Scientifically designed and tested to mimic a mole's natural food source — earthworms and grubs. Mole may consume a lethal dose in a single feeding, but it may take two or more days from the time of bait consumption for moles to die.

BAITING ACTIVE RUNWAYS:

Manual, Below-Ground Applications.

For determining initial activity. Return 48 to 72 hours later and retreat all active runs.

SUBSURFACE RUNWAYS:

Remove and place worm shaped bait according to use directions below and ADDITIONAL GRAPHICS AND TEXT.

APPLICATION DIRECTIONS:

Use your finger, small wooden dowel or a narrow rod to puncture a hole in the top of subsurface** runways. **Deep tunnel/mound systems require a slightly different procedure. See bottom of package for details.

ESTABLISHING INITIAL ACTIVITY:

Use your finger, small wooden dowel or a narrow rod to puncture a hole in the top of subsurface runways. Mark opened runways and revisit them 48 to 72 hours later. Runways that have had holes opening, ensuring that the worm is completely inside the runway. Carefully reseal the runway with a small rock.

IMPORTANT:

Do not expose children to this product or use it for any purpose other than to control moles. To help prevent pets out of treated areas. Do NOT use this product above ground.

IF SWALLOWED:

Have person sip a glass of water if able to swallow. Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice.

IF IN EYES:

Rinse immediately with大量清水至少15分钟. Seek medical attention if irritation continues. If irritation or discomfort occurs, consult a doctor.

IF INHALED:

Move victim to fresh air. If breathing is difficult, give artificial respiration. If breathing stops, call doctor for an oxygen tank. 

IF SKIN CONTAINTED:

Rinse with大量清水至少15分钟. If irritation persists or gets worse, consult a doctor.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

Harmful if swallowed or absorbed through the skin. Keep away from children, domestic animals and pets. Do not get this material on your skin or in your eyes.

PRECAUTIONARY STATEMENTS:

To the extent consistent with applicable law, seller shall not be liable for special, indirect, incidental or consequential damages in connection with the sale, use and/or handling of this material when such use and/or handling are contrary to label instructions.

Any person handling this product must wash their hands thoroughly with soap and water immediately after handling.

STORAGE:

Store only in original container in a cool, dry place inaccessible to children and pets. Keep containers closed and avoid getting bait on your skin.

STORAGE AND DISPOSAL:

Do not mix with other chemicals. Return all unused bait to the container. Place in trash or offer for recycling if available. Place in noncombustible container and dispose of in accordance with local and federal regulations.

FIRST AID:

Call a poison control center, doctor, or 1-877-854-2494 immediately for treatment advice. Keep container and label when returning.

DISPOSAL:

Baits that have been used may be treated with water and disposed of as sewage or buried in a non-inhabited area.

APPLICATION DIRECTIONS:

For determining initial activity. Return 48 to 72 hours later and retreat all active runs.

If an animal eats bait, call veterinarian or 1-877-854-2494 at once.

TREATMENT FOR PET POISONING:

If an animal eats bait, call veterinarian or 1-877-854-2494 at once.
