Oxivir™ Tb

General *Virucide, Bactericide, Tuberculocide, Fungicide, Sanitizer

ACTIVE INGREDIENT:
Hydrogen Peroxide ........................................... 0.5%
OTHER INGREDIENTS: ........................................ 95.5%
TOTAL: ......................................................... 100.0%

KEEP OUT OF REACH OF CHILDREN CAUTION
See additional precautionary statements on side panel.

For Use in Health Care, Medical, Industrial & Institutional Facilities, Food Processing Establishments, and Hospitals.

This product cleans, disinfects and denatures hard, non-porous inanimate hospital or medical surfaces in one step with no rinsing required. Use daily on the following hard, non-porous inanimate surfaces: vent, painted surfaces, plastic surfaces, glazed ceramic, glazed porcelain, laminated surfaces and bolted metal surfaces associated with chairs, walls, ceilings, tables, chairs, countertops, telephones, fixtures, doors, sinks, toilet seats, toilet seats, sinks, hand rails, or other metal or plastic items found in health care facilities, hospitals, patient rooms, operating rooms, power rooms, and laboratories. It can be used to pre-clean and disinfect hospital rooms, operating rooms, patient bedrooms and bathrooms, patient beds, incontinence pads, mattress covers, bandages, band-aid, non-sterile medical equipment surfaces – almost any washable and non-laid contact surface where disinfection is required. A portable water rinse is required when disinfecting food contact surfaces. Do not use on glasses, dishes and sterling.

When used as directed, this product is highly effective against a wide variety of pathogenic microorganisms including bacteria, antibiotic resistant bacteria, viruses, and fungi.

Using approved ACAC test methods under Good Laboratory Practices, 5% serum lead and 1 minute contact time this product kills the following on hard, non-porous inanimate surfaces:

Bactericidal Activity: Pseudomonas aeruginosa (ATCC 15692), Staphylococcus aureus (ATCC 6538), Salmonella enterica, (ATCC 10986)

*Virucidal (Herpes Virus, Human Rhinovirus, 81 strain) (not certified)
See reference sheet for a complete list of organisms and additional directions for use.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not to be used on a terminal standard group or any other test that is not labeled directly into the machine. A label used to control the blood stream or material that is used to control the blood stream is not to be used to control the blood stream. The product must be used to control the blood stream or material that is used to control the blood stream. The product may be used to control the blood stream or material that is used to control the blood stream. The product may be used to control the blood stream or material that is used to control the blood stream. The product may be used to control the blood stream or material that is used to control the blood stream. The product may be used to control the blood stream or material that is used to control the blood stream.

For use as a One-Step Cleaner/Disinfectant Product: Pre-clean heavily soiled areas. Apply product by coarse trigger spray or hand, non-porous inanimate surfaces. Spray 4 - 8 inches from surface, allowing air to wet surfaces thoroughly. All surfaces must remain wet for 1 minute. Use a 3-minute contact time for 10 minutes contact time for 10 minutes. See contact time for 10 minutes contact time. Always wipe dry surface thoroughly. All wet contact surfaces must be rinsed with diluted water. Do not use on glasses, dishes or silver.

FOR INSTITUTIONAL USE

Manufactured for: © 2012 Diversey, Inc.,

*KILLS HIV and HBV and MRSA on pre-cleaned inanimate surfaces/objects previously soiled with blood/body fluids in health care settings (Hospitals, Nursing Homes) and other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood/body fluids, and in which the surface should be likely to be soiled with blood/body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) associated with AIDS, Hepatitis B Virus (HBV), or Hepatitis C Virus (HCV).

SPECIAL INSTRUCTIONS FOR CLEANING AND DISINFECTING AGAINST HIV-1 (AIDS Virus), HBV or HCV OF SURFACES/OBJECTS SOILED WITH BLOOD/BODY FLUIDS:

Personal Protection: Disposable latex or vinyl gloves, gowns, face masks, and eye coverings as appropriate, must be worn during all cleaning of body fluids, blood, and disinfection procedures.

Cleaning Procedures: Blood/Blood Fluids must be thoroughly cleaned from surfaces/objects before application of this product.

Contact Time: Allow surface to remain wet for 1 minute to kill HIV-1, HBV and HCV. Use a 5-minute contact time for TB and a 10-minute contact time for fungi.

Disposal of Infectious Material: Blood/Blood Fluids must be autoclaved and disposed of according to federal, state, and local regulations for the infectious waste disposal.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal. Store in original container in areas inaccessible to children. Keep securely closed.

