KEEP OUT OF REACH OF CHILDREN

DANGER

FIRST AID
If Swallowed  
• Do not induce vomiting.  
• Do not give anything to drink.

If in Eyes  
• Wash immediately and continuously with flowing water for at least 30 minutes.  
• Remove contact lenses, if present, after the first 6 minutes and continue washing.  
• Obtain prompt medical consultation, preferably from an ophthalmologist.
• Call a poison center or doctor for treatment advice.

If on Skin, Clothes  
• Take off contaminated clothing.  
• Rinse skin immediately with plenty of water for 15-20 minutes.
• Call a poison center or doctor for further treatment advice.

If Inhaled  
• Move person to fresh air.  
• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth if possible.
• Call a poison center or doctor for further treatment advice.

NOTE TO PHYSICIAN
Aspiration may cause lung damage.  
Probable mucosal damage may contraindicate the use of gastric lavage.

Precautionary Statements

HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
Corrosive.  Harmful if swallowed.  Causes irreversible eye damage.  Causes skin irritation.  Harmful if inhaled.  Causes respiratory and renal damage in hypernasal individuals.  Do not inhale.  Do not get in eyes, on skin, or on clothing.  Avoid breathing vapor.  Do not store near fuel hose or any other source that may induce sparking.  Do not drain into sewers of public sewer systems.  When using, wear rubber or plastic gloves.  Avoid prolonged exposure.  Wear appropriate safety equipment.  Do not disrupt the container.

Environmental Hazards  
This product is toxic to fish and aquatic organisms.  Do not discharge effluents containing this product into lakes, streams, ponds, aquaculture ponds, canals, or other water bodies unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.  Do not discharge effluents containing this product to sewer systems without first notifying the sewage treatment plant authority.  For guidance, contact your State Water Board or Regional Office of the EPA.

Storage and Handling

2883 is incompatible with many commonly used materials of construction such as steel, galvanized iron, aluminum, tin and zinc.  2883 can be stored at standard plant operating temperatures (65°F to 90°F).  If high or low ambient temperatures are encountered, the product may be stored at ambient temperatures (60°F to 115°F) for 30 days without affecting its stability.  If the solution is stored at a temperature below 60°F, the product may need to be reconditioned before use.  If the solution is stored at a temperature above 115°F, the product may need to be reconditioned before use.  2883 can also be stored at 65°F to 90°F in airtight containers at atmospheric pressure without deterioration.

With proper storage, 2883 is sufficiently stable to last up to 2 years from the date the product is made.  It is recommended that the container be stored in a cool area such as a warehouse or other area free from direct sunlight and excessive heat or cold.
