ClearViewquat power
For Control of Algae and Algal Slime Growth in Swimming Pools.

ACTIVE INGREDIENTS:
Alkyldimethyldiallyl ammonium chloride...............49.8%
Diaalkyl (60%C12, 30%C14, 10%C16)............5.0%
Methylbenzyl ammonium chloride..................0.2%
TOTAL:

10.0%

INERT INGREDIENTS:

50.0%

Weight approx. 8lbs/gallon

KEEP OUT OF REACH OF CHILDREN

DANGER

SEE SIDE PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Wash skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eye open and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: More person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

Note to Physician: Probable mucosal damage may contaminate the taste of gastric lavage.

Net Contents 32 FL OZ (946 ml)

This product is efficient and stable in use due to its compatibility with most chemicals used in pool water and will not damage glass, concrete, metal or plastics. This product keeps pool water free and sparkling, clear of visible green and blue-green algae, slime and green brown color. This product improves filter operation and reduces need for other chemcials. This product impacts tone and a pleasantly "feel" to swimming pool water. This product is formulated to complement swimming pool water being treated with normal chlorine systems. If it is especially effective against growth of algae and being non-toxic, aids in maintaining pool water clarity and sparkle. The residual alkalinity of the algaeicide tends to stabilize the total chemical treatment system, this product is compatible with most chemicals normally used in swimming pool maintenance; however, in concentrated forms, this chemical must not come in contact with high concentrations of chlorine or any other oxidizers. DO NOT MIX THIS PRODUCT AND CHLORINE OR ANY OTHER OXIDIZER TOGETHER before adding to the pool. These chemicals must be handled separately. This product was formulated to complement most swimming pool sanitizers. This product is not a stand-alone product. It must be used with either halogen based or non-halogen based pool sanitizers.

DIRECTIONS FOR USE - SWIMMING POOLS

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Please read entire label and use strictly in accordance with precautionary statements and directions.

This product requires no special equipment for treating swimming pool water. The correct use dilution may be added directly to the pool in any spot or added to the water circulation equipment. This product works the best when added directly to the pool water.

INSTRUCTIONS FOR USE WITH HALOGEN BASED POOL SANITIZERS

This product is formulated to complement most swimming pool sanitizers. When using other products as outlined in Directions For Use on these products, always follow Directions For Use of these products. This product is effective against the growth of algae. This product is efficient and non-foaming when used as directed. This product will not evaporate and its algae fighting abilities actually increase as pool water temperature increases. Ensure all pool equipment is working properly. Backwash the filter system following manufacturers directions. Adjust pH between 7.2-7.6. Adjust chlorine residual to 1 to 3 ppm. In a chlorine treated pool, add stabilizer to maintain a minimum level of 40-60 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add acid to reduce contamination. Prevent staining of pool surface due to metals. Check chlorine residual and adjust to 1-3 ppm. Maintain sanitizer residual in accordance with latest directions found on your sanitizer of choice. When using other products as outlined in directions for this product, always follow directions on those products. Add this product directly into pool by pouring around entire perimeter of pool. Allow the filter to run for at least six (6) hours after adding algaeicide. During this period, swimmers must be allowed into the water.

OPTIONAL INSTRUCTIONS FOR USE WITH NON-HALOGEN BASED POOL SANITIZERS

This product is formulated to complement swimming pool water being treated with the RenSan® System, Balacqua and other non-halogen systems. When using other products as outlined in Directions For Use for this product, always follow Directions For Use of these products. This product is effective against the growth of algae. This product is efficient and non-foaming when used as directed. This product will not evaporate and its algae fighting abilities actually increase as pool water temperature increases. The residual effectiveness of this product tends to stabilize the total chemical treatment system. Ensure all pool equipment is working properly. Backwash the filter system following manufacturers directions. Adjust pH between 7.2-7.6. Adjust chlorine residual to 1 to 3 ppm. In a chlorine treated pool, add stabilizer to maintain a minimum level of 40-60 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals and if present add acid to reduce contamination. Prevent staining of pool surface due to metals. Add this product directly into pool by pouring around entire perimeter of pool. Allow the filter to run for at least six (6) hours after adding algaeicide. During this period, swimmers must be allowed into the water.

FINAL APPLICATION FOR SWIMMING POOLS

1. Backwash the filter thoroughly. 2. Vacuum algae debris and thoroughly brush pool. 3. Add 26 ounces of this product to each 50,000 gallons of water (0.2 ounces per 10,000 gallons) or rate thereof. 4. Vacuum pool after 24 hours to remove dead algae. 5. If algae is still visible repeat steps 3 & 4 as necessary until pool is free of visible algae. 6. Once algae are under control, clean filter and return to normal operation.

MAINTENANCE APPLICATION

Add 6.5 ounces of this product in 50,000 gallons of water every 3 to 5 days or as needed.

ROOSTER APPLICATION: Add 6.5 ounces of this product in 50,000 gallons of water after a heavy or prolonged rainfall or when there is a heavy floating load. The above directions must be followed even when the pool is not in use, if algae growth is noticeable, apply initial dose.

PRECAUTIONARY STATEMENTS

Hazard To Humans and Domestic Animals

DANGER. Keep out of reach of children. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled, swallowed or absorbed through skin. Do not get into eyes, on skin or on clothing. Do not breathe vapor or spray mist. Wear protective eyeglasses (goggles, safety glasses or face shield), protective clothing, and rubber gloves. Wash thoroughly with soap and water after handling and before eating, drinking, using tobacco or using the toilet. Remove contaminated clothing and wash clothing before reuse.

ENVIRONMENTAL HAZARD: This product is toxic to fish.

PHYSICAL OR CHEMICAL HAZARDS: Do not use or store near heat or open flame or in car. Do not mix with soap, anionic detergents or oxidizers.

STORAGE AND DISPOSAL

Do not contain water, food, or feed by storage and disposal.

PESTICIDE STORAGE: Store in original containers and place in locked storage area. Keep from freezing.

PESTICIDE DISPOSAL: Securely wrap original container in several layers of newspaper and discard in trash.

CONTAINER DISPOSAL: Do not reuse container. Follow disposal procedures. If container is empty, wash with soap and water before sending to a landfill.
