FIRST AID
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or a doctor. Do not give anything by mouth to an unconscious person.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF IN EYES: Hold eyelids open and rinse slowly with water for 15-20 minutes. Remove contact lenses if present after 5 minutes then continue rinsing eye. Call poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IN CASE OF EMERGENCY CALL: 1-800-654-6911

This product, when used regularly, will kill and control the growth of green and yellow algae. It does not require pH adjustments to be effective.

Compatible with bromine, chlorine, salt water, ozone, biguanide and minerals.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

APPLICATION AND DOSAGE RATES:
For maximum effectiveness, pools with a large amount of algae present must be cleaned prior to using this product. Pools having visible algae growth must be treated with 32 ounces per 10,000 gallons of pool water. After 24 hours, the algae debris must be removed by standard cleaning procedures, including brushing loose algae spots, vacuuming the pool and backwashing the filter.

For treatment of a freshly cleaned and filled pool, add 16 ounces per 10,000 gallons of pool water. To maintain pools free of visible algae growth, add 6 ounces per 10,000 gallons of pool water every week after the initial treatment. Apply this product directly to the pool water with the circulation system turned on. Allow ample time for product to be distributed before turning off the pump.

Dilute this product with at least nine parts water before applying. Pour required amount of this product into a plastic watering can and fill with water. Maintaining constant pool circulation, sprinkle solution around the edge of the pool.

This product is compatible with other chemicals commonly used to treat swimming pools and it is effective in both acid and alkaline pH ranges. It can be used in pools treated with chlorine chemicals, and its use may reduce the amount of these chemicals required.

IMPORTANT NOTE: Always apply chemicals separately. Never combine them.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS:
CAUTION: Harmful if swallowed. Avoid breathing vapors. Do not get on skin, eyes or clothing. Wash thoroughly with soap and water after handling.

ENVIRONMENTAL HAZARDS:
This product is toxic to fish and aquatic organisms.

STORAGE & DISPOSAL:
Keep this product dry in its tightly closed container when not in use. Nonrefillable container. Do not reuse or refill this container. Rinse empty container thoroughly with water prior to disposal. Offer for recycling if available. Do not contaminate food or feed by storage or disposal or cleaning of equipment.