Pesticide Storage: Store in a dry, well-ventilated area away from chemicals, electrical equipment, or metal, or in a safe place. Do not use in a covered or closed area. Do not store with other cleaning or disinfecting products.

PESTICIDE DISPOSAL: Materials resulting from the use of this product may be disposed of as solids or in an approved waste disposal facility. For more information on disposal of unopened, unwanted product and the cleanup of spills, contact the EPA/Regional Office of the manufacturer for guidance.

CONTAINER DISPOSAL: Non-returnable container. Do not reuse or refill this container. Wrap entire container and discard in trash.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic invertebrates. Cautions should be used when applying products because they may be at risk.

IN CASE OF EMERGENCY, CALL A POISON CONTROL CENTER OR DOCTOR FOR TREATMENT ADVICE.

Have the product container or label with you when calling a Poison Control Center or doctor for going in for treatment.

Oxivir® Tb

When used as directed, this product is highly effective against a wide variety of pathogenic microorganisms including bacteria, antibiotic resistant bacteria, viruses and fungi.

HOSPITAL DISINFECTANT: Bactericidal in the presence of 5% serum load and 1 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.

BACTERICIDAL ACTIVITY:
* Staphylococcus aureus, (ATCC 6538)
* Salmonella enterica, (ATCC 10708) (formerly known as Salmonella choleraesuis)
* Pseudomonas aeruginosa, (ATCC 15442)
* Acinetobacter baumannii, (ATCC 19606)
* Escherichia coli 0157:H7, (ATCC 35150)

Antibiotic-Resistant Bactericidal Activity:
* Enterococcus faecalis, (ATCC 51575) (Resistant to Vancomycin [VRE])
* Staphylococcus aureus, (ATCC 33592) (Resistant to Methicillin [MRSA])

*VIRUCIDAL in the presence of 5% serum load and 1 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.

*Viruses:
* Hepatitis B Virus (HBV), Duck Hepatitis B Virus (DHBV) as surrogate (Acquired from Hepadnavirus Testing)
* Hepatitis C Virus (HCV), Bovine Viral Diarrhea Virus (BVDV) as surrogate (Acquired from National Veterinary Services Laboratories)
* Herpes Simplex Virus, Type 1 (HSV-1), (ATCC VR-733)
* Herpes Simplex Virus, Type 2 (HSV-2), (ATCC VR-734)
* HIV-1 (AIDS Virus), Strain HTLV-IIIa (HIV-1), (Acquired from Adv. Biotechnologies, Inc.)
* Human Coronavirus, (ATCC VR-740)
* Influenza A/Hong Kong, (ATCC VR-544)
* Norovirus, (Feline Calicivirus, ATCC VR-782 as the surrogate)
* Poliovirus Type 1, Strain Brulinde, (ATCC VR-1000)
* Rhinovirus Type 37, Strain 151-1, (ATCC VR-1147)
* Rotavirus WA, (Acquired from University of Ottawa)

TUBERCULOCIDAL in the presence of a 5% serum load and 5 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.

*Mycobacterium bovis* (Tb) (OT 451C150)

FUNGICIDAL - This product is fungicidal against the pathogenic fungi, *Trichophyton mentagrophytes* (ATCC 9533) (the fungus which causes Athlete's Foot) in the presence of a 5% serum load and 10 minute contact time at 20°C (68°F) when used as directed on hard surfaces found in bathrooms, shower stalls, locker rooms, or other clean, non-porous, hard surfaces commonly contacted by bare feet.

*Trichophyton mentagrophytes* (ATCC 9533)

Non-Food Contact Surface Sanitizer for hard, non-porous surfaces – in the presence of a 5% serum load and 30 second contact time at 20°C (68°F) on hard, non-porous environmental surfaces.

*Enterococcus faecalis*, (ATCC 51575) (Resistant to Vancomycin [VRE])
*Escherichia coli 0157:H7, (ATCC 35150)
*Klebsiella pneumoniae*, (ATCC 4352)
*Pseudomonas aeruginosa*, (ATCC 15442)
*Salmonella enterica*, (ATCC 10708)
*Staphylococcus aureus*, (ATCC 6538)
*Staphylococcus aureus*, (ATCC 33592) (Resistant to Methicillin [MRSA])

For use as a Non-Food Contact Sanitizer: Pre-clean heavily soiled areas. Apply Solution with cloth, disposable wipe or mop to hard, non-porous environmental surfaces. Allow the surface to remain wet for 30 seconds. Wipe surfaces dry, or rinse or allow to air dry. Change solution after each use (application).

See container label for First Aid, Precautionary Statements and complete Directions for Use.
