**Potato Sprout Control**

**ACTIVE INGREDIENT:**
- Clow Oil

**OTHER INGREDIENTS (Glycerin; Potassium Oleate; Water):**
- 85.0%

**ACTIVE INGREDIENT:**

**DIRECTIONS FOR USE**
- This product is used for treating potatoes to suppress sprouting after storage and watering. This product will not, if used in accordance with the label, prevent wash formation of potatoes.

**DO NOT APPLY IN THE FIELD.**
- Potatoes may deteriorate or otherwise be damaged by bacteria, fungi, insects, physiological aging and physical effects such as internal sprouting, environmental factors (such as humidity, temperature and sunlight), and other causes which are unrelated to the application of this product, and which may occur whether or not this product is applied to the potatoes.

**DO NOT USE ON SEED POTATOES:**
- This product will kill emerging buds on potato tubers and therefore should NOT be used on potatoes that will be used for seed. The damage to the emerged buds is permanent although secondary buds may grow after 30 to 90 days. The time period of effective sporadic suppression may vary depending on many conditions beyond the control of the manufacturer and/or seller, including, but not limited to, timing and method of application, variety and condition of the stored crop, and mixtures or treatments with other chemicals. Wash contaminated equipment thoroughly with soap and hot water before use on seed potatoes.

**EQUIPMENT:**
- Biowash 15-EC is usually applied as a 0.8% to 1.8% emulsion wash on the drying table, or similar station, after the potatoes have been washed. Equipment shall be set to apply wash emulsion evenly on the potatoes moving across the rollers. Rolling or tumbling action greatly improves coverage compared to flat belt conveyors. Thorough coverage of the potatoes by the emulsion will provide the best results. For further information about application equipment, contact your local Biowash Distributor Representative.

**APPLICATION:**
- Proper treatment solutions of 0.8% to 1.8% solutions (Column A) may be prepared by adding Column B to Column C:

<table>
<thead>
<tr>
<th>Column A</th>
<th>Column B</th>
<th>Column C</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.21% (12,100 ppm)</td>
<td>1.00% (10,000 ppm)</td>
<td>0.83% (8,300 ppm)</td>
</tr>
</tbody>
</table>

*Emulsion concentration

**NOTE:**
- Thorough agitation at initial mixing is required — no further agitation needed after the emulsion is completely mixed.

**STORAGE AND DISPOSAL:**
- Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:**
- Biowash 15-EC and the emulsified solution (once completely mixed) can be stored at room temperature. Store in a well-ventilated place. Keep container tightly closed when not in use. Store locked up.

**Disposal:**
- Washes resulting from the use of this product may be disposed of in an on-site or in accordance with applicable regional, national and local laws and regulations.

**Neat Analysis:**
- The product is a concentrate. Concentration may vary from batch to batch.

**NOTICE TO BUYER:**
- Read the information before using this product. If the products are not acceptable, you should return the unused product container immediately to the vendor.

**SAFETY DATA SHEET:**

**Manufactured By:**
- Pace International, LLC

**KEEP OUT OF REACH OF CHILDREN**

**DANGER - PELIGRO**

Si usted no entiende todas las etiquetas, hágase un pregunta para que se explica en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

**FIRST AID**
- IF SWALLOWED: Call a POISON CENTER / doctor if you feel unwell. Rinse mouth. Do not induce vomiting unless told to due so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.
- IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER / doctor if you are feeling unwell or are experiencing respiratory symptoms.
- IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- IF ON SKIN: Wash with plenty of soap and water. Take off contaminated clothing and wash it before reuse. If skin irritation occurs: Get medical advice/adult.

**SECONDARY OR PRODUCTIVE PPE**
- Personal Protective Equipment (PPE)

**ENVIRONMENTAL HAZARDS**
- Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when cleaning equipment or disposing of equipment wash waters.

**LEGAL DISCLAIMER**
- The exclusive remedy against the Company for any cause of action relating to the handling or use of this product is a claim for a refund of any portion of the purchase price that has not been used. To the extent consistent with applicable law, the Company and the seller offer this product, and the purchaser and user accept this product, subject to the foregoing warranty, terms of sale, and limits of liability, all of which are beyond the Company’s control. To the extent consistent with applicable law, all such risks are assumed by the user.

**NOTICE TO REIMBURSEMENT**
- The use of Biowash 15-EC is covered by US Patent 5,358,436 and other patents pending. Biowash is a registered trademark of Pace International, LLC.
