Jewel®
Pre-Emergent Herbicide
Provides preemergence control of weeds in container and field grown ornamentals.

ACTIVE INGREDIENTS:
Oxadiazon† .......................................................... 2.00%
Pendimethalin™ .................................................. 1.25%
OTHER INGREDIENTS: ........................................... 96.75%
Total: 100.00%
†CAS # 19686-30-9
‡CAS # 40467-42-1
EPA Reg. No. 58185-34
EPA Est 82757-0H-1†
EPA Est 9198-0H-1‡

CAUTION
KEEP OUT OF REACH OF CHILDREN
Net Weight: 50 lb (22.68 kg)
If you have questions regarding the use of this product, call TOLL FREE 1-800-492-9255

PRECAUTIONARY STATEMENTS
Hazards To Humans And Domestic Animals
CAUTION. Harmful if swallowed. Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin, or clothing.

FIRST AID
IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor for treatment advice.
IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-888-241-6409 for emergency medical assistance.

PERSONAL PROTECTIVE EQUIPMENT (PPE)
Some materials that are chemical-resistant to this product are made of any waterproof material. If you want more options, follow the instructions for category A on an EPA chemical-resistance category selection chart.

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENGINEERING CONTROLS
When handlers use closed systems, enclosed cabs, or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides (40 CFR 170.2400) (d)(4-6), the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS
Users should:
• Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
• Remove clothing or PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
• Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish. Use with care when applying to areas adjacent to any body of water. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters.

Jewel® is a Registered Trademark of Evantis International BV, used under license.
AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170.

This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is:

- Coveralls
- Shoes plus socks
- Chemical-resistant gloves made of any waterproof material

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR part 170). The WPS applies when this product is used to produce agricultural plants on farms, forest, nurseries or greenhouses.

Keep all people, children, and pets out of the treated areas until dusts have settled.

RESISTANCE MANAGEMENT

Unlike insects and disease causing organisms, weed populations develop resistance very slowly so the most common form of resistance encountered in nurseries and landscapes is inherent natural resistance. Though inherent, natural resistance poses the same threat as any form of resistance that develops on site. This inherent, natural resistance is often only associated with a particular herbicide compound and usually not to an entire “group” or class of herbicides. Due to the relatively small number of pre-emergent herbicide classes available, and the fact that evidence of cross-resistance within pre-emergent herbicide classes is uncommon, it is likely that relating herbicides with different active ingredients, even if they are in the same group, will provide satisfactory weed control without causing the development of cross-resistance within the herbicide group.

Jewel® Pre-emergent Herbicide is a crystalline product composed of a Group 3 and a Group 14 herbicide. Any weed population may contain or develop plants naturally resistant to Jewel Pre-emergent Herbicide and to other Group 3 and 14 herbicides. Weed species with acquired resistance to Jewel Pre-emergent Herbicide may eventually dominate the weed population if Group 3 or 14 herbicides are used repeatedly in the same field or in successive years as the primary method of weed control. This may result in partial or total loss of control of these species by Jewel Pre-emergent Herbicide or other Group 3 or 14 herbicides.

To reduce the chance of herbicide resistance, consider the following:

- Use herbicides on a comprehensive IPM program that focuses on prevention, thorough sanitation and the use of non-selective post-emergent herbicides where possible, as well as other recognized IPM techniques.
- When possible on the same weed species, alternate applications of Jewel Pre-emergent Herbicide with non-Group 3 or Group 14 herbicides.
- Use herbicides from different target site of action groups registered for the same use that have different sites of action, and are both effective at the tank mix or prepack rate on the weeds of concern.
- Monitor treated weed populations for loss of field efficiency.
- Contact your local extension specialist, certified crop advisors, and/or manufacturer for herbicide resistance management and/or integrated weed management recommendations for specific crops and resistant weed biotypes.
- Contact Events at 800-492-8255 for further information or to report suspected resistance.

PRECAUTIONS/LIMITATIONS

- Do not apply to wet foliage.
- Do not apply product in enclosed greenhouses or polyhouse structures, as ornamental injury may occur.
- Do not apply in windy conditions that affect distribution of the product.
- Do not till or blend Jewel Pre-emergent Herbicide into soil or potting media or apply product directly to bare roots.
- The user assumes responsibility for any crop damage or other liability from the use of this product on ornamental plant species not recommended on this label.
- Avoid contamination of water for irrigation and domestic use.
- Avoid application to cement, stone, clothing or shoes. If contact occurs, brush off particles to prevent staining. If necessary, rinse with water.
- Not for use on vegetables. Do not use on fruit trees that will bear fruit within one year of application.
- This product does not control established weeds.

