OXIVIR Tb

General *Viricide, Bactericide, Tuberculocide, Fungicide, Sanitizer

Keep out of reach of children. Caution See additional precautionary statements on side panel.

Active ingredient: Hydrogen Peroxide 0.5%
Other ingredients: 99.5%
Total: 100.0%

For Use in Healthcare, Medical, Industrial & Institutional Facilities, Food Processing Establishments, and Hospitals

This product cleans, disinfects and deodorizes hard, non-porous inanimate hospital or medical surfaces in one step with rinsing required. Use daily on the following hard, non-porous inanimate surfaces: vinyl, painted surfaces, plastic surfaces, glazed ceramics, glazed porcelain, textured surfaces and tiled inanimate surfaces associated with floors, tables, counters, sinks, countertops, shower tops, mirrors, glass doors, sink tops, doors, windows, panes, cabinets, bed frames, medical equipment surfaces, and tile inanimate surfaces. It can be used to pre-clean and discard hospital items: wheelchairs, patient stretchers and beds, patient beds, IV poles, IV tubing, vision, toilet seats, wash basins, bed pans, non-critical medical equipment surfaces, and tile inanimate surfaces.

When used as directed, this product is highly effective against a wide variety of pathogenic microorganisms, including bacteria, antibiotic-resistant bacteria, viruses, and fungi.

Using approved AAD* test methods under Good Laboratory Practices, 5% serum load and 1 minute contact time this product kills the following on hard, non-porous inanimate surfaces:

- Bac terial Activity: Pseudomonas aeruginosa, ATCC 15442, Staphylococcus aureus, ATCC 6538, Salmonella enterica, ATCC 10987
- *Viruses: Norovirus, (Feline Calicivirus, ATCC VR-782) as the surrogate

See reference sheet for a complete list of organisms and additional directions for use.

Directions for use:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

This product is not to be used as a terminal sterilant high level disinfectant on any surface or instrument that (1) is introduced directly into the human body, either or in contact with the blood stream or normally sterile areas of the body, or (2) contacts intact mucous membranes, unless it does not penetrate the intact barrier or otherwise enter normally sterile areas of the body. This product may be used pre-clean or decontamination or critical or semi-critical medical devices prior to sterilization or high level disinfection.

For use as a One-Step Cleaner/Disinfectant Product: Pre-clean heavily soiled areas. Apply product by coarse trigger sprayer to hard, non-porous inanimate surfaces. Spray 6–8 inches from surface, making sure to wet surfaces thoroughly. Allow the surface to remain wet for 1 minute. Wipe surfaces dry, rinse, or allow to air dry. Repeat as necessary.

Pre-clean heavily soiled areas. Apply product by coarse trigger sprayer to hard, non-porous inanimate surfaces. Spray 6–8 inches from surface, making sure to wet surfaces thoroughly. Allow the surface to remain wet for 5 minutes. Wipe surfaces dry, rinse, or allow to air dry. Change solution after each use.

For Use as a Sanitizer/Surface Disinfectant: Pre-clean heavily soiled areas. Apply product by coarse trigger sprayer to hard, non-porous inanimate surfaces. Spray 6–8 inches from surface, making sure to wet surfaces thoroughly. Allow the surface to remain wet for 10 minutes. Wipe surfaces dry, rinse, or allow to air dry.

For Use as a Tuberculocide: Pre-clean heavily soiled areas. Apply product by coarse trigger sprayer to hard, non-porous inanimate surfaces. Spray 6–8 inches from surface, making sure to wet surfaces thoroughly. Allow the surface to remain wet for 10 minutes. Wipe surfaces dry, rinse, or allow to air dry.

For Use as a Fungicide: Pre-clean heavily soiled areas. Apply product by coarse trigger sprayer to hard, non-porous inanimate surfaces. Spray 6–8 inches from surface, making sure to wet surfaces thoroughly. Allow the surface to remain wet for 10 minutes. Wipe surfaces dry, rinse, or allow to air dry.

To Kill Fungi: Pre-clean heavily soiled areas. Apply product by coarse trigger sprayer to hard, non-porous inanimate surfaces. Spray 6–8 inches from surface, making sure to wet surfaces thoroughly. Allow the surface to remain wet for 10 minutes. Wipe surfaces dry, rinse, or allow to air dry.

To Kill Viruses, Bacteria, and Fungi: Pre-clean and decontaminate surfaces/objects before application of this product.

CAUTION: Caution should be used when applying indoors because pets may be at risk.

This product is toxic to birds, fish and aquatic invertebrates.

ENVIRONMENTAL HAZARDS:

Do not contaminate water, food or feed by storage or disposal. Store in original container in areas inaccessible to small children. Keep securely closed.

Storage and Disposal:

PESTICIDE STORAGE:

Store in a dry, well-ventilated area away from chemicals, direct light, heat or open flame. Do not mix with other cleaning or disinfecting products.

PESTICIDE DISPOSAL:

Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. For more information on the disposal of unused waste or the clean up of spills, contact the EPA Region Office of the Manufacturer for guidance.

