**Fungicidal Protective Coating**

- EPA registered, low odor, quick-drying, water-based coating specifically formulated for long term fungicidal activity.
- Designed to kill residual mold and mildew remaining after pre-cleaning contaminated surfaces, as well as to inhibit the growth and spread of odor-causing bacteria, mold and mildew on its surface in residential, institutional and industrial buildings.
- Specifically designed for field or shop application to faced and un-faced fiberglass duct liner, fiberglass insulation, paper and polymeric facings, painted and un-painted wood, metal and masonry.

**DIRECTIONS FOR USE**

1. Apply by brush, roller or spray on all surfaces to be treated. Be sure to coat all surfaces thoroughly before painting.
2. Surface preparation is critical for the successful application of this product. Refer to the instructions for surface preparation on the label.
3. Allow treated surfaces to dry for at least 24 hours before using.
4. Product is effective for up to 5 years.

**EPA Registration Number:**

- Active Ingredient: Benzyl Methamate
- Other Ingredients: 3,5- to 3-propyl butyl carbamate
- TOTAL: 99.5%

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

See left panel for additional precautionary statements and first aid.

In case of emergency call 1-800-832-1736. Have the product container or label with you when calling a Poison Control Center or doctor.

**Net Contents:** 5 Gallons (54.5 lbs.) 18.92 L (24.72 KG)

**Foster 40-30™**

Foster 40-30™ is a fungicidal protective coating designed to protect against the re-growth and spread of odor-causing bacteria and molds on the surfaces of the HVAC system and its components. As a result, the building occupants may enjoy a safer environment free of the odor problems often associated with their HVAC systems. It is ideal for use on all types of insulation, ceilings, walls, and exterior surfaces of HVAC duct systems, wall coatings, and concrete surfaces. It can be used in residential, industrial, and commercial buildings.

**PRECAUTIONARY STATEMENTS**

**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed or inhaled. Do not get in eyes, mouth or on skin. Do not enter treated areas until surfaces are dry. Do not contaminate drinking water.

**NOTICE:** If eye contact occurs, flush with water for 15 minutes. If swallowed, do not induce vomiting. Seek medical attention immediately.

**FIRST AID**

If in Eyes: Flush with water for 15 minutes. If on Skin: Wash with soap and water for 15 minutes. If Inhaling: Remove to fresh air. If on Clothing: Remove clothing. If Swallowed: Do not induce vomiting. If Vomiting Occurs: Seek medical attention immediately.

**STORAGE AND DISPOSAL**

Do not store in direct sunlight. Do not contaminate water supplies. Use only in area free from water pollution. Do not release to environment.

**STORAGE**

- Protect from freezing. Store below 40°F (4°C) to prevent from freezing. Do not store in areas where freezing temperatures may occur.
- Protect from sunlight. Store in a cool, dry place.
- Protect from moisture. Store in a dry, well-ventilated area.

**DISPOSAL**

- Do not dispose of product in the environment. Contact your local waste management authority for disposal instructions.

**CONTAINER DISPOSAL**

- Do not incinerate. Contact your local waste management authority for disposal instructions.

**KEEP OUT OF REACH OF CHILDREN**
