First Aid

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If Swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If Inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

Note to Physician: Peripheral nerve damage may cause loss of pain sensation.

PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals:

DANGER: Corrosive. Causes irreversible eye damage and skin burns. May be fatal if swallowed or inhaled. Harmful if absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, protective clothing and impermeable gloves. Do not breathe dust, vapor or spray mist. Wash thoroughly with soap and water after handling and before eating, drinking, and using tobacco.

Individuals who operate compressed air cylinders and other related equipment that are contaminated with the weed treatment solution (e.g., cylinders that are in operation or are not free of the treatment solution) must wear protective clothing including overshoes, jacket.

Mold-Care® Moldicide Concentrate and Bora-Care® must be mixed prior to application. Follow the instructions below for proper mixing.

Mixing Procedure:
1. Pour 4 gallons of water into a six gallon pail.
2. Add 4 cups of Mold-Care® and 1 part of Bora-Care® into the solution.
3. Gradually add 1 gallon of Mold-Care® and 3 parts of Bora-Care® into the solution.
4. Use 1 gallon of water to thoroughly mix the Mold-Care® and Bora-Care® containers and pour contents into the mixing solution.
5. Continue to mix until solution is fully mixed. Normal mixing time may be 5 minutes. Warm water will reduce mixing time.

Note: Do not use mixing impeller to touch sides or bottom of pail. This may create small plastic chips that could clog spraying equipment.

Application Instructions:

Use a 2.4 gallon hand-held stainless steel sprayer or backpack sprayer to apply up to 2-4 gallons of the Mold-Care® Moldicide Concentrate/Bora-Care® suspension at a time. For larger areas, a 10-100 gallon sprayer with mechanical pump is recommended. Use pains in the area at least 300 board feet of wood or 600 square feet of sheathing, insulation or drywall. Assure uniform coverage of surfaces to be treated. Surfaces must be dry wet without rust or peeling. Permit treated surfaces to be thoroughly dry before painting or affixing overlay materials such as siding, window or roofing.

The following Personal Protective Equipment must be worn during application of the Mold-Care® Moldicide Concentrate/Bora-Care® use-solution:

Protective eyewear, long pants, long-sleeved shirt, chemical-resistant gloves and full-face respirator with HEPA filter (preferred if application is in a confined area).
Mold-Care® Moldicide Concentrate is a concentrated solution designed for use as a mold preservative. When used as directed, Mold-Care® Moldicide Concentrate will prevent treated wood articles from the destruction of black, mild and mildew.

DIRECTIONS FOR USE
If it is a violation of federal law to use this product in a manner inconsistent with its labeling, Mold-Care® Moldicide Concentrate can be used in accordance with the following precautionary instructions. For more detailed information, refer to the product label for additional information.

1. Add 1 oz of Mold-Care® Moldicide Concentrate to 1 gal of water.
2. Apply solution to the affected area using a garden sprayer or fogger.
3. Allow the solution to remain on the treated surface for at least 24 hours.

Pesticide Exposures: Pesticide wastes are considered hazardous. Improper disposal of these pesticides, spray solutions or residuals violates Federal law. In these situations, it is imperative that the pesticide be disposed of by a licensed and trained applicator. Improper disposal of pesticides could result in the exposure to hazardous chemicals, resulting in severe injury or death.

Environmental Hazards
This product behaves as a pesticide and contains hazardous substances. It is extremely hazardous to the environment by reason of its persistence and toxicity. Do not use on or near food or water supplies. Do not contaminate food or water. Keep pest control equipment separate from your family.

Physical and Chemical Hazards
Do not use or store near heat or open flame.

Mold-Care® Moldicide Concentrate contains:
- Didecyl dimethyl ammonium chloride (DDAC) 20.0%
- Formic acid 0.0%
- Water (balance)

Total (20.0% solution) = 100.0%

KEEP OUT OF REACH OF CHILDREN
DANGER
