FIRST AID

IF ON SKIN OR CLOTHING:
 Take off contaminated clothing.
 Rinse skin immediately with plenty of water for 15-20 minutes.

If swallowed:
 Do not induce vomiting.
 Rinse mouth and give 1-2 glasses of water or milk. Do not give anything by mouth to an unconscious person.

If in eyes:
 Hold eyelids open and rinse slowly and gently with running water for 15-20 minutes.

WARNING:
 Wash contaminated clothing before reuse.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMAN AND DOMESTIC ANIMALS:
 CAUTION
 Harmful if absorbed through skin. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS:
 This pesticide is extremely toxic to aquatic organisms including fish and invertebrates. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when wind is not predicted for the next 24 hours will help to ensure that wind or rain do not blow or wash pesticide off the treated area.

This application is highly toxic to bees exposed to treated blooming crops or weeds. Do not apply the product or allow it to drift to blooming crops or weeds while bees are actively visiting the treated area.

Personal Protective Equipment (PPE):
 Applications of this product must use PPE. Use a long-sleeved shirt and long pants. Wash thoroughly with soap and water after handling or after inhaling or coming into contact with material. Do not use soap or detergent that leaves a foreign residue.

User Safety Requirements:
 Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Cheese cloth and other absorbent materials that have been drenched or heavily contaminated with this product concentrate. Do not reuse them.

User Safety Recommendations:
 Users shall wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet. Users should remove clothing PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. Users should remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

DIRECTIONS FOR USE:
 It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL, BEFORE EACH USE.

SHAKE WELL, BEFORE USING.

AVOID CONTACT OF EYES and hands.

PEEL BACK HERE AND RESEAL AFTER OPENING.

PRECAUTIONS AND RESTRICTIONS

Except when applying to pets or livestock, do not enter or allow others to enter until sprays have dried. Do not use on food or feed used for food, feed or pasture. Do not apply this product with a spray gun. Do not mix with or use in combination with other pesticides, do not apply this product in a way that will contaminate water sources or aquatic habitat. Do not use on or near plants other than the target pest. Do not apply this product in such a manner or in such a way that the treated product comes in contact with food or feed or feedstuffs, or any utensils, has been used for food or feed. Do not apply to pets and livestock, only protected handlers may be in the area during application.

WHEN USED ON DAIRY BARNS OR FACILITIES: Close milk, milk tank lid or other contaminant from spray and from dust or fuming inlets. Remove or cover milking equipment before application. When held in animals feeding.

For use in outdoor residential and commercial buildings.
 Do not use in commercial food-handling establishments, restaurants or other commercial facilities where food is commercially processed, preserved, served or stored. Do not use in institutions, schools, office buildings or similar nonresidential buildings.
 Do not apply dust, vapors, or smoke into.
 Do not apply dust, vapors, or smoke directly into.
 Do not apply dust, vapors, or smoke onto.
 Do not apply dust, vapors, or smoke under.
 Do not use in commercial buildings.

INDOOR APPLICATION:
 Do not use in a well-ventilated area. Do not use in an open area. Do not use in a space spray flux. In the air, all food processing surfaces and contents should be covered during the treatment or thoroughly washed before use. Exposed food should be covered or rinsed. Remove eggs and birds and cover fish areas before surface application. Do not use on humans. Do not allow clothing or pets to be all-purposed areas after application.

SURFACE SPRAYING:
 Shield spray approximately 10 to 15 inches away from surfaces to be treated and spray until surface is damp, but not to the point of run-off.

For 80-day control of COCKROACHES, WALLEYE, BLOODBugs, SCORPIONS, MICE, RODENTS, CENTERES, FLYING, FLEAS, DADS, mites, SPIDERS, COCKROACHES, CATS, DOGS, BEES, and INSECTS:
 Spray the space into hiding places, cracks and corners, and small crevices and drawers. For Silverfish, spray bookcases, for Ants, spray trails, make ants and points of entry.

TO CONTROL, BARN BEEFLY:
 Spray barns and to be treated areas of farm buildings, house tanks, and other areas.

TO CONTROL, BEEFLY:
 Spray barns and to be treated areas of farm buildings, house tanks, and other areas.

TO CONTROL, BEEFLY:
 Spray barns and to be treated areas of farm buildings, house tanks, and other areas.

