WENCO Brand CLEANING SYSTEMS

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is a phosphate-free, pH-neutral formulation designed to provide effective cleaning, deodorizing, and disinfectant for hospitals, nursing homes, hotels, schools, restaurants, and food processing plants. Where housekeeping is of prime importance in controlling cross-contamination from treated surfaces. This product, when used as directed, is formulated to disinfect the following hard, non-porous, inanimate, environments: surfaces, floors, walls, metal surfaces, stainless steel surfaces, plastic paneling, glazed ceramic tiles, plastic surfaces, vanity tops, shower stalls, bathtubs, and cabinets. For large areas such as operating rooms and patient care facilities, this product is designed to provide both general cleaning and deodorizing. This product deodorizes those areas which generally are hard to keep fresh smelling, such as garbage storage areas, sinks, garbage bins and cans, toilet bowls, and other areas which are prone to odors caused by microorganisms. This product is not for use in critical and semi-critical medical device surfaces.

GENERAL CLEANING — Apply this product to collect areas with a mop, cloth, sponge, hand pump trigger sprayer or low pressure atomizer. This product can be diluted 2 ounces per gallon. Thoroughly wet soiled surface and scrub as necessary.

DISINFECTION — To disinfect non-porous surfaces, add 2 ounces of this product per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure atomizer so as to wet all surfaces thoroughly. Allow to remain act for 10 minutes then rinse with clean water. For spray applications, apply 8 to 16 ounces from surface to surface, or with brush, sponge or cloth. Do not breathe spray mist. For heavily soiled areas, a pre-cleaning step is required.

To disinfect toilet bowls — Remove gross filth or soaks from surfaces with a toilet brush. Add 2 ounces of product to the bowl water. Brush or scrub the bowl completely using a scrub brush or toilet mop making sure to get under the rim. Let stand for 10 minutes and flush.

To disinfect food processing premises: Before using the product, food products and packaging materials must be removed for the area or carefully protected. For floors, walls, and storage areas, add 2 ounces of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure atomizer so as to wet all surfaces thoroughly. Allow to remain act for 10 minutes, then rinse with clean water. After use, all surfaces in the area must be thoroughly rinsed with potable water.

To disinfect restaurant food contact surfaces: Countertops, appliances, utensils, and equipment, add 2 ounces of this product per gallon of water. For heavily soiled areas, a pre-cleaning step is required. Apply solution with a cloth, sponge, or hand pump trigger sprayer so as to wet all surfaces thoroughly. Allow the surface to remain wet for 10 minutes, then rinse with clean water and wipe the surface with potable water. This product cannot be used to clean the following food contact surfaces: utensils, glassware, and dishes.

DEODORIZATION — To deodorize, apply this product as indicated under the heading DISINFECTION.
