DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL DESCRIPTION

Traditional, hard, modified epoxy antifouling that controls the attachment of barnacles, algae, seagrass, green weed and other fouling organisms in fresh and salt water. This product is only for use on the surfaces of hulls on boats, vessels, barges, crab pots and lobster pots.

SHAKE VIGOROUSLY FOR A MINIMUM OF 10 MINUTES BEFORE APPLICATION

PRODUCT INFORMATION

Recommended Coats: 2 on entire hull and 3 at waterline

Finish/Sheen:
Semi-Gloss

Converter:
One Pack

Copper Content:
45%

Volume Solids:
62% ± 2%

Mix Ratio:
One Pack

Shipping Weight:
22-24 Lbs./Gal.

Flash Point:
80°F

Film Thickness:
5 mils wet equals 3.1 dry per coat

Overcoating Interval:

REGULATORY DATA

VOC: 330 Grams/Liter

LIMITATIONS: Apply in good weather when air and surface temperature are above 50°F (10°C). Surface temperature must be at least 50°F (10°C) above dew point. For optimum application properties, bring material to 70-80°F (21-27°C) temperature range prior to mixing and application. Unmixed material (in closed containers) should be maintained in protected storage between 40 and 100°F (4-38°C). Prolonged atmospheric exposure of this product may detract from performance. Technical and application data herein is for the purpose of establishing a general guideline for the coating and the proper coating application procedures. As application, environmental and design factors can vary significantly, due care should be exercised in the selection, verification of performance and use of the coating.

SURFACE PREPARATION: Paint only clean, dry surfaces. Remove all grease, oil, wax, or other foreign material by solvent or detergent washing.

New Construction: As yard procedures may vary, consult with your Sea Hawk Representative.

APPLICATION: Apply by brush, roller or spray. Apply 5 mils wet, which will yield 3.1 mils dry per coat.

EQUIPMENT:

Brush: China Bristle

Roller: Solvent Resistant Roller Cover 3/8" pile smooth to medium. Prewash roller cover to remove loose fibers prior to use.

Airless Spray: 28:1 ratio pump; 0.021-0.032" (533-660 microns) orifice, 36" ID high-pressure polyurethane tube, 90 PSI line pressure, 60 mesh filter.

THINNING: We do not recommend thinning. However, if thinning is necessary, thin up to a maximum of 10%, with Sea Hawk 2033-2035 only.

CLEANUP: Clean all equipment immediately after use with xylene. It is good practice to periodically flush out spray equipment during the course of the day. Frequency depends upon the amount sprayed, temperature, elapsed time including delay, etc.

SAFETY: Read and observe all precautionary statements on this label.

STORAGE AND DISPOSAL

Do not contaminate food, feed or water by storage or disposal.

Storage: Do not store near heat or open flame. Store in well-ventilated area.

Pesticide Disposal: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

WARNING. May be fatal if swallowed or inhaled. Causes moderate skin and eye irritation. Harmful if absorbed through skin. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals. Do not breathe vapors, spray mist, or dust or chips from sanding. Avoid contact with skin, eyes or clothing. While spraying paint or sanding boat surface, wear a mask or pesticide respirator jointly approved by the Mine Safety and Health Administration and the National Institute for Occupational Safety and Health. Wear protective clothing (long-sleeved cotton shirt, long pants and hat) and gloves (such as nitrile or butyl). Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Change contaminated clothing and wash before reuse. Use with adequate ventilation.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply directly to water by cleaning of equipment or disposing of wastes. Do not allow chips and dust generated during paint removal to enter water. Dispose of paint debris in an approved landfill.

PHYSICAL AND CHEMICAL HAZARDS

Combustible. Do not use or store near heat or open flame.

FIRST AID

IF SWALLOWED: • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.

IF INHALED: • Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.

IF IN EYES: • Hold eyes open and rinse slowly and gently with water for 15-20 minutes.

IF ON SKIN OR CLOTHING: • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.

EPA. Registration No. 44891-11 / EPA. Establishment No. 44891-FL-1

NOTE TO PHYSICIAN: Contains petroleum distillate, caused by aspiration pneumonia.
