control center or doctor for further treatment advice.

---

**POISONING HOTLINE**

Seek medical care as soon as possible after exposure. For incidents involving animals, seek veterinary care as soon as possible after exposure. Have the product container or label with you when you call a poison control center or veterinary center or veterinarian, or when going for treatment. For information on this pesticide product (including health concerns, medical emergencies, treatment advice, or poison incidents), call PROSAR at 1-800-358-3733.

---

**Metafolin**

Metafolin is a systemic toxin. There is no antidote. The following instructions are not intended for use in the event of exposure. There is no home treatment. Exposed individuals and animals should receive emergency care as quickly as possible.

**NOTE TO PHYSICIAN:**

Carnitine is a moderate, reversible cholinesterase inhibitor. Apnea is possible. Allergic reactions are typical. General antihistamine and/or corticosteroid therapy may be necessary. Monitor liver function test recovery.

**NOTE TO VETERINARIAN:**

Animals typically exposed via ingestion. Treatment for metafolin is symptomatic and supportive. If significant ingestion suspected and the animal is asymptomatic, consider induction of emesis or gastric lavage and administration of activated charcoal, cathartic and food to limit absorption. Monitor asymptomatic and symptomatic animals closely. Treat resorcinol, electrolyte imbalances, acidosis, dehydration, and increased body temperature. Monitor liver function post recovery.
