**NET CONTENTS:**
1 lb (8 oz chunks)

**CONTENIDO NETO:**
454 g (8 trozas de 56,7 g)

**KEEP OUT OF REACH OF CHILDREN CAUTION:**

**MANTENER FUERA DEL ALCANCE DE LOS NIÑOS PRECAUCIÓN**

**PRECAUTIONARY STATEMENTS/MATERIALS TO HUMANS AND DOMESTIC ANIMALS CAUTION:**

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wear gloves if product is handled. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

**NOTE TO PHYSICIAN OR VETERINARIAN:** Contains bromadiolone, an anticoagulant. For humans or dogs that have ingested this product, or have obvious poisoning symptoms (bleeding) or elevated prothrombin times, give Vitamin K1 by intramuscular or oral administration. Check prothrombin time every 3 days or until values return to normal.

**ENVIRONMENTAL HAZARDS:** This product is toxic to mammals and birds. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply this product directly to water or areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of wastes.

**User Safety Recommendations—User Should:**

- Wash hands before eating, drinking, chewing gum, or using tobacco.
- Do not apply this product directly to water or areas where surface water is present or to intertidal areas below the mean high water mark.
- Do not contaminate water by cleaning of equipment or disposal of wastes.

(If you do not understand the label, ask someone to explain it to you in detail.)

**DIRECTIONS FOR USE:**

Read entire label, use strictly in accordance with precautionary statements and directions and with applicable state and federal regulations.

**IMPORTANT:** Do not expose children, pets or other nontarget animals to residuals. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in temporary bait stations. These stations must be resistant to destruction by dogs and by children under six years of age, and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized.
3. Place of product container, unused, spoiled and un consumed bait as specified on this label.
APPLICATION DIRECTIONS:
Each Last One (bait) H-Bait Chunk weighs 2-oz.

RATE: Apply two to eight 2-oz chunks at each placement location. For burrow applications, insert one to two 2-oz chunks deep into each active burrow. Check treated burrows each morning and evening to make sure that baits have not been pushed out or burrows. Space placements 15 to 30 feet apart in infested areas. Maintain an uninterrupted supply of fresh bait for 10 days or until fresh signs of rat activity cease to appear.

MICE: Apply one 2-oz chunk per placement. Space placements at 8 to 12 foot intervals. Maintain an uninterrupted supply of fresh bait for 15 days or until fresh signs of mouse activity cease.

FOLLOW-UP: Replace contaminated or spoiled bait immediately. Collect and dispose of all dead animals and leftover bait properly. To prevent reinfestation, eliminate food, water and harborage as much as possible. If reinfestation does occur, repeat treatments. Where a continuous source of infestation is present, establish permanent bait stations and replenish bait as needed.
