PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION

CAUTION
Cautions:
Moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Keep people and pets out of treated areas until sprays have dried.

FIRST AID:
If in Eye: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

FOR EMERGENCY MEDICAL INFORMATION, CALL THE NATIONAL PESTICIDE INFORMATION CENTER AT 1-800-388-7777

ENVIRONMENTAL HAZARDS
Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsewaters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NOTICE: Read the entire label. Use only according to label directions. Before using this product, read "Warranty Disclaimer" or "Inherent Risks of Use," and "Limitations of Remedies" at end of label. If terms are unacceptable, return it once unopened.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Information
This product kills broadleaf and grass weeds. This product may be used for non-selective weed control around patios, walkways, driveways and fences, in vegetable or flower gardens and around trees and shrubs and other landscaped areas. Applications to plant foliage are rainfast in approximately two hours and afterward will not be affected by rainfall or irrigation.

How This Product Works
The active ingredient in this product is active against a substance found only in plants. It enters the plant through foliage and is translocated throughout the plant, killing both roots and top growth. This product is not active in soil and cannot move through the soil to damage desirable plants. Sprays not absorbed by plants are broken down in natural materials.

What To Expect
Weeds may begin to wilt within a few hours, but complete kill may require 1 to 2 weeks. Small, rapidly growing weeds may be killed with a single application while older, mature weeds may require re-application. If re-application is necessary, wait until new growth appears.

Important Use Precautions
Do not spray during windy conditions or allow the spray to contact desirable plants such as flowers, ground covers or lawn areas, as they will be severely damaged or killed. In situations where weeds and desirable plants are in close proximity, use a piece of cardboard or plastic to shield desirable plants from the spray.

TOTAL SOLUTIONS

ZAP-IT

For Control Of All Types Of Broadleaf And Grass Weeds On Walks, Driveways, Gardens, Flower Beds, Along Fences, And Around Trees And Shrubs.

One Gallon Treats 300 Square Feet
For Outdoor Use Only
Easy To Use

No Mixing Required/Necessary
Kills Weeds, Roots And All Rainproof In 2 Hours For control that won’t wash away

ACTIVE INGREDIENTS:
Glufosinate, napropamide salt........0.95%
OTHER INGREDIENTS..................33.05%
TOTAL........................................100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION
Refer to side panel for Precautionary Statements and Directions for Use, including Storage and Disposal instructions.

STORAGE AND DISPOSAL
Do Not Contaminate Water, Food, or Feed By Storage or Disposal.

Pesticide Storage: Store in a dry place no lower in temperature than 50°F or higher than 120°F.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinseate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Nonrefillable container. Do not use or refill container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill container 1/4 full with water. Replace and tighten closures. Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinse into application equipment or a mix tank or store rinseate for later use or disposal. Repeat this procedure two more times.

If a desirable plant is sprayed by mistake, immediately rinse the plant with water. Before sprays have dried, avoid inadvertent transfer of the spray solution from treated plants to desirable plants or tracking spray from treated areas onto lawns or other desirable vegetation.

APPLICATION

For Best Results
• Apply when weather is warm (above 60°F) and sunny to stimulate systemic movement from foliage to roots.
• To avoid spray drift to desirable vegetation, adjust spray nozzle to produce large droplets and spray when wind is calm.
• Spray foliage until thoroughly wet, but not past the point of runoff.
• Apply when weeds are small and actively growing, before seeds develop.

How To Apply
• Adjust the spray nozzle to produce large droplets. Small droplets or mists are more likely to drift and cause damage to desirable plants.
• Spray the weeds until the leaves are thoroughly wet, but not past the point of runoff.
• If a desirable plant is nearby, a piece of cardboard or plastic should be used to shield the plant from the spray.

Terms and Conditions of Use
If terms of the following Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies are not acceptable, return unopened package at once to the seller for a full refund of purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use, and Limitations of Remedies. Warranty Disclaimer
Seller warrants that this product conforms to chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. SELLER MAKES NO EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use
It is impossible to eliminate all risks associated with use of this product. Lack of performance, or other unintended consequences may occur due to such factors as use of the product contrary to label instructions (including adverse conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as extreme weather conditions), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Seller. All such risks shall be assumed by Buyer.

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causess moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling. Keep people and pets out of treated areas until sprays have dried.

