Permatek™ IM 30
Insecticide for the control of termites in wood-based products

INGREDIENT STATEMENT
Active Ingredients:
Imidacloprid ........................................... 3.0%
Inert Ingredients .................................. 97.0%
Total ................................................. 100.0%

EPA Reg. No. 72615-3
Sold by: Zelam Ltd, New Plymouth, New Zealand
™ Registered Trademark of Tapuae Partnership, New Zealand

Keep Out of Reach of Children
CAUTION
See side panel for additional precautionary statements.

FIRST AID
IF SWALLOWED:
• Call a poison control center or doctor immediately for treatment advice.
• Have person sip a glass of water if able to swallow.
• Do not induce vomiting unless told to do so by a poison control center or doctor.
• Do not give anything to an unconscious person.

IF ON SKIN:
• Take off contaminated clothing.
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison control center or doctor for treatment advice.

NET CONTENTS: __________ GALLONS

HOT LINE NUMBER
Have the product container with you when calling a poison control center or doctor, or going for treatment.
You may also contact the National Pesticide Telecommunications Network at 1-800-858-7378 for emergency medical treatment information.
PRECAUTIONARY STATEMENTS
Signal Word: CAUTION.
Hazard to Humans and Domestic Animals:
Harmful if swallowed. Avoid contact with skin or clothing. Wash
thoroughly with soap and water after handling and before eating,
drinking, chewing gum, or using tobacco. Wear protective clothing,
shoes, and gloves. Remove and wash contaminated clothing before
use.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Applicators and other handlers must wear:
Coveralls over long-sleeved shirt and long pants;
Chemical resistant footwear and socks;
Chemical resistant gloves that are waterproof;
Protective eyewear;
Chemical resistant apron when cleaning equipment, mixing or loading;
Dust/mist filtering respirator (MSHA/NIOSH approval number prefix TC-21C)

Follow manufacturer’s instructions for cleaning/maintaining PPE. If
no such instructions for washables, use detergent and hot water.
Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS
Users should: Wash hands before eating, drinking, chewing
gum, using tobacco, or using the toilet. Remove clothing
immediately if pesticide gets inside, then wash thoroughly and
put on clean clothing. Remove PPE immediately after handling
this product. Wash the outside of gloves before removing. As
soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This pesticide is harmful to fish. Keep out of lakes, ponds or streams.
Do not contaminate water by cleaning of equipment or disposal of
wastes. Harmful to bees.

STORAGE AND DISPOSAL
Do not contaminate water, food or feed by storage, disposal or
cleaning of equipment.
Storage. Store in a cool, well-ventilated storage area. Store in
original container only in a locked place out of reach of children.
Protect from freezing.
Pesticide Disposal. Wastes resulting from the use of this product
may be disposed of on site or at an approved waste disposal
facility.
Container Disposal.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner
inconsistent with its labeling.

Ensure that the spray unit is correctly maintained and that an
effective mist extraction system is used. Treated timber must not
come into contact with foodstuffs, e.g. use in packing cases or
places where food is prepared or stored. DO NOT spray directly
on exposed food, utensils or food preparation surfaces.

Wood-based Composite Products:
Permatek™ IM 30 is recommended for the preservation of wood-
based composite products, such as waferboard, fibreboard and
particleboard when it is important to prevent the attack of insects,
including termites, on the composite product. Composite wood
treated with Permatek™ IM 30 does not change in appearance
and may be painted when dry.
Permatek™ IM 30 may be applied into a wood composite through
a number of methods, including:
a) Metering Permatek™ IM 30 into the dried wood flakes, fibres,
etc. immediately before the blender. Permatek™ IM 30 is then
mixed with flakes in the blender.
b) Mixing Permatek™ IM 30 with the wood flakes in the blender.
c) Mixing Permatek™ IM 30 with the adhesive or wax which is
subsequently applied to the flakes in the blender.

The method of incorporation of Permatek™ IM 30 will depend on
the specific manufacturing process and wood species for the
composite.
The use level is 0.167 to 1.67 lbs. Permatek™ IM 30 per cubic
foot of wood.

Wood-based Veneer Products:
For the treatment of plywood, LVL and oriented-strand board,
Permatek™ IM 30 may be used to treat the veneers before lay-up
by dipping or spraying. If sprayed, apply as a coarse spray.
Alternatively Permatek™ IM 30 may be added to the adhesive
prior to application to the veneers.

When treating softwood veneer based products for protection against
termites (all termites excluding Mastotermes darwinensis), the
suggested use level is 0.045 lbs. Permatek™ IM 30 per cubic
foot based on dry board weight.

When treating LVL, some adjustment of use rate may be needed
because of the effects of processing conditions.

Millwork and Construction Lumber:
For the treatment of millwork and construction lumber Permatek™
IM 30 may be used to treat all exposed surfaces by brushing or
dipping.
Apply a 1:4 dilution of Permatek™ IM 30 to all surfaces, ensuring
complete coverage. Apply to runoff.
Millwork and construction lumber treated with Permatek™ IM 30
does not change in appearance and may be painted when dry.
