REVISED LABEL DATA SHEET

PRODUCT NAME: PreStrike Mosquito Torpedo

EPA REGISTRATION NUMBER: 2724-499

LABEL COMPONENT NUMBER(S) ATTACHED: 300501135

REVISIONS INCLUDE:

1. Added Wellmark street address.
KILLS Mosquitoes
In Standing Water
Where They Breed

Just place in standing water
Each Mosquito Torpedo® treatment provides
60 days of protection
No float design
No unsightly debris
Won't harm humans, animals, fish or vegetation when used as directed

ACTIVE INGREDIENT:
(5)-Methoprene (Dry Weight Basis)
(CAS #1333-94-8) 8.22%
OTHER INGREDIENTS: 91.78%
TOTAL: 100.00%

KEEP OUT OF REACH OF CHILDREN
CAUTION
See back panel for additional Precautionary Statements/First Aid

NET WEIGHT: 0.96 OZ. (27g)

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Introduction: Pre-Srike® Mosquito Torpedo® (Mosquito Torpedo®) is an easy and effective way to kill developing mosquitoes in standing water before they become breeding biting adults. With just one site application, adult mosquitoes may transmit West Nile Virus and other illnesses that can cause blindness or death in people and animals. They may also transmit heartworm disease to dogs and cats. Mosquito Torpedo® is a safe, effective and continuously releases an Insect Growth Regulator into water that prevents larval mosquito development for up to two months. For larger sites requiring application of two Mosquito Torpedoes, an additional package will be required for a 300 day control. Mosquito Torpedo® leaves treated water free of visible residue when used according to the directions.

How to Apply: Simply place Mosquito Torpedo® in standing water where mosquitoes may breed. Remove any other product from the package for immediate use. For best results, apply Mosquito Torpedo® before the beginning of the mosquito season, and continue as directed below in the Application Table.

Application Sites: Mosquito Torpedo® controls mosquitoes in water-holding receptacles and standing water sites around your home. Apply this product as a preventative measure to application sites before they fill with water. Mosquito Torpedo® may also be used in water that intermittently fills with water. If water begins receding and is covered with debris, the active ingredient will remain active for up to two months when continuously immersed in water. Do not apply to water that may drain into public waterways, such as streams or lakes.

Examples of application sites include, but are not limited to:
- Bird baths
- Water gardens
- Roof gutters
- Old tires
- Pool covers
- Ornamental fountains
- Fishpools or planters
- Other water-holding container

STORAGE & DISPOSAL: Storage: Store in cool, dry place. Disposal: If empty: Do not re-use this container. Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

PREDUCTIONARY STATEMENTS - HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with skin, eyes, or clothing. Wash thoroughly with soap and water after handling.

FIRST AID:
Call a poison control center or doctor for treatment advice.

If In Eyes: Hold open and rinse slowly and gently with water for 15-30 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

If on Skin or Clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.

ENVIRONMENTAL HAZARDS: Do not apply to water that drains into public waterways. Sailor makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. To the extent permitted by law, Buyer assumes all risks of use and handling of this material when such use and handling are contrary to label instructions.
