WASP & HORNET KILLER

DIRECTIONS FOR USE

This product can be used both indoors (attics and other places where nests are built and where food or feed is not exposed) and outdoors on Wasp, Hornet, and Yellow Jacket nests.

OUTDOOR USES: Includes, near window/doorways, doorways, garages, picnic areas, and outdoor play areas.

INDOOR USES: Attics, and anywhere nests are built and where food or feed are not exposed. Kills insects and eliminates the toxins where they are and those insects will fall to the ground and die after spraying. Kill any insects inside the nest as well as any returning.

For Control of Wasps, Yellow Jackets, Hornets, and other Listed Insects:

For Indoor Use: Spray at night or during the day when insects are least active. Stand a safe distance from the nest. Do not spray directly on or near the nest. Infest can be sprayed by hand or away from the person. Then spray the opening in the nest and spray until stopped. Then spray the rest of the nest until it is saturated. This product has powerful spray and will also kill insects that return to the nest. Wait at least 24 hours before removing the nest.

To Kill Wasps, Hornets, Yellow Jackets, Fire Ants, Spiders (including Brown Widow Spiders, Scorpions, Crickets, Bees, Ants, Spiders, Centipedes, Earwigs, Flies, and Mosquitoes):

Spray 1-2 seconds until surface is moist to kill insects under, around, window screens, vehicles, porches, patios, cracks, holes, crevices, or wherever insects are noticed. To prevent insects from entering the home, spray around areas where insects enter such as outdoor plumbing, faucets, etc. or cracks or crevices in foundation walls area, in basements and ladders.

Use Tips: Use for quick, stand with the wind of your back to avoid spray drift. Avoid spraying vegetation directly. Rinse with water any desirable foliage that is contacted with spray.

General Precautions & Restrictions: Avoid contamination of food and livestock. Do not use in commercial baled feed processing, preparation, baled feed storage or supply areas. In the home, all food processing surfaces and equipment should be covered during treatment, or thoroughly washed before use. Exposed food/feed should be covered or removed. Remove pets and birds and cover fish aquaria before spraying.

This product may stain or permanently affect vinyl, painted, and plastic surfaces. Avoid contact to asphalt roofing shingles as staining may occur. Before using in areas where spray may contact these surfaces, test in an inconspicuous area and check in a few hours.

STORAGE AND DISPOSAL:

Store in a cool, dry place away from heat or open flame, preferably in a locked storage area.

Container Disposal: Do not puncture or incinerate. Empty in trash or offer for recycling if available.

FIRST AID: If swallowed: immediately call your local poison control center. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not take any liquid to the person. Do not give anything by mouth to unconscious persons. If on skin or clothing, take off contaminated clothing. These skin immediately with plenty of water for 15 minutes. Call a poison control center or doctor for treatment advice.

If inhaled: Tilt person to lie on his back. If person is not breathing, call 911 or an ambulance and give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

In case of exposure or accident, consult a physician. Call 1-866-748-8712 for more information about medical emergencies or pesticide incidents.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

CAUTION: Harmful if inhaled through skin or lungs. Avoid contact with eyes, or clothing. Avoid inhaling vapor or smoke. Wash thoroughly with soap and water after handling or before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish and other aquatic invertebrates. Do not apply directly to water (do not contaminate water by treating or disposal of treated water). PHYSICAL OR CHEMICAL HAZARDS:

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Do not apply this product around electrical equipment due to possibility of shock hazard.
