ACTIVE INGREDIENT:
CALCIUM HYPOCHLORITE...............68%
OTHER INGREDIENTS..................32%
TOTAL..................................100%
MINIMUM AVAILABLE CHLORINE......65%

KEEP OUT OF REACH OF CHILDREN
DANGER/PELIGRO

Contamination or improper use may cause
fire, explosion or the release of toxic gases. Do not
allow product to contact any foreign matter,
including other water treatment products. If product
is exposed to small amounts of water, it can react
violently to produce heat and toxic gases and
spatter. Do not add water to this product. Add only
into water. Do not mix this product with a small
amount of water. Only add directly to your pool or
spa. Highly Corrosive. Causes skin and eye
damage. May be fatal if swallowed.

Read all precautionary statements or label and first
aid statements before use.

Kills Bacteria, Controls Algae
and Destroys Organic Contaminants

NET WT. 25 LBS. (11.34 kg)

FIRST AID: IF IN EYES: Hold eye open and rinse slowly
and gently with water for 15-20 minutes. Remove contact
to lenses, if present, after the first 5 minutes, then continue
rinsing eye. Call a poison control center or doctor for
treatment advise. IF ON SKIN OR CLOTHING: Take off
contaminated clothing. Rinse skin immediately with
plenty of water for 15-20 minutes. Call a poison control
center or doctor for treatment advise. IF SWALLOWED:
Call a poison control center or doctor immediately for
treatment advise. Have person sip a glass of water if able
to swallow. Do not induce vomiting unless told to do so
by a poison control center or doctor. Do not give anything
by mouth to an unconscious person. IF INHALED: Move
person to fresh air. If person is not breathing, call 911 or
an ambulance, then give artificial respiration, preferably
mouth-to-mouth if possible. Call a poison control center
or doctor for further treatment advice. Have the product
container or label with you when calling a poison control
center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal
damage may contraindicate the use of
gastric lavage. IN CASE OF
EMERGENCY CALL: 1-800-654-6911
DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ALL PRECAUTIONARY STATEMENTS BEFORE USE.

SWIMMING POOLS

WHY YOU SHOULD USE THIS PRODUCT: This is a highly effective, multi-purpose product that sanitizes, clarifies, prevents algae and shock treats your pool. It is convenient, easy to use, and won't over-stabilize your pool.

HOW TO USE: Do not pre-mix this product before adding it to your pool. Only add this product directly to your pool or skimmer. Use only a clean, dry scoop to measure this product. Do not use the scoop for any other purpose.

Method for dosing directly into pool: Add the recommended dosage of this product during evening hours while the filter pump is running. Adding this product to your pool, broadcast the product evenly over a wide area in the deepest part of the pool. If any granules settle to the bottom of the pool, use brush to disperse.

Method for skimmer addition: Make sure that filter pump is on and properly recirculating through skimmer. Empty skimmer of all chemicals and/or debris. Contamination may cause an explosion or the release of toxic gases. Do not use this method when an automatic chemical dispensing device (e.g. feeder) is present. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate; do not allow this material to accumulate as toxic gases may be generated.

WATER BALANCE: For best product performance, swimmer comfort, and crystal clear water: Maintain pH in the range of 7.2 to 7.6. Maintain total alkalinity in the range of 60 to 120 parts per million (ppm). Maintain calcium hardness above 200 ppm. Use a reliable test kit that measures all these ranges. Use ClearView Pool Care Products to make adjustments. Follow label directions for each product. Re-entry into treated pools is prohibited above levels of 4 ppm due to risk of bodily harm.

OPENING YOUR POOL: For best results, see the "WATER BALANCE" section above before treatment. Maintain pH in the range of 7.2 to 7.6. Follow "SHOCK TREATMENT" directions on this package. Allow 30 minutes for product to disperse. Test free available chlorine residual with a pool test kit. Repeat treatment as needed.

ROUTINE CHLORINATION: For best results, see "WATER BALANCE" section above before treatment. Throughout the pool season, adjust and maintain pH at 7.2 - 7.6. Check available chlorine with a suitable test kit.

FOR UNSTABILIZED POOLS: Add 6-8 ounces of this product per 10,000 gallons of pool water daily or as often as needed to maintain the free available chlorine residual at 1 - 4 ppm. Follow "HOW TO USE" directions on this package. For POOLS STABILIZED USING STABILIZER AND CONDITIONER: Add 3-4 ounces per 10,000 gallons every other day or as often as needed to maintain the free available chlorine residual at 1-4 ppm.

SHOCK TREATMENT / SUPERCHLORINATION: For best results, see "WATER BALANCE" and "HOW TO USE" sections above before treatment. Every 7 days, or as necessary to prevent pool problems, shock treat / super chlorinate the pool by adding 10-20 ounces of this product per 10,000 gallons of water to provide 5 to 10 ppm available chlorine. Additional shock treatments may be required to correct problems which are caused by visible algae, high bathing loads, heavy wind and rainstorms. Additional shock treatments may also be required to correct problems such as unpleasant odors and eye irritation. Check the available chlorine with a suitable test kit.

ALGAE CONTROL: Follow "SHOCK TREATMENT" directions on this label. Add this product as close as possible to any algae on the sides or bottom of the pool. If necessary, repeat the treatment. To prevent possible staining or bleaching, take the following steps immediately after treatment: Thoroughly clean pool by brushing surface of algae growth, vacuum, and cycle through filter.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Irritating to nose and throat.
- Do not get in eyes, on skin, or clothing. Do not handle with bare hands. Wear safety goggles or face shield, and rubber gloves when handling this product. For additional skin protection, wear long sleeves and long pants. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. • Open in a well ventilated area. Do not breathe dust or fumes. • Remove and wash contaminated clothing before reuse.

PHYSICAL AND CHEMICAL HAZARDS:
If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and foaming. Do not add water to this product. Add only into water.
- Do not mix this product with a small amount of water. Only add this product directly to your pool. • Do not allow to become wet or damp before use.
- Do not mix with other materials. Mixing with other water treatment products, to cause intense fire, explosion, and the release of toxic gases.
- Keep all foreign matter, including other water treatment products, away from this product. • Do not allow this product to contact other water treatment products. Do not use this product in a float or feeder that has been used with any other product. If used with a skimmer, make sure skimmer is completely clean and free of residue from other water treatment products before putting this product in a skimmer.
- Exposure to heat can cause this product to rapidly decompose, leading to intense fire, explosion, and the release of toxic gases.
- Store in a cool, dry, well ventilated area. Strong oxidizing agent. This product can increase fire intensity. Keep away from heat and from flames and burning material (like a lighted cigarette).
- ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL: Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal of equipment for DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE "EMERGENCY HANDLING."

EMERGENCY HANDLING: In case of contamination or decomposition - Do not refeed container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in approved landfill area.