CONTAINER DISPOSAL:

Non-refillable container. Do not reuse or refill this container. Wrap empty container and label in trash.

ENVIRONMENTAL HAZARDS:

This product is toxic to birds, fish and aquatic invertebrates. Caution should be used when applying indoors because pets may be at risk.

Reference Sheet

Oxivir® Tb

Using approved AGAC test methods under Good Laboratory Practices, 5% serum load and 1 minute contact time this product kills the following on hard-nonporous inanimate surfaces.

**Bactericidal Activity:**
- *Staphylococcus aureus* (ATCC 6538) (Resistant to Methicillin [MRSA])
- *Salmonella enterica* (ATCC 10708) (Resistant to Vancomycin [VRE])
- *Pseudomonas aeruginosa* (ATCC 15442) (Multi-Drug Resistant, Resistant to Cefazolin, Gentamicin, Trimethoprim/Sulfa, and Ertapenem)

**Antibiotic-Resistant Bacteria Activity:**
- *Enterococcus faecalis* (ATCC 51575)
- *Escherichia coli* (ATCC 35150) (with extended beta-lactamase resistance (ESBL), (ATCC BAA-196)
- *Enterobacter aerogenes* (ATCC 13048)
- *Klebsiella pneumoniae* (ATCC 13048) (Resistant to Methicillin [MRSA])
- *Staphylococcus aureus* (ATCC 6538)
- *Salmonella enterica* (ATCC 10708)

**Fungicidal Activity:**
- *Trichophyton mentagrophytes* (ATCC 9533) (fungus which causes Athlete’s Foot) in the presence of a 5% serum load and 5 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.
- *Mycobacterium bovis* in the presence of a 5% serum load and 5 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.
- *Pseudomonas aeruginosa* (ATCC 15442) (Multi-Drug Resistant, Resistant to Cefazolin, Gentamicin, Trimethoprim/Sulfa, and Ertapenem) (ATCC BAA-1705) (Carbapenem-Resistant)

**Virocidal Activity:**
- *Hepatitis A Virus, (ATCC VR-1147)*
- *Human Coronavirus, (ATCC VR-740)*
- *Poliovirus Type 1, Strain Brunhilde, (ATCC VR-500)*
- *Rheovirus Type 1, Strain 151-1, (ATCC VR-517)*
- *Influenza A, Hong Kong, (ATCC VR-544)*
- *Rotavirus WA, (Acquired from University of Ottawa)*
- *Hepatitis B Virus (HBV), Duck Hepatitis B Virus (DHBV) as surrogate (Acquired from Adv. Biotechnologies, Inc.) (ATCC VR-1000)*
- *Hepatitis C Virus (HCV), Bovine Viral Diarrhea Virus (BVDV) as surrogate (Acquired from National Veterinary Services Laboratories)*
- *Herpes Simplex Virus, Type 2 (HSV-2)*
- *Herpes Simplex Virus, (Acquired from Bio. Eotechonolgies, Inc.)*
- *Human Coronavirus, (ATCC VR-740)*
- *Poliovirus Type 1, Strain Brunhilde, (ATCC VR-500)*
- *Rheovirus Type 1, Strain 151-1, (ATCC VR-517)*
- *Influenza A, Hong Kong, (ATCC VR-544)*
- *Rotavirus WA, (Acquired from University of Ottawa)*

**Malodor Counteractancy**
- eliminates odors and odor-causing bacteria on hard, nonporous surfaces in restroom areas, behind and under sinks and counters, storage areas, and other places feet.

**Tuberculocidal**
- *Mycobacterium bovis* in the presence of a 5% serum load and 5 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.

**Fungicidal**
- *Trichophyton mentagrophytes* (ATCC 9533) (fungus which causes Athlete’s Foot) in the presence of a 5% serum load and 5 minute contact time at 20°C (68°F) on hard, non-porous environmental surfaces.

**Disinfectants**
- *Enterococcus faecalis* (ATCC 51575)

** EPA Reg. No. 70627-56**

**SDS # MS0800255**

**Manufactured for:** ©2015 Diversey, Inc., PO Box 19747, Charlotte, NC 28219-0747 U.S.A. All Rights Reserved

**DIRECTIONS FOR USE:**
- It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
- For use as a Non-Food Contact Sanitizer: Pre-clean heavily soiled areas. Apply Solution with spray, cloth, disposable wipe or mop to hard, non-porous environmental surfaces. Allow the surface to remain wet for 30 seconds. Wipe surfaces dry, rinse or allow to air dry. Change solution after each use application.
- Animal Housing Facilities Including Veterinary Clinics, Farms, Livestock, Swine and Poultry Houses: For cleaning and disinfecting the following hard, non-porous surfaces: feeding surface to remain wet for 30 seconds. Wipe surfaces dry, rinse or allow to air dry. Change solution after each use application.

**NOTE: Read and check carefully all information, including the specifications in this box. The job will not be sent to print until final okay is received. All information contained on the label and in this box are the responsibility of the final approver.**