CONTAINER APPLICATION RECOMMENDATIONS

- Apply this product to dry foliage only.
- Remove established weeds from potted liners prior to transplanting into containers.
- After planting, irrigate with approximately ½ to 1 inch of water to firm the planting media around the root system.
- After two regular irrigation applications and after foliage has dried, broadcast product evenly over the container growing area.
- **Jewel** Pre-emergent Herbicide should be applied at the recommended rate with a properly calibrated spreader, which will assure accurate, even particle distribution.
- For best results, water immediately (½ to 1 inch) after application to remove granules from the soil and activate the herbicide.
- Do not destroy the chemical barrier by disturbing the growing medium (such as by pulling weeds).
- Allow at least 2-4 months span between any two applications of **Jewel** Pre-Emergent Herbicide or a rotational partner such as OCH₂® or Rout®.
- Always read the entire product label prior to application to make sure the rotational partner is suited for the crop and use site.

**FIELD GROWN NURSERY AND LANDSCAPE APPLICATION RECOMMENDATIONS**

- Apply this product to dry foliage only.
- In newly planted areas, irrigate with approximately ½ to 1 inch of water from irrigation or rainfall to firm the soil around the root system of transplants.
- Prior to applying **Jewel** Pre-emergent Herbicide in existing landscapes or field nurseries, remove established weeds from areas to be treated with light cultivation, post-emergent herbicide, or an appropriate combination of both.
- This herbicide should be applied at the recommended rate with a properly calibrated spreader, which will assure accurate, even particle distribution.
- For best results, water immediately (½ to 1 inch) after application to remove granules from the soil and activate the herbicide. If no irrigation is available, try to time the application prior to expected rainfall. Failure to activate the herbicide with irrigation or rainfall may result in poor weed control.

**Plants that have been found to be tolerant to Jewel® Pre-emergent Herbicide**

There is limited data to support application to annuals.

**Trees**

- Apple (Malus spp.)
- Crabapple (Malus spp.)
- Arborvitae (Thuja spp.)
- Ash (Fraxinus spp.)
- Bald Cypress (Taxodium distichum)
- Leyland Cypress (Cupressocyparis leylandii)
- Cedar (Thuja spp.)
- Cedar, Red (Juniperus virginiana)
- Cedar, Atlas (Cedrus atlantica)
- Dogwood (Cornus spp.)
- Elm (Ulmus japonica)
- Fr. Douglas (Pseudotsuga menziesii)
- Ginkgo (Ginkgo biloba)
- Holly (Ilex spp.)
- Lilac (Syringa spp.)
- Magnolia (Magnolia spp.)
- Maple (Acer spp.)
- Oak (Quercus spp.)
- Palm (several)
- Pine (Pinus spp.)
- Poplar (Populus spp.)
- Redwood, Dawn (Metasequoia glyptostroboides)

**Shrubs**

- Bamboo (Bambusa spp.)
- Barberry (Berberis spp.)
- Boxwood (Buxus spp.)
- Butterfly Bush (Buddleia davidii)
- Camellia (Camellia spp.)
- Deutzia (Deutzia gracilis)
- Escallonia (Escallonia spp.)
- Euonymus (Euonymus spp.)
- Forsythia (Forsythia intermedia)
- Fothergilla (Fothergilla gardenii)
- Gardenia (Gardenia jasminoides)
- Honeyuckle (Teaninsia / Lonicera spp.)
- Holly (Ilex spp.)
- Hydrangea (Hydrangea arborescens)
- Juniper (Juniperus spp.)
- Laurel (Prunus spp.)
- Laurel (Laurus nobilis)
- Lucehitch (Lecithosia spp.)
- Lily (Lilium spp.)
- Lily of the Nile (Agapanthus spp.)
- Orange Holly (Mahonia aquifolium)
- Mock Orange (Philadelphus virginalis)
- Myrtle (Myrtus communis)
- Nandina (Nandina domestica)
- Oleander (Nerium oleander)
- Pyracantha (Pyracantha coccinea)
- Rose (Rosa spp.)
- Sweet Pepperbush (Cotinus coggyria)
- Yew (Taxus spp.)
Plants that have shown injury from Jewel® Pre-emergent Herbicide

- Begonia (Begonia spp.)
- Cannas (Canna spp.)
- Dahlia (Dahlia spp.)
- Euryops (Euryops spp.)
- Heliotrope (Heliotropium spp.)
- Lithospermum (Lithospermum ramosissimum)

Jewel Pre-emergent Herbicide provides preemergence control of the following broadleaf weeds and grasses:

