KILLS BED BUGS, LICE & DUST MITES™

- For indoor use in the home and non-food areas of restaurants, schools, nursing homes, warehouses, offices, apartments, hotels, motels, kennels and hospitals.
- Not for use on humans or animals.
- Will not stain water-safe fabrics and surfaces.
- Kills Bed Bugs on Wood, Ceramic Surfaces and Carpet for up to 2 Weeks.

ACTIVE INGREDIENTS:
3-phenoxynbenzenesulfonic acid, 18S, 38S, 38S, 38S, 38S-2,
2-dimethyl-2-(2-methylprop-1-enyl) cyclopropanecarboxylate 0.45%
*V-Out ibicyclohexyl dicarbonate 1.65%
OTHER INGREDIENTS 97.90%
* MGK® 264, Insecticide Synergist 100.00%

FIRST AID

IF IN EYES:  Hold eye open and rinse slowly and gently with water for 15-20 minutes.  Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye.

IF ON SKIN:  Take off contaminated clothing.

IF INHALED:  Remove victim to fresh air and keep at rest until medical assistance is received.

IF SWALLOWED:  Immediately call a poison control center or doctor.

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

PHYSICAL OR CHEMICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 120°F may cause bursting. Do not apply this product around electrical equipment due to the possibility of shock hazard.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: In hospitals and nursing homes, remove patients before treatment. Ventilate room for two hours before returning patients.

THIS PRODUCT IS NOT FOR USE ON HUMANS: If lice infestation should occur on humans, use a product labeled for use on humans.

Do not use in commercial food/feed processing, preparation, food/feed storage or serving areas. In the home, all food/feed processing surfaces and utensils should be covered during treatment, or thoroughly washed before use. Exposed food/feed should be covered or removed. Remove pets, birds and cover fish aquariums before spraying.

SHAKE WELL BEFORE EACH USE.

APPLICATION: Spray an inconspicuous area to test for possible staining or discoloration. Test area after drying. Hold container upright with nozzle aimed away from you. Depress valve and spray from a distance of 8 to 10 inches. Spray each square foot for 5 seconds or until damp. Most effective results are achieved when used as part of a treatment plan that includes physical, environmental and other chemical pest control measures. Vacate room after treatment and ventilate before reoccupancy. Do not allow children or pets to contact treated areas until surfaces are dry. Allow sprayed articles and surfaces to dry thoroughly before using or replacing bedding.

TO KILL LICE: Spray only those garments, part of bedding, including mattresses and furniture that cannot be either laundered or dry-cleaned.

TO KILL TICKS AND FLEAS: Spray around beds, furniture and pets’ habitat. Spray pet sleeping quarters, bedding, floor and floor covering where pets are kept. Use only a recommended pet spray on pets.

TO KILL DUST MITES: Thoroughly vacuum entire room consisting of areas where bugs congregate: such as mattresses, box springs, headboards, walls, floor, carpeting, and baseboards. Then spray surfaces until damp.

TO KILL BED BUGS AND BED BUG EGGS: Apply as a spot treatment to cracks and crevices on and around baseboards, floorboards, bed frames, wall hangings, headboards, furniture, door and window frames, millwork and walls. Apply as a surface spray to carpet, mattresses, box springs, walls, furniture, bedding, floor and floor coverings, rugs, garments, luggage, closet, drapes and other window appointments. Thoroughly clean and air-out mattresses and box springs. Treat areas that may harbor bed bugs and their eggs, such as hotel, fold and seams. When treating carpets, floor coverings or rugs, spray a sufficient amount to get the spray down into the base where the larvae stages are feeding. Spray upper and lower surfaces of rugs or floor covering when possible.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool dry place. Keep out of reach of children. Store away from food and pet food.

PESTICIDE DISPOSAL AND CONTAINER HANDLING: Do not puncture or incinerate! Nonrefillable container. Do not reuse or refill this container.

If empty: Place in trash or offer for recycling if available.

IF PICTORS: Put your local solid waste agency for disposal instructions.
