APPLICATION DIRECTIONS:
For Just One Bite® Bar weights one pound and is spaced to be broken into 1-oz. pieces. 
Rats: Apply two to eight 1-oz. pieces of bar (or one entire bar) at each placement location. For larger applications, insert one to two 1-oz. pieces of bar deep into each active burrow. Check treated areas every morning and evening for up to two weeks, or until activity ceases. If activity ceases but then resumes, repeat applicaiton. Keep treated areas free of dead rodents and rodent activity. 

c: Make sure that there is at least one 1-oz. piece per placement. Space placements at intervals of 10 to 12 feet. Maintain an uninterrupted supply of fresh bait for 15 days or until fresh signs of activity cease to appear. 

STORAGE AND DISPOSAL 
STORAGE: Store only in original container, in a cool, dry place inaccessible to children and pets. 

dISPOSAL: If empty: Do not reuse empty container. Place trash or offer for reconditioning if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain. 

CONDITIONS OF SALE

PRECAUTIONARY STATEMENTS 
HAZARDS TO HUMANS AND DOMESTIC ANIMALS 

CAUTION 

This product is toxic to mammals and birds. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply this product directly to water or to areas where surface water is present or to immediately areas below the mean high water mark. Do not contaminate water by discharging of equipment or disposal of waste. 

User Safety Precautions 

User Should: 

- Wash hands before eating, drinking, chewing gum, using tobacco or going to the bathroom. 
- Remove clothing immediately if bait gets on their skin. Wash thoroughly and put on clean clothing. 

DIRECTIONS FOR USE 

This product is intended for use on lawns and gardens. Some areas may be in contact with food or water. Do not apply this product directly to water or to areas where surface water is present or to immediately areas below the mean high water mark. Do not contaminate water by discharging of equipment or disposal of waste. 

IF SWALLOWED: Call a poison center or doctor immediately for treatment advice. If you get into eyes, wash with plenty of water once or until irritation subsides. 

FIRST AID 

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present. If irritation persists, get medical attention. 

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Have skin washed vigorously with plenty of water for 15-20 minutes. 

IF INHALED: Remove person to fresh air. If symptoms persist, get medical attention. 

See last panel for additional precautionary statements.