FIRST AID:
If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes. Then continue rinsing eye. Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

FOR EMERGENCY MEDICAL INFORMATION, CALL THE NATIONAL PESTICIDE INFORMATION CENTER AT 1-800-929-9653.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate surfaces when disposing of equipment washwater or drain. Do not discharge effluent containing this product into lakes, streams, ponds, wells, septic systems, lagoons, or other surface waters. Follow the guidelines in the National Pollutant Discharge Elimination System (NPDES) permit and the enforcing authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

NOTICE: keep the entire area well ventilated according to local directions. Before using this product, read "Warranty Disclaimer", "Inherent Risks of Use", and "Limitations of Remedies" at end of label. If terms are unacceptable, return at once unopened.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

General Information

The product kills broadleaved and grass weeds. This product may be used for non-selective weed control around patios, walkways, driveways, and patios around homes, and on thefor, around and under trees and shrubs and other landscape areas. Applications to plant foliage are made in approximately two hours and afterward will not be affected by rainfall or irrigation. See Directions for Use for specific instructions regarding use on turf.

How This Product Works

The active ingredients in this product act against a substance found only in plants. It enters the plant through foliage and is translocated throughout the plant, killing both roots and top growth. This product is not active in soil and cannot move through the soil to damage desirable plants. Spots not attacked by plants are broken down into natural materials.

What To Expect

Weeds may begin to wilt within a few hours, but complete kill may require 1 to 2 weeks. Small, newly growing weeds may be killed with a single application while older, mature weeds may require re-application. If re-application is necessary, wait until new growth appears.

Important Use Precautions

Do not spray during windy conditions or allow the spray to contact desirable plants such as flowers, ground covers or lawn areas, as they will be severely damaged or killed. In situations where weeds and desirable plants are in close proximity, use a piece of cardboard or plastic to shield desirable plants from the spray.

DISTRIBUTED BY: Total Solutions
PO Box 14004, Milwaukee, W1 53224

If a desirable plant is killed by mistake, immediately rinse the plant with water. Before sprays have dried, avoid inadvertent transfer of the spray solution from treated plants to desirable plants or tracking spray from treated areas onto lawns or other desirable vegetation.

APPLICATION

For Best Use:

- Apply when weather is warm (above 60°F) and sunny to stimulate systemic movement from foliage to roots.
- To avoid spray drift to desirable vegetation, adjust spray nozzle to produce large droplets and spray upwind of the target.
- Spraying should be delayed until after the peak of rainfall.
- Apply when weeds are small and actively growing, before seeds develop.

How to Apply

- Adjust the spray nozzle to produce large droplets. Small droplets or mist are more likely to drift and cause damage to desirable plants.
- Spray the weeds until the leaves are thoroughly wet, but not past the point of runoff.
- If a desirable plant is nearby, a piece of cardboard or plastic should be used to shield the plant from the spray.

TERRAIN AND CONDITIONS OF USE

If terms of the following Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies are not acceptable, return unopened package at once to the retailer for a full refund of the purchase price paid. Otherwise, use by the buyer or any other user constitutes acceptance of the terms under Warranty Disclaimer, Inherent Risks of Use and Limitations of Remedies.

Warranty Disclaimer

Seller warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated on the label when used in strict accordance with the directions, subject to the inherent risks set forth below. SELLER MAKES NO EXPRESS OR IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY OTHER EXPRESS OR IMPLIED WARRANTY.

Inherent Risks of Use

It is impossible to eliminate all risks associated with use of this product. Lack of performance, or other unintended consequences may occur due to such factors as use of the product contrary to label instructions (including adverse conditions noted on the label, such as unfavorable temperature, soil conditions, etc.), abnormal conditions (such as extreme weather conditions), presence of other materials, the manner of application, or other factors, all of which are beyond the control of Seller. All such risks shall be assumed by Buyer.

STORAGE AND DISPOSAL

Do Not Contaminate Water: Food or Feed By Storage or Disposal. Pesticide Storage: Store in a dry place not in temperature greater than 50°F or higher than 120°F.

Pesticide Disposal: Pesticide wastes are acutely hazardous, improper disposal of excess pesticide, sparse mixture, or rinse is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the hazardous waste representative at the nearest EPA Regional Office for guidance. Container Disposal: Nonhazardous container. Do not reuse or refill container. Offer for recycling if available. Clean container promptly after emptying. Decontaminate containers into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fit the container lid tight with water and repeat these for 10 seconds. Pour rinse into application equipment or a mix tank or store rinse for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat procedure two more times.