TO CONTROL, BEEFLY:
 Spray barns and to be treated areas of farm buildings, house tanks, and other areas.

TO CONTROL, BEEFLY:
 Spray barns and to be treated areas of farm buildings, house tanks, and other areas.

TO CONTROL, BEEFLY:
 Spray barns and to be treated areas of farm buildings, house tanks, and other areas.

TO CONTROL, BEEFLY:
 Spray barns and to be treated areas of farm buildings, house tanks, and other areas.

OTHER INGREDIENTS: .......................................................... 99.5%
TOTAL .......................................................... 100.0%

* cis-trans ratio: Min. 35% (−cis and max. 65% (+trans).

STORAGE AND DISPOSAL (cont.)

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container.
If empty: Place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE

It is impossible to eliminate all risks inherently associated with the use of this product. Ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Chem-Tech, Ltd., the manufacturer or seller. To the extent consistent with applicable law, Chem-Tech, Ltd., the manufacturer or seller shall not be liable for consequential, special or indirect damages resulting from the use or handling of this product. Except as warranted by this label, Chem-Tech, Ltd., the manufacturer or seller makes no warranties, guarantees, or representations of any kind, either express or implied, or by usage of trade, statutory or otherwise with regard to the product sold or use of the product, including, but not limited to, merchantability, fitness for a particular purpose or use, or eligibility of the product for any particular trade usage. To the extent consistent with applicable law, Buyer's or user's exclusive remedy, and Chem-Tech, Ltd.'s, the manufacturer's or seller's total liability shall be limited to damages not exceeding the cost of the product.

EPA Reg. No. 47000-148
EPA Est. No. 47000-W-1
2/14
TO CONTROL FLIES (ADULTS AND LARVAE) AND TICKS, INCLUDING TICKS WHICH MAY CARRY LYE DISEASE (ADULTS AND LARVAE): Thoroughly spray infested areas, pet beds, resting quarters, extreme cracks and crevices, along and behind headboards, mattresses, window and door frames, and entire area of floor and floor covering. Fresh bedding should be placed in animal quarters following treatment. Repeat treatment every 30 days as needed. Allow to dry thoroughly before allowing pets to contact treated areas. To control the source of this infestation, treat your pet with a product registered for animal application. Also, treat your yard with a product registered for yard application.

TO CONTROL BROOD WORMS: Remove any infested articles from storage, brush thoroughly and air for several hours in sunlight if possible. Apply spray. Slightly to completely wet shelter, building and other structures directly spraying the spray into cracks, crevices and crevices. After airing, infested articles may be treated lightly keeping inside at least three feet from fabric to avoid scarring.

TO KILL LICE AND LOUSE EGGS: Spray in an inconspicuous area to test for possible staining or discoloration. Repeat again after drying then proceed to spray entirely area to be treated. Spray from a distance of 8 to 10 inches. Treat all those garments and parts of bedding including mattresses and furniture that cannot be either laundered or dry cleaned. Allow all treated articles to dry thoroughly before use.

ON INSECTS:

TO PROTECT CATTLE (STEER AND DAIY), GOATS, SHEEP, HOGS AND HORSES FROM HORN FLIES, FACE FLIES, HOUSE FLIES, MUSCITOS AND GNATS: Apply a light mist sufficient to wet the surface of the hair. For Fowl Flies, some face and head but do not spray into ears.

TO CONTROL, STABLE FLIES, HORSE FLIES AND DEER FLY: Apply at a rate of 2 ounces per animal sufficient to wet the hair thoroughly. Repeat treatment every 30 days as necessary to give continued protection.

TO CONTROL, BLOOD-SUCKING LICE: Apply to the infested areas of the animal using a soft brush to get the spray to the base of the hair. Repeat every 3 weeks if required.

TO CONTROL POLYPIES LIKE: Spray around, walls and crevices of cracks, doors, and do not spray into ears. This should be followed by spraying over the body with a fine mist.

TO CONTROL BEES AND ANTS IN POLYPIE HOUSES: Spray concuss of waste piles, cracks in walls and crevices in and under the bunks and inside.

