No. 5 "IGR" FLY TUB

(Contains Altosid® IGR)

PREVENTS ADULT HORN FLY EMERGENCE FROM MANURE OF TREATED CATTLE

A Nutritional Supplement Containing (S)-Methoprene Insect Growth Regulator for Continuous Feeding to Cattle through the Horn Fly Season

ACTIVE INGREDIENT

(S)-Methoprene (CAS #65733-16-6) .................................................. 0.005%

OTHER INGREDIENTS: ................................................................. 99.995%

Total ................................................................................................. 100.000%

*As the Insect Growth Regulator ALTOSID®

GUARANTEED ANALYSIS

Crude Protein, not less than .......................................................... 19.00%

Crude Fiber, minimum .................................................................. 6.00%

Calcium (Ca), minimum ................................................................. 1.00%

Phosphorous (P), minimum .......................................................... 2.00%

Sodium (Na), none added .............................................................. 0.00%

Magnesium (Mg), minimum .......................................................... 3.00%

Potassium (K), minimum ............................................................... 3.00%

Copper (Cu) minimum ................................................................. 300 ppm

Iodine (I), minimum ................................................................. 28 ppm

Magnesium Oxide, 99.00% .............................................................. 0.00%

Zinc Oxide, 99.00% ........................................................................ 0.00%

Manganese Oxide, 99.00% .............................................................. 0.00%

Selenium, 99.00% ................................................................. 0.00%

Vitamin E, minimum ................................................................. 80 IU

Vitamin A, minimum ................................................................. 250,000 IU

Vitamin D, minimum ................................................................. 80,000 IU

OTHER INGREDIENTS:

Beet Molasses, Plant Protein Products, Processed Grain Byproducts, Vegetable Fat, Dried Aspergillus Oryzae Fermentation Product, Monosodium Phosphate, Monocalcium Phosphate, Magnesium Oxide, Zinc Oxide, Manganese Oxide, Copper Sulfate, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Vitamin B12 Supplement, Niacin, Choline Chloride, Biotin, Folic Acid, Cobalt Carbonate, Sodium Selenite, and Ethylenediamine Dihydriodide.

FEEDING AND MANAGEMENT INSTRUCTIONS:

1. Assure cattle are not starved for nutrients prior to feeding Vitalix No. 5 "IGR" Fly Tub.

2. Offer Vitalix No. 5 "IGR" Fly Tub for every 15 to 25 head of cattle.

3. Remove all other self-feeding nutritional supplements.

4. Locate Vitalix No. 5 "IGR" Fly Tub where cattle congregate (watering, loafing, shade areas).

5. Replenish Vitalix No. 5 "IGR" Fly Tub on a regular basis as needed.

6. If intake of Vitalix No. 5 "IGR" Fly Tub is below 0.8 ounces per 100 pounds animal body weight per day, increase the number of feeding locations and/or change location(s) to areas more frequented by cattle.

7. If intake of Vitalix No. 5 "IGR" Fly Tub is above 8.0 ounces per 100 pounds animal body weight per day, reduce the number of feeding locations and/or change location(s) to areas less frequented by cattle.

8. Introduction of this product after adult horn fly infestation is established will require treatment of cattle with adulticides if limitation of the adult fly population is desired.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place.

PESTICIDE DISPOSAL: This product is hazardous to aquatic life. Use care in handling and disposing of this product. Do not contaminate water, food, or feed by storage or disposal.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill. Offer for recycling or reconditioning where allowed by state and local authorities. Burn in a well-ventilated area.
