Pine Disinfectant Cleaner

Pine Disinfectant Cleaner is effective against a wide variety of gram-positive and gram-negative bacteria. It is also an excellent deodorant and is especially effective in controlling odors that are bacterial in origin.

This disinfectant mixes with water to form clear, stable use solutions. Use solutions are non-corrosive and non-staining to plastic, vinyl, synthetics, enamel, tile and most common metals. Has a pleasant pine odor.

Use this product for cleaning and deodorizing, one-step cleaning and disinfection, disinfection of pre-cleaned, hard non-porous surfaces.

Use this product on washable hard non-porous surfaces: floors, walls, countertops, sinks, glazed tiles, chrome fixtures and hard non-porous surfaces made of metal, glazed porcelain, glazed ceramic, linoleum, enamelled surfaces, finished woodwork, vinyl & plastic upholstery.

Pine Disinfectant Cleaner

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION INFORMATION:
Select the proper use-direction of the product from the directions below:
1. Apply the use-direction for cleaning to the surfaces to be treated. The product must remain moist for 10 minutes to assure proper germicidal action. Wipe dry with a clean cloth or sponge in an alternate sequence. Rinse all surfaces that remain in contact with food such as countertops, appliances, tables and stovetops with potable water before reuse. Do not use this product on unused glassware or dishes.

CLEANING: To clean and deodorize or to pre-wash prior to disinfection. Depending on the soil level of the area to be cleaned, use 3 to 12 oz. of this product per gallon of water.

DISINFECTING: Hospitals. Healthcare Facilities (Clinics), Nursing Homes: Use 7.9 oz. of this product per gallon of water or 1 part to 15 parts water for one-step cleaning and disinfection of areas with light to medium soil loads. For heavily soiled areas, pre-clean as described above and then disinfect with 8 oz. of this product per gallon of water or 1 part to 20 parts water. This product is not to be used on medical device surfaces.

Environmental Hazards: This product is toxic to fish.

Physical or Chemical Hazards: Do not use or store near heat or open flame.

STORAGE AND DISPOSAL
Store only in tightly closed original container in a secure area inaccessible to children. Do not reuse empty container. Discard in trash or recycle.

Precautionary Statements
Hazards to Humans and Domestic Animals
Danger. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food. Wear protective eyewear (goggles, face shield or safety glasses), protective clothing and rubber gloves. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

For product information, contact your local distributor.

Regency Professional

Industrial Areas, Barber Shops, Restrooms, Restaurants. Other
Non-Medical use sites: Precleaned surfaces. Then, disinfect with a use-direction of 4 oz. of this product per gallon of water (1 part to 32 parts water). Alternatively, clean and disinfect in one operation using 7.5 oz. of this product per gallon of water.

Deodorizing: garbage cans, garbage trucks, industrial waste receptacles and garbage handling equipment; it is especially important to pre-wash the product prior to performing properly. Then, apply a working concentration of 16 oz. of this product per gallon of water.

For Mold Control: Follow directions for hospital disinfection. Residual treatment every seven days or more often if new growth appears.

* This disinfectant is effective at 6 oz. per gallon of water against Pseudomonas aeruginosa, PRV-10, Staphylococcus aureus ATCC 101078, and Serratia marcescens ATCC 6538 when tested by the A.O.A.C. Use Dilution Test Method for unchlorinated hard, nonporous surfaces.

** This disinfectant is effective at 6 oz. per gallon of water against Influenza Virus Type A/H1N1 and H3N2 and Type B/Ohio.

When applied as directed to pre-cleaned hard, nonporous surfaces, this disinfectant also kills the following organisms at 6 oz. of: Bacillus subtilis, Enterococcus faecalis, e. coli, Staphylococcus aureus, and Serratia marcescens.

This product is not to be used on medical device surfaces.
