HEAVY WEIGHT INDOOR FOGGER

For use in: Rooms, Apartments, homes, Attics, Basements, Campers, Boats, Household Storage Areas, Garages, etc. Sleeping Areas, and Cabins.

DIRECTIONS FOR USE: It is inadvisable to use the product in a manner inconsistent with its labeling. Do not use in commercial food-handling establishments, restaurants or other areas where food-handled or commercially prepared, processed or stored. For the home, food processing or irradiation and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

Remove pets and birds and cover fish aquariums before spraying.

SNARE WELL BEFORE USE: This product will kill ants, cockroaches, common brown and red head lice, fleas, lice, mites, mosquitoes, rats, weevils, saw-toothed grain beetles, small flying moths, saw bugs, spiders (including black widow), and brown dog ticks.

DO NOT use more than one fogger per room. Do NOT use in small, enclosed spaces such as closets, cabinets or under counters or tables.

DO NOT use in a room in 8° F. If it is 4° or smaller, instead, allow fog to enter from other rooms.

Turn off ALL ignition sources such as pilot lights (below off gas valves), other open flames or running electrical appliances that cycle on and off (i.e., refrigerators, thermostats, etc.). Call your gas utility or management company if you need assistance with your pilot lights.

KEEP CONTAINERS UPRIGHT: Cover exposed hot, clothes, and food-handling equipment. Open cabinets and doors to areas to be treated. Shut all air and air systems.

Clean doors and windows. Remove food covering from area when ready. This is a one-shot fog per area. For each 1,000 cubic feet of area to be treated, use one fogger. Do not remain in the area during treatment or ventilate thoroughly before re-entry.

TO OPERATE VALVE:

Place several layers of newspaper or cloth under or on top of the center of the room. Point valve opening away from walls. To hold value in open position for optimum discharge, press valve button all the way down, leveling the tube. Then plug fogger on seat of table in the center of the room with valve tilted open. Leave build up at room and keep building closed for two hours before airing out. Open all doors and windows and allow air to air for 30 minutes. Misting spray is unnecessary, but no sooner that within 3 weeks.

by MILLER FOGGER CO.
