Cleaning

1. Immerse tank and add 1 oz of concentrated detergent solution to the fresh water tank for every 4 gallons of tank capacity. (For a 10-gallon fresh water tank, add 10 oz of detergent.)

2. Fill tank with water. Run diluted Detergent Solution through each faucet, shower and water outlet for approximately 1 minute.

3. Empty the tank.

4. Rinse the tank and faucet lines by filling with clean water, running water through the lines and draining.

Your tank is now ready for Step 2: Sanitizing with the Thetford Fresh Water Tank Sanitizer solution.

IMPORTANT TIPS FOR USE:
- Use the markings on the label for measuring the proper solution. When there is no direct opening in the tank, solution can be added to the tank through a water filter (with filter removed) or by pouring solution into a hose and connecting hose to the external water inlet.

CAUTION: EYE IRRITANT
- Contains surfactant. Avoid eye contact. In case of eye contact, rinse eyes with water for 15 minutes. Consult a physician.
- KEEP OUT OF REACH OF CHILDREN.

NET CONTENTS: 24 FL. OZ. (710mL)
Fresh Water Tank Sanitizer

KEEP OUT OF REACH OF CHILDREN
DANGER
See back panel for additional precautionary statements.

FIRST AID
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

If in eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

If inhaled: Move person to fresh air. If person is not breathing, call 911 or an ambulance then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

NOTE TO PHYSICIAN
Probable successful damage may contraindicate the use of gastric lavage.

ACTIVE INGREDIENTS
Alkyl (iso C14, C10, C10, C12, C14) dimethyl benzyl ammonium chlorides .... 5.0%
Alkyl (iso C12, C12, C14) dimethyl ethylbenzyl ammonium chlorides .... 5.0%

INERT INGREDIENTS .......................................................................................... 90.0%

TOTAL ........................................................................................................ 100.0%

NET CONTENTS 24 FL. OZ. (710mL)

THETFORD

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER. KEEP OUT OF REACH OF CHILDREN. CORROSIVE.
Causes irreversible eye damage and skin burns. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Remove contaminated clothing and wash before reuse. Wash thoroughly with soap and water after handling.

DIRECTIONS FOR USE: IT IS A VIOLATION OF FEDERAL LAW TO USE THIS PRODUCT IN A MANNER INCONSISTENT WITH ITS LABELING.

SANITIZATION OF INTERIOR HARD NON-POROUS SURFACES OF WATER HOLDING TANKS
Sanitation should occur after initial installation, after the system is serviced and periodically during its use.
1. Shut off incoming water line.
2. Unlatch/unscrew faucet and fill the holding tank.
3. Prop a solution of 2 ounces of product per 8 gallons of water (200 ppm active quaternary).
4. Apply or circulate (if possible) to wet all surfaces and allow a minimum contact of 60 seconds.
5. Drain the unit.
6. Return to service by opening incoming water lines.

STORAGE AND DISPOSAL
DO NOT CONTAMINATE WATER, FOOD OR FEED BY STORAGE OR DISPOSAL.
Pesticide Storage – Store in a dry place no lower in temperature than 50°F or higher than 120°F. Store in a tightly closed container in an area inaccessible to children.
Pesticide Disposal – Pesticides are extremely hazardous. Improper disposal of excess pesticide, spray mixture, or residue is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency or the Hazardous Waste Representative of the nearest EPA Regional Office for guidance.
CONTAINER DISPOSAL – Harmful to the environment. Do not reuse or refill this container. Offer for recycling if available. Stabilize wastes as follows: Fill container 1/4 full with water and store. Aerate vigorously. Follow Pesticide Disposal instructions for residue disposal. Drain for 10 seconds after the line begins to drip. Repeat procedure two more times. Then offer for recycling or reconditioning. If not available, pack the container in a sanitary landfill.
SPILL OR LEAK PROCEDURES – Small spills may be mopped up, flushed away with water or absorbed on some absorbent material and incinerated. Large spills should be contained, the material then moved into containers and disposed of by approved methods for hazardous wastes.
