FOR USE IN HEALTH CARE, DENTAL, MEDICAL, INDUSTRIAL & INSTITUTIONAL FACILITIES, FOOD PROCESSING ESTABLISHMENTS, AND HOSPITALS

Accel TB is a one-step disinfectant cleaner and odor neutralizer designed for general cleaning, and disinfecting of hard, non-porous environmental surfaces. It cleans quickly by removing dirt, grime, mold, mildew, and other common soils found in hospitals, nursing homes, schools and colleges, and medical/dental offices.

Accel TB's non-dulling formula eliminates the time and labor normally required for rinsing. It is designed for use on hard, non-porous environmental surfaces listed on this label made from: vinyl, Naugahyde, painted surfaces, plastic, glazed ceramic, glazed porcelain, chrome, stainless steel, aluminum, laminated surfaces and baked enamel surfaces associated with floors, walls, ceilings, tables, chairs, countertops, telephones, glazed tile, sinks. A potable water rinse is required for food contact surfaces. Do not use on glasses, dishes, utensils and cookware.

DIRECTIONS FOR USE:
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant/ high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either into or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes but which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical medical devices prior to sterilization or high level disinfection.

FOR USE AS A CLEANER AND/OR DEODORIZER: Apply to surfaces by spray, cloth, sponge, or mop. Wipe surfaces dry or rinse.

FOR USE AS A ONE-STEP CLEANER/DISINFECTANT PRODUCT:
1. Pre-clean heavily soiled areas.
2. Apply Solution by spray, cloth, disposable wipe or mop to hard, non-porous environmental surfaces.
3. All surfaces must remain wet for 1 minute. Use a 5 minute contact time for TB and a 10 minute contact for fungi.
4. Wipe surfaces dry or rinse.

NOTE – All food contact surfaces must be rinsed with potable water. Do not use on glassware, cookware, utensils, or dishes. If finish or restorer will be applied to floors, rinse the floor prior to applying coating.

BROAD SPECTRUM NON-FOOD CONTACT SANITIZER