Grassy Weeds
- Annual Bluegrass (Poa annua)
- Annual Sedge (Carex viridula)
- Barnyardgrass (Echinochloa crusgalli)
- Crabgrass, Large (Digitaria sanguinalis)
- Crabgrass, Smooth (Digitaria sanguinalis)
- Fall Pentachlo (Panicum dichotomiflorum)
- Field Sandwort (Cerastium arvense)
- Foxtail, Bristle (Setaria viridis)
- Foxtail, Green (Setaria viridis)
- Foxtail, Yellow (Setaria glauca)
- Goosegrass (Eleusine indica)
- Hairgrass (Bromus inermis)
- Wild Oats (Avena fatua)

Broadleaf Weeds
- Bittercress (Cardamine hirsutula)
- Bristly Oxtongue (Pulicaria glandulosa)
- Carpetweed (Malpigia vicaria)
- Chestnutweed (Stipa pennata)
- Common Chickweed (Stellaria media)
- Common Groundsel (Senecio vulgaris)
- Field pennycress (Thlaspi arvense)
- Flowerweed (Epilobium angustifolium)
- Knotweed (Polygonum aviculare)
- Lambsquarters (Chenopodium album)
- Marestail (Brachypodium aristatum)
- Oxtail (Avena fatua)
- Purslane (Portulaca oleracea)
- Pigweed (Amaranthus retroflexus)
- Sheep sorrel (Rumex acetosella)
- Sow Thistle (Cirsium arvense)
- Spurrey (Veronica spp.)
- Spurry Medick (Medicago polymorpha)
- Spurry, Field (Echinochloa crusgalli)
- Spurge, Yellow (Euphorbia esula)
- Yellow Woodruff (Oxalis stricta)

Ornamental Grasses
- Blue Flax (Linum perenne)
- Celosia (Celosia argentea)
- Purple Fountain Grass (Pennisetum setaceum)
APPLICATION RATE

Do not exceed 100 lbs per acre per application.

</table>

APPLICATION LIMITATIONS

- Do not apply more than 4 pounds of oxadiazon per acre for a single application.
- Do not apply more than 6 pounds of oxadiazon per acre per year except in areas where there is heavy weed infestations.
- In areas of heavy weed infestations, the maximum application rate is 8 pounds oxadiazon per acre per year.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage and disposal.

PESTICIDE STORAGE: Store in a clean, dry place.

PESTICIDE DISPOSAL: Pesticide wastes are toxic.

Improper disposal of excess pesticide, spray mixture or rinsate is a violation of Federal law.

If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, the hazardous waste representative of the nearest EPA/Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container.

Do not reuse or refill this container. Completely empty bag into application equipment. Then offer for recycling, if available, dispose of empty bag in a sanitary landfill or by incineration, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

DISCLAIMER AND LIMITATION OF LIABILITY

IMPORTANT NOTICE FROM Eversys NA INC. ("Eversys").

PLEASE READ BEFORE USE.

To the extent consistent with applicable law, user or buyer accepts the conditions, disclaimer of warranties and limitations of liability.

Read the entire directions for use, conditions of warranties and limitations of liability before using this product. If terms are not acceptable, return the unused product container at once for full refund.

CONDITIONS: The directions for use of this product are believed to be adequate and the user or buyer must always follow the label directions carefully and exercise judgment and caution when using this product under their growing conditions. However, it is impossible to eliminate all risks associated with the use of this product. Crop injury, ineffective results or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application, all of which are beyond the control of Eversys. All such risks shall be assumed by the user or buyer.

WARRANTY: This product corresponds to all claims and descriptions set forth in the label and is reasonably fit for the purposes set forth in the directions for use on the label when used in accordance with those directions. This warranty is subject to the conditions and limitations stated herein. Eversys recognizes that the rights and remedies of the user or buyer are subject to the provisions of the applicable law, but makes no other warranties or representations, expressed or implied, of merchantability or of fitness for a particular purpose or otherwise, that extend beyond the statements made on this label. No agent of Eversys shall be authorized to make any warranties beyond those contained herein or to modify the warranties contained herein. Subject to the user's or buyer's rights and remedies under the applicable law, Eversys disclaims any liability whatsoever for special, incidental or consequential damages resulting from the use of handling of this product.

LIMITATIONS OF LIABILITY: Subject to the user's or buyer's rights and remedies under the applicable law, the exclusive remedy of the user or buyer and the liability of Eversys or its affiliates, for any and all losses, injuries or damages resulting from the use or handling of this product, whether in contract, warranty, tort, negligence, strict liability, or otherwise, shall not exceed the purchase price paid by the user or buyer for the quantity of this product involved or, at Eversys' election, the replacement of the product.

To the extent consistent with applicable law, Eversys must have prompt notice of any claim so that a timely investigation of buyer's or user's claim can be made. Buyer and all users shall promptly notify Eversys of any claims, whether based on contract, negligence, strict liability, tort or otherwise, or be barred from any remedy.

Attention: This product contains a chemical known to the State of California to cause cancer.
