STATEMENT OF PRACTICAL TREATMENT - FIRST AID
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

1 GALLON (3.78 L)

DIRECTIONS FOR USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
To be used in hospitals in the following areas as a disinfectant: operating rooms, patient care rooms & facilities, recovery, anesthesia, ER, radiology, X-ray cat labs, newborn nurseries, orthopedics, respiratory therapy, surgic-centers, labs, blood collection rooms, central supply, housekeeping & janitorial rooms, nursing homes, doctor's offices & labs, dentist offices & labs (dental operators)
This product is not to be used as a terminal sterilant/high-level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the bloodstream or normally sterile areas of the body, or (2) contact intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body.
This product may be used to preclude or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.
In addition, this product may be used as a disinfectant in Hotels/Motels, Lifecare Retirement Communities, Day Care Centers, Acute Care Institutions, Schools, Health Clubs, Rest Rooms, Shower Rooms, Bathrooms, Restaurants, and Industries.
This product can be used to disinfect the following inanimate, hard, non-porous non-food environmental surfaces: walls, floors, sink tops, toilet bowls, table tops, counters, countertops, tables, chairs, benches, telephones, bed frames, cabinets, bath tubs, and urinals.

Restaurants, Cafeterias, Bars: Use on the same rinse on the following specific food contact surfaces: counters, tables, plastic tables, utensils, plates and for sto-stovets. This product should not be used to disinfect or clean utensils, glassware, dishes and cookware.

DISINFECTION: Add 2 ounces of this product per gallon of water. Remove gross filth or heavy soil. For heavily soiled areas, a pre cleaning step is required. Apply solution with a cloth, mop, sponge or hand pump sprayer such that all surfaces remain wet for 10 minutes. Let dry. Prepare a fresh solution for each use. This product is effective in hard water up to 300 ppm hardness (calculated as CaCO3) and in the presence of organic soil (5% blood serum).
This product, in the presence of 50% organic soil load, diluted 1:64 (2 ounces per gallon) in 791 ppm Hard Water, demonstrated efficacy within 10 minutes against the following organisms: Staphylococcus aureus, Salmonella choleraesuis. Note that the organisms referenced in the above statements are not associated with blood spills. For blood spills, the surface must be thoroughly cleaned before applying this disinfectant.

DISINFECT TOILET BOWLS: Flush toilet and add 2 ounces of this product directly into the bowl water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

FUNGICIDE: At 2 ounces per gallon, this product is effective against the pathogenic fungus Triophyton mentagrophytes in 5% organic soil load. Contact time-10 minutes. Surfaces where the fungus is found. shower areas & stalls, bathroom floors, bathroom benches.

CONTINUED ON PANEL TO RIGHT
DIRECTIONS FOR USE continued...

This product, in the presence of a ~100% organic soil load, diluted 1:64 (2 ounces per gallon) in 395 ppm Hard Water, demonstrated efficacy within 10 minutes against the following pathogenic fungi: Trichophyton mentagrophytes. Note that the organism referenced in the above statement is not associated with blood spills. For blood spills, the surface must be thoroughly cleaned before applying this product.

CLOSING AND DEODORIZATION: This product deodorizes garbage storage areas, empty garbage bins and cans, toilet bowls and any other odor-causing areas. Mix 2 ounces per gallon of water and apply solution to surfaces. Be sure to thoroughly wet surfaces, allow to air dry.

Tabletolytic*: When used on inanimate, hard, non-porous, environmental surfaces at 2 ounces per gallon of water for a 10 minute contact time (5% organic soil), except for Enterovirus type 1 (Chat strain) which requires a 30 minute contact time (5% organic soil) and HIV-1 which requires only a 30 second contact time. This product, in the presence of a 98% organic soil load, diluted 1:64 (2 ounces per gallon) in 400 ppm Hard Water, demonstrated efficacy within 10 minutes against the following virus: Human Coronavirus. Note that the organism referenced in the above statement is not associated with blood spills. For blood spills, the surface must be thoroughly cleaned before applying this product.

*KILLS HCV, HBV AND HIV-1 ON PRE-CLEANED ENVIRONMENTAL SURFACES/OBJECTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS in health care settings or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of HCV (Hepatitis C Virus), HBV (Hepatitis B Virus) and HIV-1 (AIDS virus).

SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATION AGAINST HCV, HBV AND HIV-1 OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

PERSONAL PROTECTION: Specific barrier protection items are to be used when handling items soiled with blood or body fluids are disposable latex gloves, gowns, masks or eye coverings.

CLEANING PROCEDURE: Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of the disinfectant.

DISPOSAL OF INFECTIOUS MATERIALS: Blood and other body fluids should be autoclaved and disposed of according to Federal, State and local regulations for infectious waste disposal.

CONTACT TIME: Leave surfaces wet for 30 seconds for HIV-1 and 10 minutes for HCV and HBV. The contact time for the viruses, fungi and bacteria listed on this label is 10 minutes except for Enterovirus Type 1 (Chat strain) which is 30 minutes.

This product is effective against the following microorganisms:

Aspergillus niger
Candida albicans
Staphylococcus aureus (Toxic Shock
Streptococcus pyogenes
Streptococcus var. haemolyticus
Streptococcus pneumoniae
Proteus mirabilis
Proteus vulgaris
Pseudomonas aeruginosa

Enterococcus faecalis
Yersinia enterocolitica
Serratia marcescens
Campylobacter jejuni
Escherichia coli
Escherichia coli strain 0157:H7
Listeria monocytogenes
Salmonella choleraeus
Salmonella typhi
Enterococcus faecalis -
Vancocycin Resistant (VRE)
Staphylococcus aureus (VRE)
Staphylococcus aureus (Methicillin-MRSA)
Staphylococcus epidermidis
Salmonella typhi
Trichophyton mentagrophytes
Pathogenic Fungi
HCV (Hepatitis C Virus)
Hepatitis B Virus
HIV-1 (AIDS virus)
Human Coronavirus
Poliovirus Type 1 (Chat strain)
30 minutes contact time
Feline Calicivirus

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER. KEEP OUT OF REACH OF CHILDREN. Corrosive. Causes irreversible eye damage and skin burns. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Wear protective eye wear (goggles, face shield or safety glasses). Wear protective clothing and rubber gloves. Avoid contamination of food. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

STORAGE AND DISPOSAL
Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not store on side. Avoid creasing or impacting of side walls. Store securely in closed original container. Avoid storage at temperature extremes or in sunlight. Avoid shipping or storing below freezing. If product freezes, thaw at room temperature and shake gently to remix components. Use locked storage in an area that will prevent cross-contamination of other pesticides, fertilizer, food and feed. Store in locked area inaccessible to children.

PESTICIDE DISPOSAL: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture or rinse water is a violation of Federal Law. If these wastes cannot be disposed of according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Wrap container and put in trash or offer for recycling if available.
