**QUANTUM STICKS**

**STABILIZING CHLORINATING CONCENTRATE**

CONTAINS NO CALCIUM

ACTIVE INGREDIENT: Trichloro-s-Triazinetrione .......................... 99%
OTHER INGREDIENTS ............................................................. 1%
TOTAL ........................................................... 100%

Available Chlorine .......................................................... 90%

KEEP OUT OF REACH OF CHILDREN

DANGER

Contamination or improper use may cause fire, explosion or the release of toxic gases. Do not allow product to contact any foreign matter, including other water treatment products. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gases and spatter. Do not add water to this product. Add only into water. Do not mix this product with a small amount of water. Do not add directly to your pool. Corrosive. Causes irreversible eye damage and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed.

Read all precautionary statements on back label and all first aid statements before use.

**FIRST AID:**

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for further treatment advice.

IF ON SKIN: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 (or an ambulance, then giving artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED: Call a poison control center or doctor for treatment advice. Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**NOTE TO PHYSICIANS:** Probable mucosal damage may contraindicate the use of gastric lavage. IN CASE OF EMERGENCY CALL: 1-800-454-0611

**NET WEIGHT** 25 LBS. (11.34 KG)
These convenient and easy to use chlorinating sticks from Quantum Biochemical® are formulated to protect against chlorine loss in direct sunlight and can be used in floaters, feeders or skimmers. They are designed to dissolve slowly to provide a steady source of available chlorine.

**DIRECTIONS FOR USE:**
It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**Reentry into treated swimming pools is prohibited above levels of 4 ppm chlorine.**

**FOR CONTINUOUS DAILY CHLORINATION:**
Before the first use of this product, be sure to take the following steps:

1. Adjust the pool water pH value to between 7.2 and 7.8 and total alkalinity to between 80 and 150 ppm as determined by a suitable test kit.
2. Stabilize pool water to at least 30 ppm with Quantum Biochemical® Stabilizer as directed on the container label. Thereafter regular use of this product for daily chlorination will provide any needed makeup stabilizer.
3. Shock treat the pool water with a Quantum Biochemical® shock to oxidize organic contaminates. Follow the label directions. Before using the pool, be certain the chlorine level returns to 1-4 ppm.
4. Maintain a free available chlorine level of 1-4 ppm (as determined daily by a suitable test kit) at all times. By means of a feeder, float device, or skimmer dispenser, immerse one CHLORINATION STICK (or as many as may be necessary to maintain the proper chlorine level) for each 5,000 to 10,000 gallons of pool water. NEVER ADD THESE CHLORINATION STICKS DIRECTLY INTO THE SWIMMING POOL AS DISCOLORATION OF THE POOL LINER OR FINISH MAY OCCUR.

5. Shock treat your pool at least twice monthly (more often in sunbelt regions) during hot weather.

**PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS:**

**DANGER:** Corrosive. Causes irreversible eye damage. Causes eye and skin burns. May be fatal if inhaled or absorbed through skin. Harmful if swallowed. Irritating to nose and throat.

- Open in a well ventilated area. Avoid breathing dust and fumes.
- Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves. For additional protection of skin, wear long sleeves and long pants.
- Wash hands after handling and before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove contaminated clothing and wash clothing before reuse.

**PHYSICAL AND CHEMICAL HAZARDS:**

DANGER. If product is exposed to small amounts of water, it can react violently to produce heat and toxic gas and spatter.

Do not add water to this product. Add only into water.

- Do not mix this product with a small amount of water. Only add this product directly to your pool.
- Do not allow to become wet or damp before use.

Can react with other materials, including other water treatment products, to cause fire, explosion, and the release of toxic gases.

- Keep all foreign matter, including other water treatment products, away from this product.
- Use only clean dry utensils to dispense this product.
- Do not allow this product to contact other water treatment products before putting this product in the skimmer.
- Avoid spilling this product.

**EXPOSURE TO HEAT**

Exposure to heat can cause this product to rapidly decompose, leading to fire, explosion, and the release of toxic gases.

- Store in a cool, dry, well ventilated area away from heat or open flames. Strong oxidizing agent. This product can increase fire intensity.
- Keep away from heat and from flame and burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARDS:**

This pesticide is toxic to fish and aquatic organisms.

**STORAGE & DISPOSAL:**

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water to dissolve all material prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment. FOR DISPOSAL OF CONTAMINATED OR DECOMPOSING PRODUCT SEE “EMERGENCY HANDLING.”

**EMERGENCY HANDLING:**

In case of contamination or decomposition, do not reset container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.