FOR PET USE - USE ONLY ON DOGS

Consult a veterinarian before using this product on established, medicated, aged, pregnant or nursing animals. Sensitivities may occur after using any animal product for pet. If signs of sensitivity occur before your pet's pages warm and with many grams of water. If signs continue, consult a veterinarian immediately.

TO CONTROL, BLOOD-SUCKING LICE: Start spraying at the tail moving the dispenser rapidly and making sure that the animal's entire body is covered including the legs and under body. While spraying, stuff the tail so that the spray will penetrate to the skin. Make sure spray reaches thoroughly but do not saturate animal. Do not spray into eyes or mouth. Avoid contact with garlic oil. Use protective gloves or helmet when applying product. Repeat every 30 days as necessary for continuity.

NOTES: Do not use on puppies less than 12 weeks old. Do not use on cats or kittens.

OUTDOOR APPLICATION

GENERAL RESTRICTIONS AND PRECAUTIONS:

Do not water the treated area to the point of runoff. Do not make applications during rain.

All outdoor applications must be limited to spot or crack-and-crevice treatments only, except for the following permitted uses:

1. Treatment to soil or vegetation around structures.
2. Applications in barns, stables, and other vegetation.
3. Applications to buildings, up to a maximum height of 3 feet.

Other than applications to building foundations, all outdoor applications to impermeable surfaces such as sidewalks, driveways, patios, porches and structural surfaces (such as windows, doors and screens) are limited to spot and crack-and-crevice applications, only.

Application is prohibited entirely over sewers or drains, or to any area like a gutter where drainage to sewers, storm drains, water bodies, or aquatic habitat can occur. Do not allow the product to enter any drain during or after application.

TO CONTROL TICKS INCLUDING TICKS WHICH MAY CARRY LYE DISEASE (PRETREATMENT TREATMENT): Use PERMETHRIN 5% MULTIPLE INSECT SPRAY as a residual treatment to control Ticks (including the BEAK TICK and its species daughters). LONE STAR TICK (Neotrombicula autumnalis). BREAKER 10% INC (Permethrin 10%) and WESTERN BLACK-LUNGED TICA (Lycus typhoderma). For each area listed below, apply until surface voices. For example: apply to the point of runoff approximately 1 gal/100-1,000 ft.

Treat around windows and doors, porches, screens, walls, patios, porches, under lawns and in crawl spaces where these pests may enter.

Treat a band of vegetation and leaf litter at least 2 to 3 inches wide around and inside the hedge of buildings to help control them from entering. To help control ticks in activity areas, treat a band of vegetation and leaf litter at least 20 to 30 feet wide and adjacent to cattle areas, especially when driving vegetation occurs.

FOR CONTROL OF GARDEN INSECTS: For sale on roses, dahlias, peonies and other ornamentals to kill JAPANESE BEETLES hit by spray as well as WHISTLING, APHIDS, OXENED TRIPS, SPIDERS, RED MITES AND LEAFHOPPERS. May be used on plants as a multi-purpose spray on small gardens and for spot treatments of important insect infestations to prevent spreading in larger garden areas. May also be used on other plants such as African violet, azaleas, begonias, camellias, clematis, cranesbills, delphiniums, dahlias, dianthus, dianthus, dogwoods, English ivy, hollyhocks, lantana, geraniums, crocosmia spires, heuchera spires, marigolds, phlox, pampas grass, snapdragons, spiderwort, sweet peas, daisies, and zinnias.

Effective when used as directed against WHISTLING, APHIDS, SPIDER AND RED MITES, EXPOSED TRIPS, LACE BUGS, JAPANESE BEETLES, PAVEMENT ANTS, CLOVER MITE AND ARMWORX.

When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Be prepared about wetting silver leaves, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Contact insects directly whenever possible.

NOTES: For use on plants being grown for sale or other commercial use or for commercial scale production or for research purposes.

STORAGE AND DISPOSAL

Do not contaminate feed, food or water by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry, and secure area. Store in original sealed container away from food or food.

PESTICIDE DISPOSAL: Washes resulting from the use of this product may be disposed of on-site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Render container inoperable. Do not reuse or refill this container.

IF SWALLOWED: Place in short or offer for recycling if available. If poorly filled: Call your local solid waste agency for disposal instructions. Never place UNUSED product down any indoor or outdoor drain.

NOTICE

It is impossible to eliminate all risks inherent in the use of this product.
