PREMIUM QUALITY

TROPIKOTE
Anti-Fouling Bottom Paint

KEEP OUT OF REACH OF CHILDREN
WARNING
SEE BACK PANEL FOR ADDITIONAL PRECAUTIONARY STATEMENTS.

APPLICATION: Apply by brush, roller or spray. Apply 5 mils wet, which will yield 3 mils dry per coat.

APPLICATION DETAILS
ACTIVATED COPPER: Copper Turns 3 (SSPC-SPI)
THEORETICAL COVERAGE: 320 Sq. Ft./Gal. @ 80°F (21°C)
FILM THICKNESS: 5 mils wet equals 3 mils dry per coat
FLASH POINT: 100°F
COPPER CONTENT: 75.8%
COPPER EXPRESSED AS METALLIC: 67.3%
VOC: 288 Grams/Liter

LIMITATIONS: Apply in good weather when air and surface temperature are above 50°F (10°C). Surface temperature must be at least 50°F (10°C) before applying. Apply in well-ventilated areas. Do not apply in temperatures below 50°F (10°C) or above 80°F (21°C).

THEORY OF ACTION: Tropikote provides an excellent balance of immediate and sustained antifouling performance. Tropikote is made up of 67.3% Copper expressed as metallic, which makes it very effective at killing barnacles, algae, and other marine growth that may interfere with the operation of a boat. The remaining 32.7% of the paint is made of high-quality binders and pigments that help the paint adhere to the hull and provide a smooth, uniform surface. Tropikote is designed to be used on the surface of hulls on boats and vessels. It is effective against barnacles, algae, and other marine growth, and it is also EPA-approved for use in coastal waters.

SURFACE PREPARATION: Paint only dry, clean surfaces. Remove all loose, dry paint, barnacles, algae, and other marine growth before applying. New Construction: As yard procedures may vary, consult with your Sea Hawk Representative. Clean all equipment immediately after use with xylene. It is advisable to wash before reuse. Use with adequate ventilation.

EQUIPMENT:
BRUSH: China Bristle
EQUIPMENT: Solvent Resistant Roller Cover 3/8” pile smooth to medium.
METHOD: Brush, roller or spray
APPLICABLE WATER TEMPERATURE:
Minimum 33:1-2 GPM ratio pump; “0.017-0.026” orifice tip; 73°F (23°C) 2 Hrs 1 Hr N/A 12 Hrs

TOTAL 100.00%
Copper expressed as metallic 67.3%

REGULATORY DATA
E.P.A. Registration No. 44891-10 / E.P.A. Establishment No. 44891-FL-1
Pesticide Disposal: Do not contaminate food, feed or water by storage or disposal. This pesticide is toxic to fish. Do not apply directly to water by spraying, drenching, or immersing, or placing it on areas later to be flooded. Do not allow chips or dust generated during paint removal to enter water. Dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by the use according to labeling, contact the Environmental Protection Agency or the State or Regional EPA for guidance.

SAFETY:
IF IN EYES: • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
IF SWALLOWED: • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth unless told to do so by a poison control center or doctor.
IF INHALED: • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, or get immediate medical attention.
IF SKIN OR CLOTHING CONTACT: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 – 20 minutes. • Call a poison control center or doctor for treatment advice.
IF EXPOSED OR SUSPECTED EXPOSURE: • Get medical attention immediately.
STORAGE AND HANDLING:
Non-refillable container, do not reuse or refill this container. Do not contaminate food, feed or water by storage or disposal. This pesticide is toxic to fish. Do not apply directly to water by spraying, drenching, or immersing, or placing it on areas later to be flooded. Do not allow chips or dust generated during paint removal to enter water. Dispose of paint drums in an approved landfill. Dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

First Aid:
IF IN EYES: • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Call a poison control center or doctor for further treatment advice.
IF SWALLOWED: • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give anything by mouth unless told to do so by a poison control center or doctor.
IF INHALED: • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, or get immediate medical attention.
IF SKIN OR CLOTHING CONTACT: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15 – 20 minutes. • Call a poison control center or doctor for treatment advice.
IF EXPOSED OR SUSPECTED EXPOSURE: • Get medical attention immediately.

PHYSICAL AND CHEMICAL HAZARDS
No data available.

ENVIRONMENTAL HAZARDS
The pesticide is toxic to fish. Do not apply directly to water by spraying, drenching, or immersing, or placing it on areas later to be flooded. Do not allow chips or dust generated during paint removal to enter water. Dispose of paint drums in an approved landfill. Dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.
